

COMPANY PROFILE

Presentation 2024

ABOUT OUR COMPANY

Pizeta Pharma S.p.A. is a pharmaceutical company established in 2010 in Perugia, in the centre of Italy.

It is engaged in research, development and marketing of original formulations supported by strong and rigorous scientific literature.

The products list includes innovative and high quality therapeutic solutions to improve the health and quality of life of patients, which are always at the "center of our attention".

VISION AND MISSION

VISION

BE A CHOICE OF EXCELLENCE

Our Scientific research is oriented to realize and sale products with **high level of innovation** with the aim to find the best solution for people's well-being.

MISSION

FIND INNOVATIVE FORMULATIONS HIGH MAINTAINING PRODUCTION STANDARDS

Our mission is focused to find innovative formulations according to rigorous production standards and **using only selected raw materials that are guarantee of safety and efficacy** for the patients.

OUR GOALS

PATENTED FORMULATIONS

We want to be unique and strongly desirable, to be the only solution in the market and be chosen as "the best". We offer **PATENTED products** to launch in new markets.

CLINICAL STUDIES

We strongly believe in our innovative products, we want to demonstrate their efficacy investing on clinical studies related to ingredient's combination we have selected.

RELIABILITY MADE IN ITALY

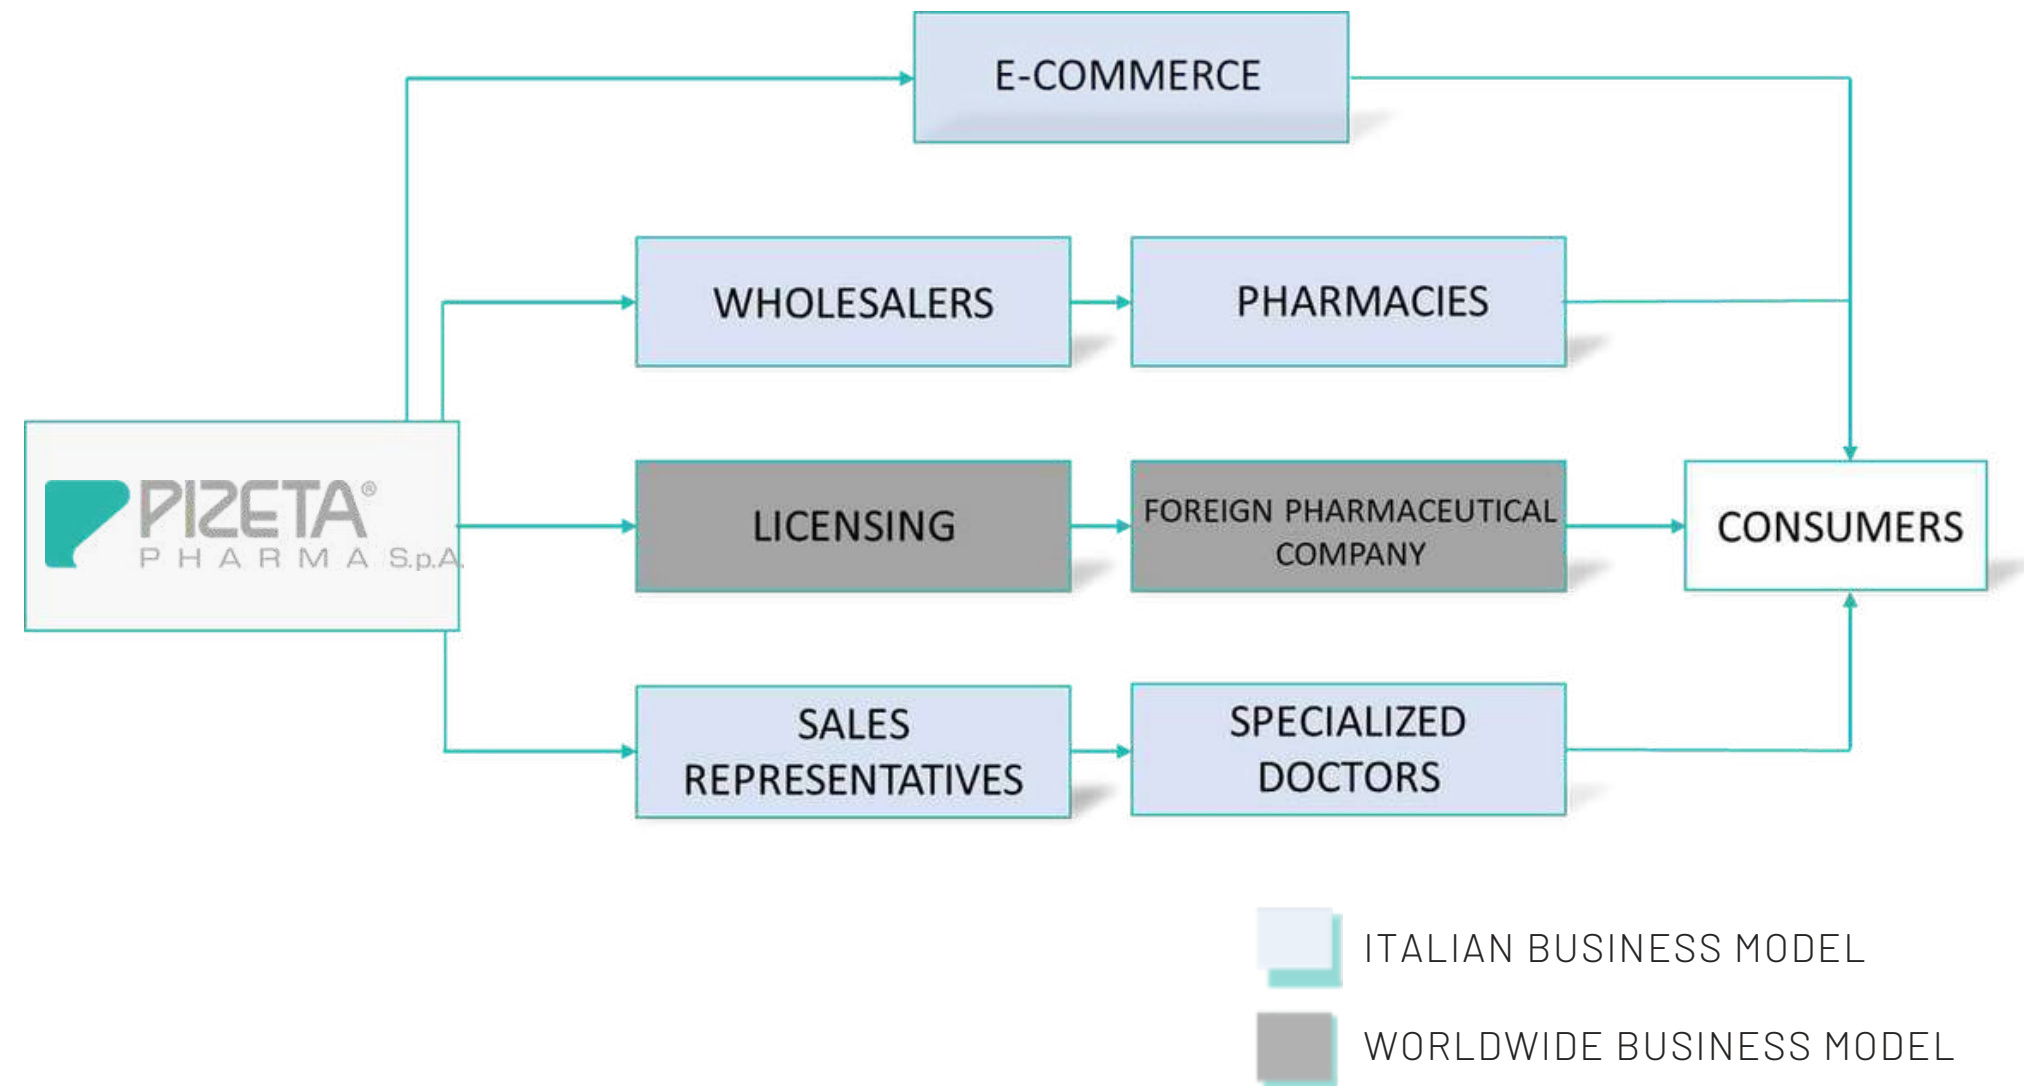

We have quality system certification **ISO 9001** and collaborate only with CMOs that have GMP and ISO certifications.

