

A Full Range Air Filter Manufacturer

Company Profile

Guangdong Fresh Filter Co.,Ltd

(Known as Fresh Air Filter®) is a leading specialist manufacturing company in Air purification field since 2007, the company has developed to a multi-role business entity incorporated with product R&D, fabrication, sales and after sales services.

Fresh Air Filter has developed various air filter products which meet EU/US/GB/ASHRAE52.5 standards and codes, Fresh Filter® portfolio covers pre-filter, medium efficiency filter, HEPA filter, activated carbon and air purifier series, fiber glass, pocket filter, V-bank filters as well as panel air filters.

Fresh Filter® products are widely applied in coating production line, pharmaceutical, automobile, furniture coating booth, electronic workshop, surgery room, hospitals ,food processing and laboratories industries.

Brand Interpretation

FRESH® was established back in 2007,

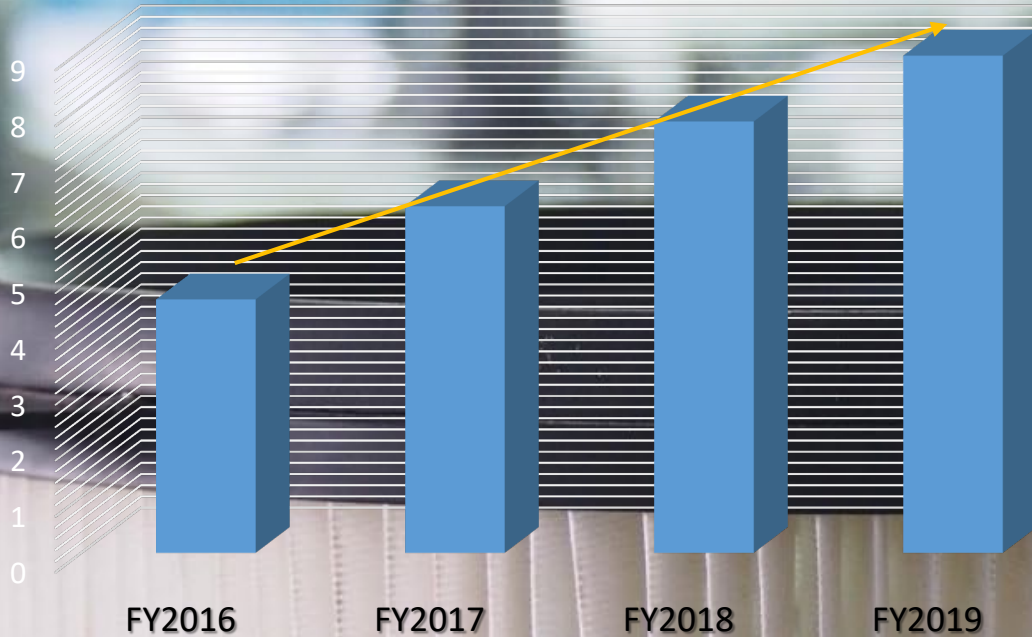

Green logo is composed by three parts, the core part is FRESH, below is AIR FILTER, and with a cluster of leaves, It means **Green and Protection, Clean and Fresh.**

Its Chinese Brand name “富瑞希®” also comes from the pronunciation of FRESH.

Fact Sheet

2016-2019 Turn over (Million USD)

>Over **30%** Annual Growth

>Sold to More than 66 countries

>Pioneer Manufacturing Company in South China

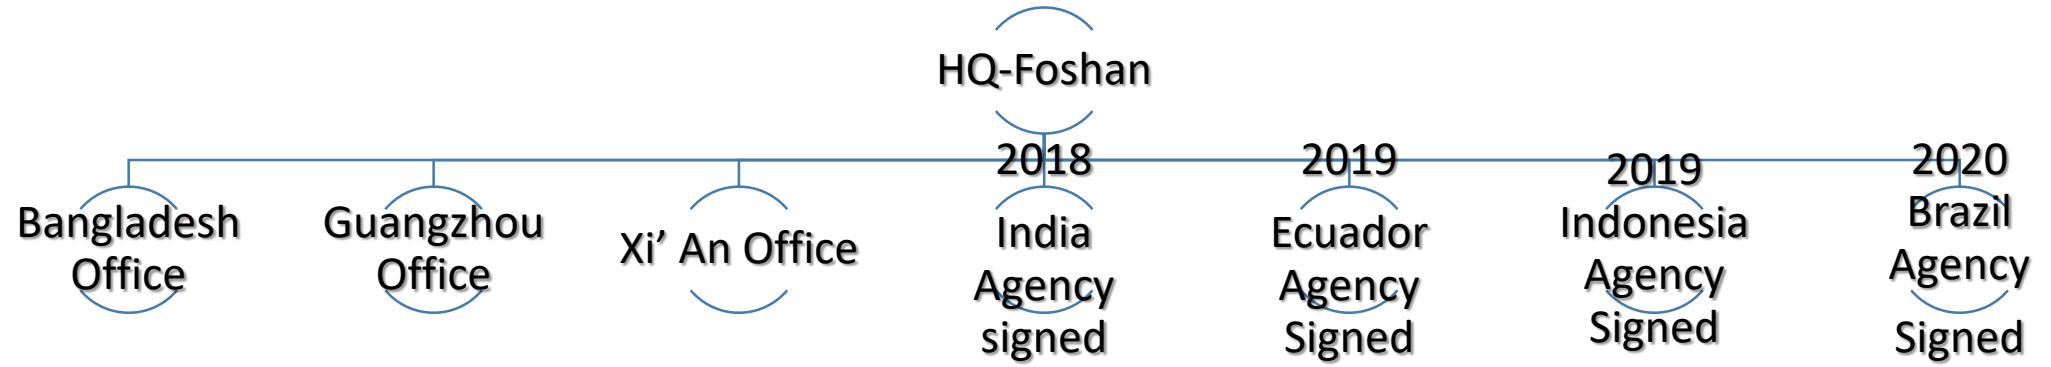

>In-house Inspection and Warehousing

>Full range specialist air filter manufacturer
(Pre-filter ~ ULPA air filter)

