# AquaOptic

Multi-purpose contact lens solution

Take care of your lenses  
and eyes!

**AquaOptic** is a multi-purpose contact lens solution. It contains Hyaluronic acid (natural lubrication and rewetting) and Succinic acid (intensive oxygenation). The product is available in various sizes: S 60 ml / M 120 ml / L 250 ml / XL 450 ml, plus a lens container. The container is labeled with 'L' and 'R' to indicate left and right lenses. The product is made of plastic and is manufactured by INGE in Italy. The art number is TP-1346.

**ADVANTAGES:**

- > for sensitive eyes
- > long-term moisturising
- > cleaning & disinfection

**Contains**  
**hyaluronic and**  
**succinic acids**

**Dosage forms:**

- S 60 ml / M 120 ml /
- L 250 ml / XL 450 ml
- + lens container