DIKIROGEN[®] INFERTILITY - PCOS

30 SACHETS

Dikirogen[®] is a food supplement with Myo-inositol, D-chiro-inositol, Manganese and Folic Acid, specifically formulated to restore metabolic and reproductive alterations due to insulin resistance.

The epimerization process, which converts Myo-inositol to D-chiro-inositol, is optimized thanks to the components of Dikirogen. Inositols are useful as coadjuvants in the treatment of conditions associated with Insulin resistance, such as Polycystic Ovarian Syndrome (PCOS) and its related events like amenorrhea and oligomenorrhea, infertility, low oocyte quality and gestational diabetes.

WHEN IS IT INDICATED?

- PCOS (menstrual irregularity, Hyperandrogenism, ovarian microcyst)
- Male and female infertility
- Cardiovascular diseases
- Visceral obesity

TREATMENT

- 1 sachet per day

PLUS

- Unique combination with optimal dosage of Myo-Inositol and D-Chiro-Inositol
- Dosage: one sachet per day, one pack guarantees full monthly therapy
- Clinical studies

MEDICAL TARGET

- Gynecologist
- Medically assisted procreation centers
- Endocrinologist

| INGREDIENTS | PER 1 SACHET |
|------------------|--------------|
| Myo inositol | 2000 mg |
| D-chiro inositol | 400 mg |
| Folic Acid | 400 mcg |
| Manganese | 10 mg |

DIKIROGEN® ZERO

INSULIN RESISTANCE PCOS-
INFERTILITY

30 SACHETS

Dikirogen® Zero is a food supplement with Myo-inositol, D-chiro-inositol, Manganese and Folic Acid, specifically formulated to restore metabolic and reproductive alterations due to insulin resistance.

