# Packaging Capability

# Customized Packaging Service

**GS1 Serialization:** This can meet the requirements of the latest international regulations and mark the serial number on the smallest package, to facilitate drug tracking and tracing.

## Benefits and Advantages of Free Trade Zone (FTZ)

- AUPA FTZ offers a unique opportunity to **defer, reduce or eliminate customs duties on products**, which result in significant cost saving. Customs duties only come into effect when products leave the FTZ and enter the local market. If a product is re-exported, no duties are due.
- AUPA FTZ is found in the port and near airport. It reduces the lead time of transportation. FTZ give customers another storage option.
- AUPA offers additional services, such as inspection, inventory management and technical services, which help boost velocity in the overall supply chain and deliver cost saving.

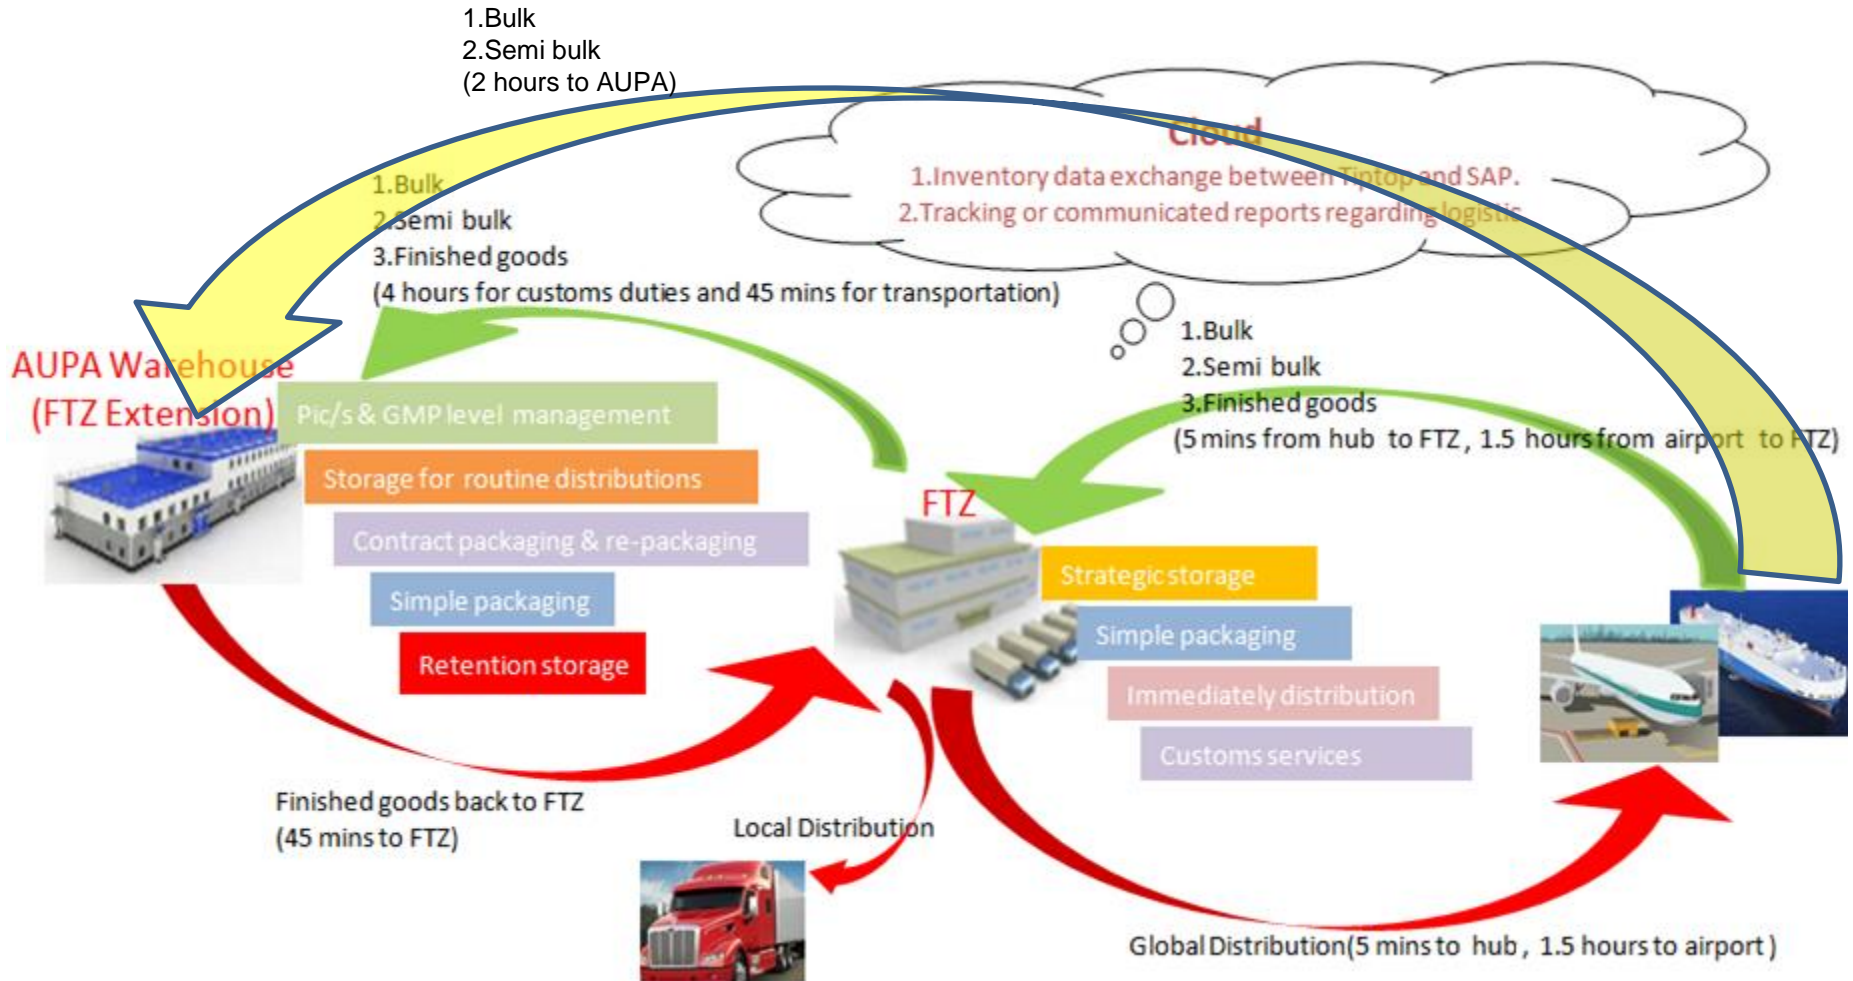

### Defer, reduce or eliminate customs duties on products:

1. Customs Duty:  $\text{Customs Taxable Value} \times \text{Tariff Rate}$  (depend on Customs Import Tariff)
2. Business Tax:  $(\text{Customs Taxable Value} + \text{Customs Duty}) \times 5\%$
3. Trade Promotion Service Fee:  $\text{Customs Taxable Value} \times 0.04\%$
4. Port Duties: sea shipment only
