Company Profile

Who we are

FORU Chemtech was established in 2017 by a team of professionals specialized in chemical engineering, organic chemistry, business management, mostly with over 15 years experiences in the line. FORU embraced the challenge from evolving pharmaceutical industry and committed to develop quality products and services and grow along with our customers and partners. We will keep upgrading and being a part of pharmaceutical industry and contribute to it and make it benefit the human being.

What we do

R&D

We have R&D Lab center in Hangzhou, Zhejiang, China which is about 3000 Square meters, 30 staff with Doctor and Master degree in Organic chemistry, Chemical engineering, Analytic chemistry, Biochemistry, equipped with analytical and experimental equipments which allow us to do all of necessary lab development for the customers before entering into commercial stage.

Commercial Facility

We have a contracted well equipped OEM factory in Anhui, China, which is GMP approved, certified by ISO9001, 14000, 18000 etc., with an area up to 130,000 Square meters. With various reactors of size ranging 100L~6000L, able to do reactions including not limited to hydrogenation, nitration, chlorination under wide temperature ranges and elevated pressure.

CMO&CDMO

With our ability in organic synthesis, we are able to do CMO&CDMO for our customers, and we have good experiences dealing with various projects from customers in US, Europe

Regulation support

Paperwork compliance of regulations is of vital importance for pharmaceutical industry, we have good practices in helping our customers and partners fulfilling their regulation requirements from the early stage and save time and risks.

Why us

- **Committed and loyal team**, we keep Confidential Disclosure Agreements with the customers.

- **Contract honoring spirit**: We have never failed to execute any contract with any customer so far.

- **Fast response**: All requests will be responded to within 24 hours

- **Free of regulation risks**: Paperwork support from GMP approved facility.

- **Supply reliability and stability**: Good EHS practice free of regulation risks and enables us the supply reliability

Basic chemicals for synthesis

Succinic acid	Succinimide
Benzoic acid	Glyoxylic acid
Itaconic acid	Crotonic acid
Glycolic acid	Dicyandiamide
Guanidine carbonate	Dimethyl carbonate
Diethyl carbonate	Dicyclopentadiene
Ethyl L-Lactate	Mandelic acid

Solvents for synthesis

Propylene carbonate	Ethylene carbonate
Tetrahydrofuran(THF)	2-MeTHF
N-Hexane	N-Heptane
N-Octane	Iso-Hexane
DMSO	Cyclopentyl methyl ether(CPME)

Regulation compliance

Carbon-Neutral world

Eco-Friendly

APIs & Functional ingredients

Pranlukast hemihydrate	Sarpogrelate Hydrochloride
Mosapride Citrate	Celecoxib
Ganciclovir	Resveratrol
Nicotinamide	Caffeic acid
Hydroxytyrosol	Gamma Aminobutyric Acid

Products under patent protection are only for Research purpose.