Dikirogen®Zero has a formulation with an optimal dosage of inositols, which contains no sugar, so it is even more effective in insulin resistance syndrome and in gestational diabetes.

WHEN IS IT INDICATED?

- Gestational diabetes
- Insulin resistance syndrome
- Polycystic ovary syndrome (menstrual irregularity, hyperandrogenism, ovarian microcyst)
- Male and female infertility
- Cardiovascular diseases
- Visceral obesity

TREATMENT

- 1 sachet per day

PLUS

- Unique combination with optimal dosage of Myo-Inositol and D-Chiro-Inositol
- Dosage: one sachet per day, one pack guarantees full monthly therapy
- Without sugars and aromas
- Clinical studies

MEDICAL TARGET

- Gynecologist
- Medically assisted procreation centers
- Endocrinologist
- Diabetes centers
- Nutritionists

| INGREDIENTS | PER 1 SACHET |
|------------------|--------------|
| Myo inositol | 2000 mg |
| D-chiro inositol | 400 mg |
| Folic Acid | 400 mcg |
| Manganese | 10 mg |

Iside HPV[®]

HPV PREVENTION AND ADJUVANT TREATMENT

VAGINAL OVULES

ISIDE HPV[®] is a Medical Device (class IIA) indicated for prevention and adjuvant treatment of HPV-induced lesions. ISIDE HPV[®] intervening on the cervical epithelium and vaginal eubiosis represents a new prevention strategy in precancerous lesions in HPV positive women. Thanks to the synergy between its components, ISIDE HPV[®] promotes the re-epithelialization of the cervix, the clearance of HPV and it forms a protective acid barrier that prevents the risk of HPV integration.

WHEN IS IT INDICATED?

- Adjuvant treatment of HPV-induced lesions
- For the re-epithelialization of the uterine cervix
- Prevent the risk of HPV integration

TREATMENT

- 1 vaginal ovule per day

PLUS

- Creates an intravaginal film ensuring an acidic microenvironment
- Prevents the risk of HPV integration
- Promotes the clearance of HPV
- Promotes cervical re-epithelialization
- Immunomodulatory action
- Presence of full spectrum sodium hyaluronate
- Available in packs of 14 ovules

MEDICAL TARGET

- Gynecologist

INGREDIENTS

- Sodium hyaluronate
- Lactic acid
- Citric acid
- Arabinogalactan
- Zinc citrate

Iside HPV[®]

HPV PREVENTION AND ADJUVANT TREATMENT

SPRAY, 20 ml

ISIDE HPV[®]spray is a Medical Device (class IIA) indicated for prevention and adjuvant treatment of HPV-induced lesions. ISIDE HPV[®] spray intervening on the cervical epithelium and vaginal eubiosis represents a new prevention strategy in precancerous lesions in HPV positive women. Thanks to the synergy between its components, ISIDE HPV[®] spray promotes the re-epithelialization of the cervix, the clearance of HPV and it forms a protective acid barrier that prevents the risk of HPV integration.

WHEN IS IT INDICATED?

- Adjuvant treatment of HPV-induced lesions
- For the re-epithelialization of the uterine cervix
- To prevent the risk of HPV integration

