

HealthStar's Worldwide Reach Expanding

CPHI India - Stand 15A.A90

HealthStar, Inc. Braintree, Massachusetts, USA

Blow/Fill/Seal specialist, HealthStar, is a buyer, seller, and rebuilder of pre-owned BFS machines with 35 years specializing in BFS technology. BFS machinery is rebuilt and delivered "like new" at ½ the cost of OEM machines.

HealthStar's mold shop, engineering facility and product range capabilities have largely expanded. The state-of-the-art mold shop and engineering facility has grown to handle five times its BFS mold building and tooling capacity in the past 3 years.

As the company and its expertise continue to grow, so has its global reach. With machinery installed in over 14 countries, including recent projects in Vietnam, Kenya, and India, HealthStar has truly become a global supplier including install and service support around the world

HealthStar also manufactures NEW equipment to complement rebuilt BFS machinery:

- Mold Sets – Designed & Manufactured to Customer Specifications
- Turnkey Parts Supply – Design & Manufacture of Custom BFS Components Such as Fill Systems, Parison Heads, Trim Tooling, and More
- Deflashing Machines
- Mold Lifts
- Spin Welders & Overcapping Machines
- Labelling Machines

The Company's Strengths Include:

- Worldwide Reach & Global Service
- Modern Facility
- Technical Expertise
- Engineering Capabilities
- Line Control Programming
- Rebuilt, Pre-owned Machines ½ the Capital Cost of New Equipment
- Warranty, Parts Supply & Operator Training