TREATMENT

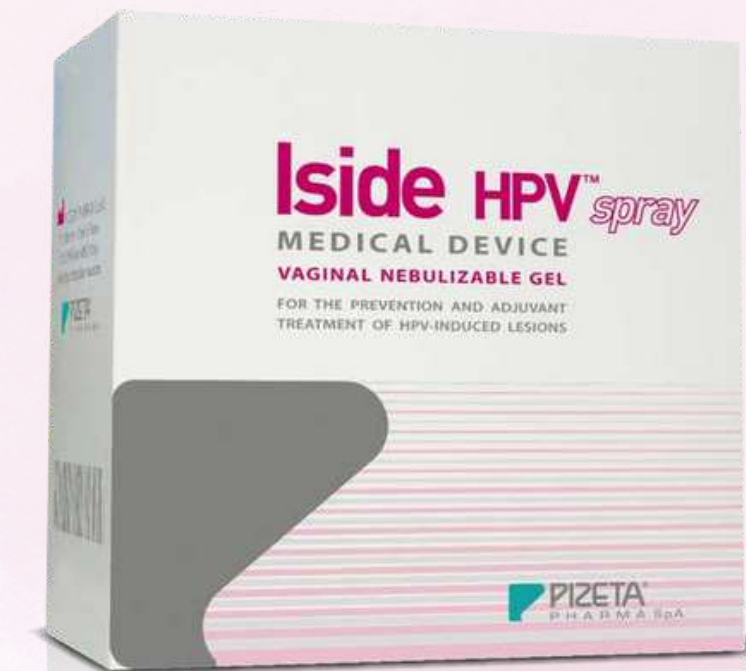

- One application (6 sprays) a day

MEDICAL TARGET

- Gynecologist

PLUS

- Creates an intravaginal film ensuring an acidic microenvironment
- Prevents the risk of HPV integration
- Promotes the clearance of HPV
- Promotes cervical re-epithelialization
- Immunomodulatory action
- Presence of full spectrum sodium hyaluronate
- Available in pack with 14 vaginal applicators

INGREDIENTS

- Sodium hyaluronate
- Lactic acid
- Citric acid
- Arabinogalactan
- Zinc citrate
- Polycarbophil

Iside 4R[®] Plus VAGINAL AND GUT FLORA BALANCE

14 GASTRORESISTANT CAPSULES

ISIDE 4R[®] PLUS is a food supplement with Probiotics and Prebiotics, designed to restore and maintain the balance of vaginal and gut flora. ISIDE 4R[®] PLUS, formulated in gastro-resistant capsules for oral use, consists of a unique formulation of multi-strain Probiotics with high concentration (10 billions) in synergy with a Prebiotic and Vitamins. The branded Prebiotic (alpha-gluco-oligosaccharide) promotes the selective growth of lactobacilli and stimulates the production of beta-defensins, while Vitamins are useful to strengthen the immune system.

WHEN IS IT INDICATED?

- Restoring and maintaining Vaginal flora balance
- Prevention and prophylaxis of recurrent bacterial uro-vaginal infections
- Use of antibiotics
- Intestinal irregularity

TREATMENT

- 1 capsule per day, for at least 14 days

PLUS

- Remove unhealthy bacteria counteracting their growth
- Restore digestive enzymes needed for optimal digestion
- Reintegrate healthy Probiotics and Prebiotics
- Repair the lining of intestinal walls
- The Alu-Alu blister guarantees the best conservation of the capsules

MEDICAL TARGET

- Gynecologist
- Gastroenterologist
- GPs

| INGREDIENTS | PER 1 CPS |
|--------------------------------------|--------------|
| Bifidobacterium animalis ssp. lactis | 4 billions |
| Lactobacillus rhamnosus | 2,5 billions |
| Lactobacillus plantarum | 2,5 billions |
| Lactobacillus crispatus | 1 billion |
| Vitamin D | 25 mcg |
| Vitamin B1 | 2,5 mcg |
| Vitamin B6 | 1,4 mcg |
| Vitamin B2 | 1,4 mcg |
| Folic Acid | 200 mcg |
| Alpha-gluco-oligosaccharide | 50 mg |

is a registered trademark of Sacco System. Indicates presence of natural, quality and Made in Italy "INgredients" (probiotics)

Naxend[®] CHRONIC PELVIC PAIN

30 TABLETS

Naxend[®] is a food supplement containing N-acetyl-cysteine, α -lipoic acid and bromelain. It can be used as adjuvant supplementation in case of chronic pelvic pain (defined as nociplastic pain), a common symptom of other pathologies such as vulvodynia, interstitial cystitis, endometriosis, pelvic floor dysfunction. In Naxend[®] the α -lipoic acid, N-acetyl-cysteine and Bromelain act in synergy against nociplastic pain: the enhanced anti-inflammatory, anti-oxidant and neuroprotective actions.

Naxend[®] has a controlled release technology of all active ingredients, for an efficacy that lasts all day.

The product has an anti-inflammatory effect, preserves the nerve cell from damage, reduces painful symptoms.

WHEN IS IT INDICATED?

- Chronic pelvic pain
- Vulvodynia
- Bladder pain syndrome
- Endometriosis
- Pelvic floor dysfunction
- Dysmenorrhea

TREATMENT

- 1 tablet per day

MEDICAL TARGET

- Gynecologist
- Urologist

PLUS

- Controlled release technology
- Complete neuroprotection thanks to the synergy of the actives
- Monthly therapy
- Italian Patent n. 2983700, French Patent n. 2983700, German Patent n. 602014030831.7

| INGREDIENTS | PER 1 TABLET |
|-----------------------|--------------|
| N-acetyl-cystein | 600 mg |
| α -lipoic acid | 200 mg |
| Bromelain | 25 mg |

ProbeNat[®] 200 PREGNANCY AND LACTATION

30 SOFT GEL CAPSULES

ProbeNat[®] 200 is a food supplement providing full coverage of vitamins and minerals essential for women before conception, during pregnancy and breastfeeding.

With a complete formula of vitamins and minerals, Probenat[®] 200 is specifically designed in order to preserve the well-being of the mother, fetus and newborn.

WHEN IS IT INDICATED?

- Pregnancy and Lactation

PLUS

- 100% of the NRV of Vitamins and Minerals
- Once daily dosing
- DHA in the form of Natural triglyceride (more bioavailable)

TREATMENT

- 1 soft gel per day

MEDICAL TARGET

- Gynecologist
- Obstetric

| INGREDIENTS | PER 1 SOFT GEL |
|-------------|----------------|
| Fish oil | 285,8 mg |
| DHA app. | 200 mg |
| Vitamin C | 80 mg |
| Vitamin B3 | 16 mg |
| Iron | 14 mg |
| Zinc | 10 mg |
| Vitamin B5 | 6 mg |
| Vitamin B2 | 1,4 mg |
| Vitamin B6 | 1,4 mg |
| Vitamin B1 | 1,1 mg |
| Copper | 1 mg |
| Folic Acid | 400 mcg |
| Iodine | 150 mcg |
| Selenium | 55 mcg |
| Biotin | 50 mcg |
| Vitamin D3 | D3 5 mcg |
| Vitamin B12 | 2,5 mcg |

PROBENAT[®]GZ PREGNANCY

30 SACHETS

ProbeNat[®] Gz is a food supplement specifically formulated to meet the needs of pregnant women, with a combination of essential vitamins and minerals during pregnancy and substances that support the normal function of the maternal and fetal vascular system. Indeed L-Arginine and L-Citrulline are involved in the cyclic process of synthesis of nitric oxide (NO), an important molecule in maintaining the integrity of the endothelium. The dry extract of Salix, with its Salicin content, is useful for contrasting localized states of tension.

WHEN IS IT INDICATED?

- During pregnancy
- To prevent the risk of preeclampsia and gestosis

PLUS

- Magnesium as Magshape[®], more available
- Folate as Quatrefolic[®], the active form of folate
- Unique product with minerals, vitamins and substances for maternal and fetal vascular function

TREATMENT

- 2 sachets per day

MEDICAL TARGET

- Gynecologist
- Obstetric

NEW

Dosil[®] Act

NAUSEA AND DIGESTION

30 CHEWABLE TABLETS

Dosil Act[®] is a food supplement specifically formulated to meet the needs of pregnant women, with a combination of essential vitamins and minerals during pregnancy and substances that support the normal function of the maternal and fetal vascular system.

WHEN IS IT INDICATED?

- Nausea in pregnancy and any situation of vomiting
- To promote digestive function, regular gastric motility and elimination of gas

TREATMENT

- From 1 to 3 tablets per day, when needed

PLUS

- Suitable for all 9 months of pregnancy to alleviate the various disorders of pregnant women
- High compliance for patients
- Self - administration when needed, no long-term treatment
- Chewable tablets
- Excellent palatability, orange and tangerine flavour
- Addition of citrate to reduce gastric acidity
- With inulin to restore the intestinal eubiosis

MEDICAL TARGET

- Gynecologist
- Obstetric

NEW

| INGREDIENTS | PER 1 TABLET |
|--------------------------|--------------|
| Inulin | 200 mg |
| Ginger d. e. | 15 mg |
| -of which Gingerols app. | 0,75 mg |
| Vitamin B6 | 2,8 mcg |
| Vitamin B2 | 1,4 mg |
| Vitamin B1 | 1,1 mg |

Sferafar®

IRON DEFICIENCY ANEMIA

20 STICK PACKS

Sferafar® is a food supplement containing iron fumarate (Fe 2+), Copper and Vitamin C formulated in gastro-resistant orodispersible granulate.

Sferafar® is useful in case of iron deficiency anemia, that can interest pregnant women, teenagers with abundant menstrual flow, patients who had surgical operations, patients with gastrointestinal pathologies or disorders, people who practice endurance sports, patients with kidney failure, blood donors, elderly subjects, vegans and vegetarians people.

WHEN IS IT INDICATED?

- Iron deficiency anemia
- Reduced intake or iron absorption
- Acute or chronic blood loss

TREATMENT

- 1 stick pack per day, to assume WITHOUT WATER and without chewing

PLUS

- Sustained and controlled release of the active substances
- Resolution of the gastrointestinal side effects
- Perfect bad taste masking
- Elevated iron bioavailability and with good patients compliance
- Italian patent n. 102017000130043 and patent application in USA and Europe

MEDICAL TARGET

- Gynecologist
- Gastroenterologist
- GPs

| INGREDIENTS | PER 1 STICK PACK |
|-------------|------------------|
| Fe 2+ | 30 mg |
| Cu 2+ | 1 mg |
| Vitamin C | 80 mg |

flavoxelle®

30 CAPSULES

MENOPAUSE

Flavoxelle® is a food supplement, without hormones or phytoestrogens, indicated to relieve the typical discomforts of menopause such as hot flashes, night sweats, mood swings, sleep disturbances, reduced sex drive and fatigue.

The Ashwagandha (*Withania somnifera* L. Dunal root d.e.) has a tonic-adaptive action that counteracts physical and mental fatigue. Magnesium contributes to normal energy metabolism and to the reduction of tiredness and fatigue.

| INGREDIENTS | PER 2 CPS |
|---|--------------------------|
| Ashwagandha d.e. of which withanolides | 400 mg 20 mg |
| Citrus d.e. of which polyphenols (catechins) of which bioflavonoids | 200 mg 20 mg 20 mg |
| Magnesium | 120 mg |

WHEN IS IT INDICATED?

- Neurovegetative and psychoaffective disorders in perimenopause and postmenopause
- Women in menopause with subclinical and clinical hypothyroidism

TREATMENT

- 1 or 2 capsules per day

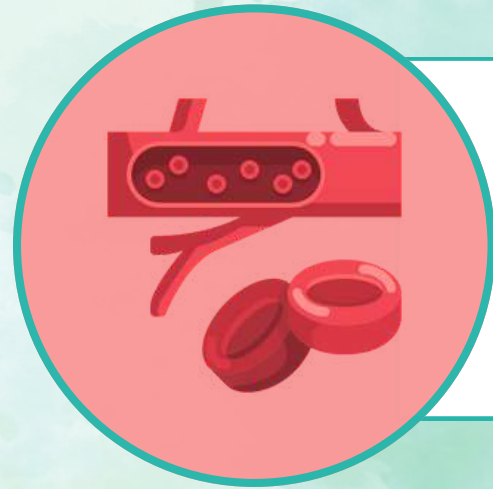

PLUS

- Natural food supplement WITHOUT HORMONES OR PHYTOESTROGENS
- Suitable for all women also for women with a history of breast cancer or in remission
- Branded ingredients with clinical studies
- Even effective in case of sexual dysfunctions

MEDICAL TARGET

- Gynecologist
- Endocrinologist
- Gps

ANGIOLOGY AND VASCULAR

THERAPEUTIC AREA

StaminFlux®

20 TABLETS

Fast

INSUFFICIENT TROPHISM OF BLOOD
VASCULAR MICROCIRCULATION

StaminFlux® Fast is a food supplement with Diosmin, Hesperidin, Bromelain from *Ananas Comosus*, grape seeds from *Vitis Vinifera* and Melilotus useful to improve the functionality of the microcirculation and the physiological elasticity and permeability of capillaries. The innovative technology of the pharmaceutical form (multi-layer tablet) guarantees a controlled release of the active ingredients and an improvement of their bioavailability for an increased and fast effectiveness.

WHEN IS IT INDICATED?

- Insufficient trophism of blood vascular microcirculation (cold extremities, heaviness and fatigue of legs, small hematomas, excessive fluid accumulation)
- Lymphedema
- Hemorrhoids

TREATMENT

- 1 or 2 tablets per day

MEDICAL TARGET

- Angiologist/phlebologist
- Proctologist
- Gps
- Orthopedic

PLUS

- Excellent absorption of phytoextracts thanks to the multi-layer technology of the tablet
- Presence of branded diosmin with enhanced absorption and bioavailability compared to standard micronized diosmin (*in vivo* studies) and proven efficacy in case of chronic venous insufficiency (*in vivo* study)
- Increased dosage of Bromelain with anti-inflammatory and fibrinolytic activities
- Presence of Melilotus with diuretic, anti-edemic and anti-inflammatory properties
- Pool of functional components with a specific action for the improvement of the arteriovenous circle

| INGREDIENTS | PER 1 TABLET |
|--|--------------|
| µsmin® Plus | 562,5 mg |
| of which micronized diosmin | 450 mg |
| Bromelain 2500 GDU | 100 mg |
| Melilotus officinalis d.e, 20% coumarin | 100 mg |
| Vitis Vinifera, 95% OPC | 100 mg |
| Hesperidin 98% | 60 mg |
| Pinapple titrated in bromelain | 10 mg |

Endomox® 600

CONTROL OF PLASMATIC HOMOCYSTEINE

30 TABLETS

Endomox® 600 is a food supplement useful for the control of plasmatic homocysteine. Endomox® 600 is helpful to preserve the functionality and integrity of the vascular endothelium and to prevent cardiovascular diseases. The simultaneous administration of N-acetyl-cysteine, Betaine, Vitamin B6, B2, B12 and Folic acid allows the optimal control of plasma homocysteine levels both in subjects with Hyperhomocysteinemia linked to poor dietary intake, both in those suffering from genetic alterations of the enzymes necessary for homocysteine metabolism. The new formula enhanced with 600 mg of NAC, the active form of folic acid as Quatrefolic® and the active form of vitamin B12 make Endomox® 600 even more effective.

WHEN IS IT INDICATED?

- From mild to moderate Hyperhomocysteinemia congenital or acquired
- Control of plasmatic homocysteine in view of pregnancy
- Use of oral contraceptives
- Psoriasis
- Neurodegenerative diseases

TREATMENT

- 1 tablet per day

PLUS

- Complete formulation: provides all essential cofactors for the reduction of plasma homocysteine Folic acid as 5-methyltetrahydrofolate (active form), Vitamin B12 as methylcobalamin (active form of Vitamin B12)
- High quantity of N-acetylcysteine (600 mg)

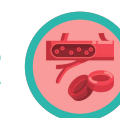

MEDICAL TARGET

- Angiologist/phlebologist
- Gps
- Cardiologist
- Gynecologist
- Dermatologist
- Neurologist / Geriatricians

| INGREDIENTS | PER 1 TABLET |
|-------------------|--------------|
| N-acetil-cysteine | 600 mg |
| Betaine | 250 mg |
| Vitamin B6 | 6 mg |
| Vitamin B2 | 4,8 mg |
| Folate | 400 mcg |
| Vitamin B12 | 18 mcg |

Quatrefolic®

K2vas[®] CARDIOVASCULAR AND BONE HEALTH

30 TABLETS

K2VAS[®] is a food supplement useful to favor the correct use of calcium by the organism, improving the well-being of cardiovascular system and bones. Thanks to Vitamin K2, K2VAS[®] helps to remove Calcium from blood vessels and arteria and to fix Calcium in the bones matrix. The antioxidant effect of oligomeric proanthocyanidins (OPCs) protects the vascular system from oxidative damage.

WHEN IS IT INDICATED?

- Cardiovascular Health
- Bone Health
- Primary prevention of atherosclerosis and osteoporosis
- Adjuvant in the treatment of atherosclerosis and osteoporosis, for women in menopause

TREATMENT

- 1 tablet per day

PLUS

- Unique formulation with dual action: it promotes the well-being of both bones and the cardiovascular system
- Branded ingredients with high bioavailability and clinical studies

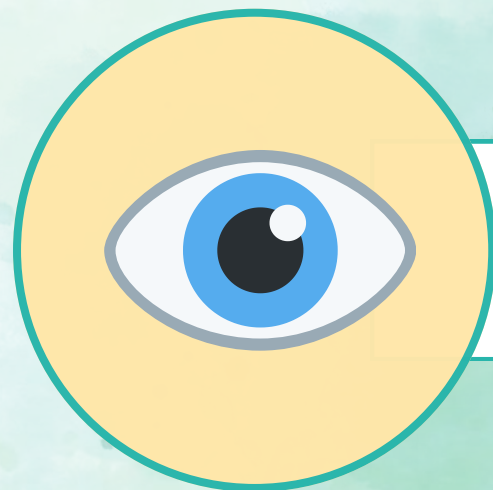

MEDICAL TARGET

- Angiologist
- Cardiologist
- Gynecologist
- GPs

| INGREDIENTS | PER 1 TABLET |
|---|--------------|
| Leucoselect [®] Phytosome [®] | 300 mg |
| Vitamin K2 | 45 mcg |
| Vitamin D3 | 5 mcg |

OPHTHALMOLOGY

THERAPEUTIC AREA

Zeta-Mac[®]

AGE RELATED MACULAR DEGENERATION

30 SOFT GEL

Zeta-Mac[®] is a food supplement that acts as retinal eutrophic for subjects with high risk of age-related macular degeneration. The delicate eye structure is preserved by defensive mechanism, which efficiency depends on an adequate dietary intake. Dietary supplements allow to contrast the oxidative damage due to the presence of free radicals, forming in large quantities on retina, in particular at the macular level.

WHEN IS IT INDICATED?

- Age related Macular Degeneration AMD

TREATMENT

- 1 soft gel per day

PLUS

- Composition complaints AREDS2 Study
- Proven effectiveness of the components on AMD
- Lutein and Zeaxanthin from Tagetes extract
- DHA titrated to 60% form TG (triglyceride natural)

MEDICAL TARGET

- Ophthalmologist

| INGREDIENTS | PER 1 SOFT GEL |
|----------------|----------------|
| Fish Oil. | 167 mg |
| DHA app | 90 mg |
| Vitamin E. | 12 mg |
| Selenium | 55 mcg |
| Tagetes e.s. | 200 mg |
| Lutein app. | 10 mg |
| Zeaxanthin app | 2 mg |

Pi-Vit[®] VITREOUS DEGENERATION

30 TABLETS

Pi-Vit[®] is a food supplement for rebalancing the connective tissue of the eye and vitreous health.

The principal ingredients contained in this product, on the one hand, allow to maintain the structure and the trophism of the connective tissue of the vitreous and, on the other hand, contrast the oxidative and degenerative phenomena typical of the aging processes.

WHEN IS IT INDICATED?

- Vitreous degeneration
- Floaters

TREATMENT

- 1 tablet per day

PLUS

- Unique formulation with eutrophic and antioxidant actions
- Contains type II collagen and hyaluronic acid with high bioavailability

MEDICAL TARGET

- Ophthalmologist

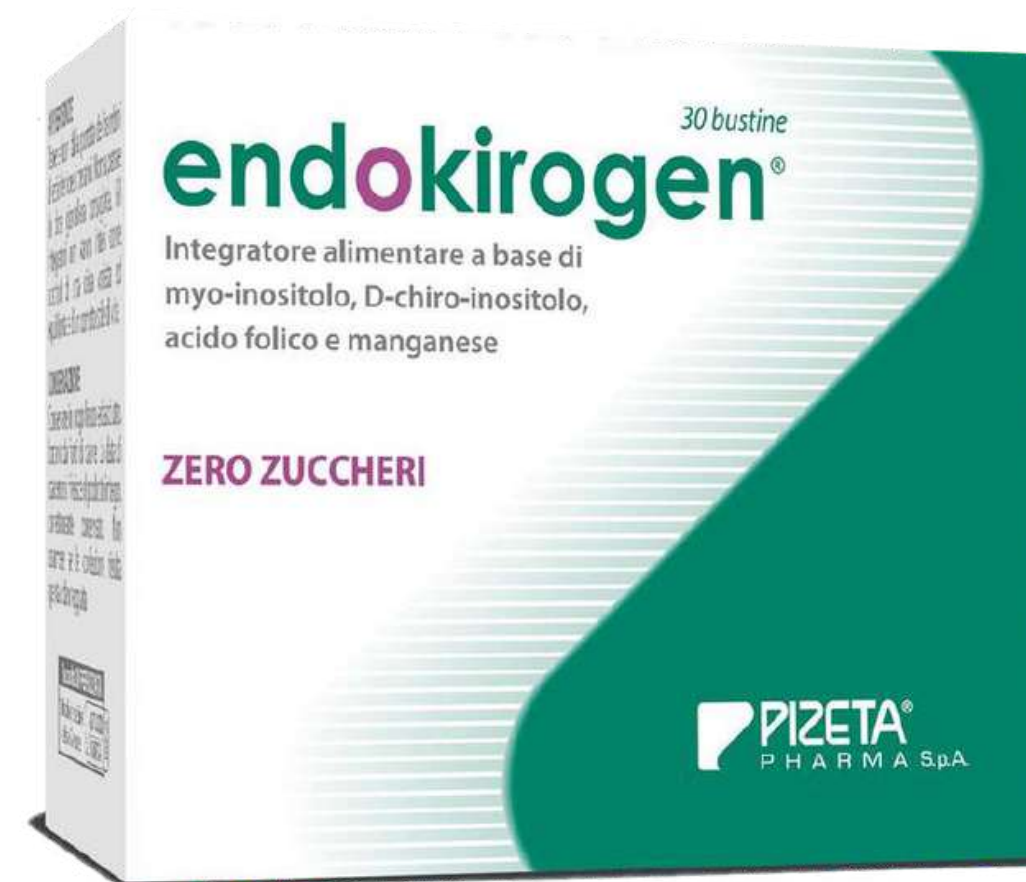

| INGREDIENTS | PER 1 TABLET |
|--------------------------------|--------------|
| Biocell Collagen [®] | 200 mg |
| Glucosamin | 120 mg |
| Magnesium | 112,5 mg |
| <i>Vitis Vinifera L.</i> seeds | 100 mg |
| of which proanthocyanidins | 95 mg |
| Sodium hyaluronate | 25 mg |
| Vitamin E | 12 mg |
| Vitamin B | 1,4 mg |

DERMATOLOGY

THERAPEUTIC AREA

endokirogen[®]

HYPERANDROGENISM

30 SACHETS

Endokirogen[®] is a food supplement with Myo-inositol, D-chiro-inositol, Manganese and Folic Acid. Inositols are useful in restoring the endocrinological and dermatological alterations due to Insulin Resistance and hyperandrogenism such as acne, seborrhea, hirsutism, acanthosis nigricans.

WHEN IS IT INDICATED?

- Acne, Hirsutism, Alopecia, Seborrhea from hyperandrogenism
- Dermatological alterations due to Insulin Resistance such as acanthosis nigricans

TREATMENT

- 1/2 sachets per day

PLUS

- Optimal dosage of myo-inositol and D-chiro-inositol
- High palatability (without sugars and aromas)
- Pack with 30 sachets for monthly treatment

MEDICAL TARGET

- Dermatologist
- Endocrinologist
- Diabetes centers
- Gynecologist

| INGREDIENTS | PER 1 SACHET |
|------------------|--------------|
| Myo inositol | 1000 mg |
| D-chiro inositol | 200 mg |
| Folic Acid | 200 mcg |
| Manganese | 5 mg |