Our Vision: To be an Evergreen & Leading supplier in the industry

Our Mission: To supply first class Filter Products all over the world

Our Value: Openness, Share, Responsibility, Win-win

FRESH AIR FILTER Welcomes ISO16890

ISO16890 has been adopted by European Council since June 30,2018, FAF team warmly welcomes the new norms, FAF team is the first manufacturer in South China that adapts ISO16890 in all spray booth filter products and furnished to all our global partners.

Our Strength

Advanced production line facility and high precision testing equipment are adopted to ensure our products quality keeping in high level.

Standard production process

Raw Material Matching

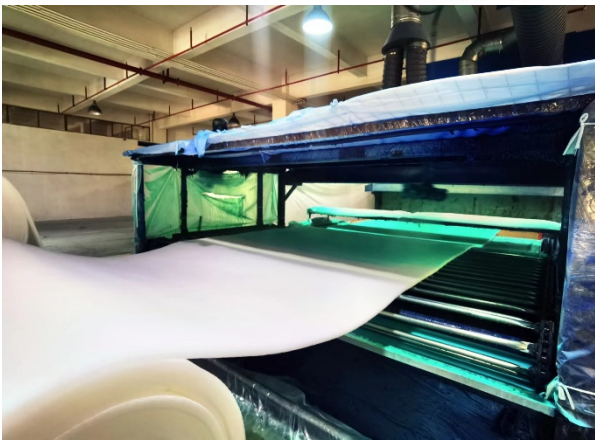

Fine Carding

Roll

Preparation Packaging

Glue Spray / Color

Mechanical Mesh / Cloth Backing

Filter Media (Cotton) Processing Machine

Exclusive Formula for Air Filter Media

- Hot melt technique
- Fiber combing technique
- Unique and Patented Fresh Filter® Fiber Formula

Marking Machine

Filter Media Customization

- Customized logo Printing
- Clear logo and no color fading, everlasting

Filter Media Customization

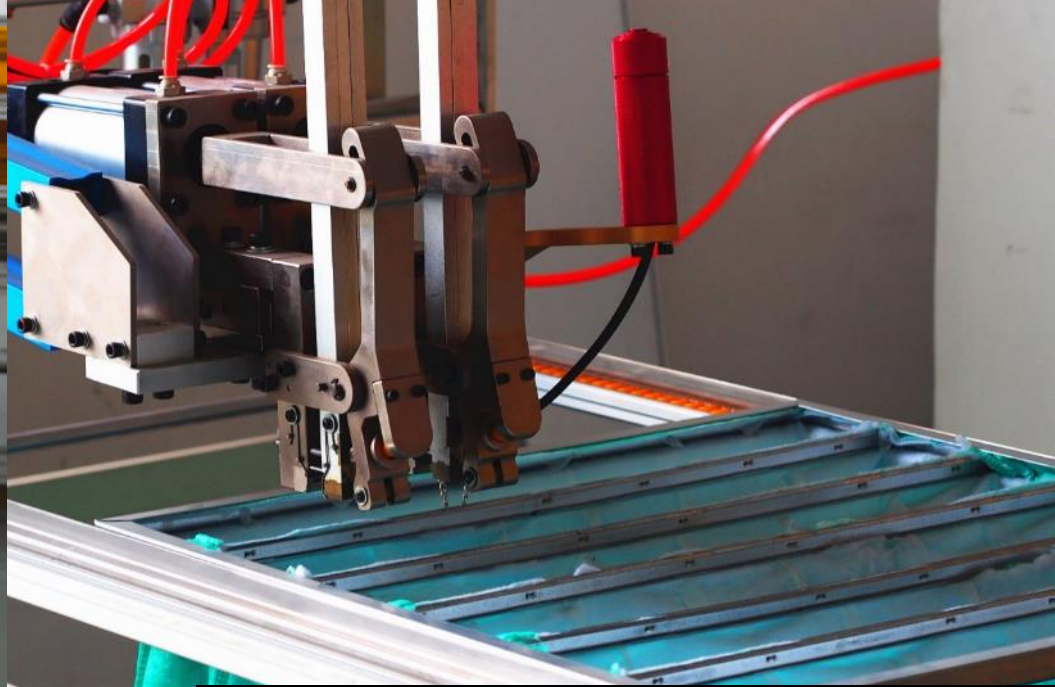

- Customized size cutting
- Specialized jig to ensure evenness.

High Speed Dryer

An Equipment has biggest baking capability in the industry

Adding adhesive to the filter media to improve dust capture capability.

High speed Fixing Jig for pockets assembly

Pocket/Medium Filter Production Line

高温高压，危险！注意安全操作！

Synthetic Fiber Ultrasonic Welding Process

- Customized pocket welding to any size
- High efficiency welding..

Medium Efficiency Air Filter Pleating Machine
High speed Pleating Machine
for Medium Efficiency Filter Media

HEPA Filter Production Equipment

Pleating Machine for Deep-pleat HEPA Filter
Fully Automatic

HEPA Filter Production Equipment

Pleating Machine for Mini-pleat HEPA Filter
Fully Automatic

HEPA Filter Production Equipment
Korea SAMSUNG Mini Pleat Machine Automatic
Production Line

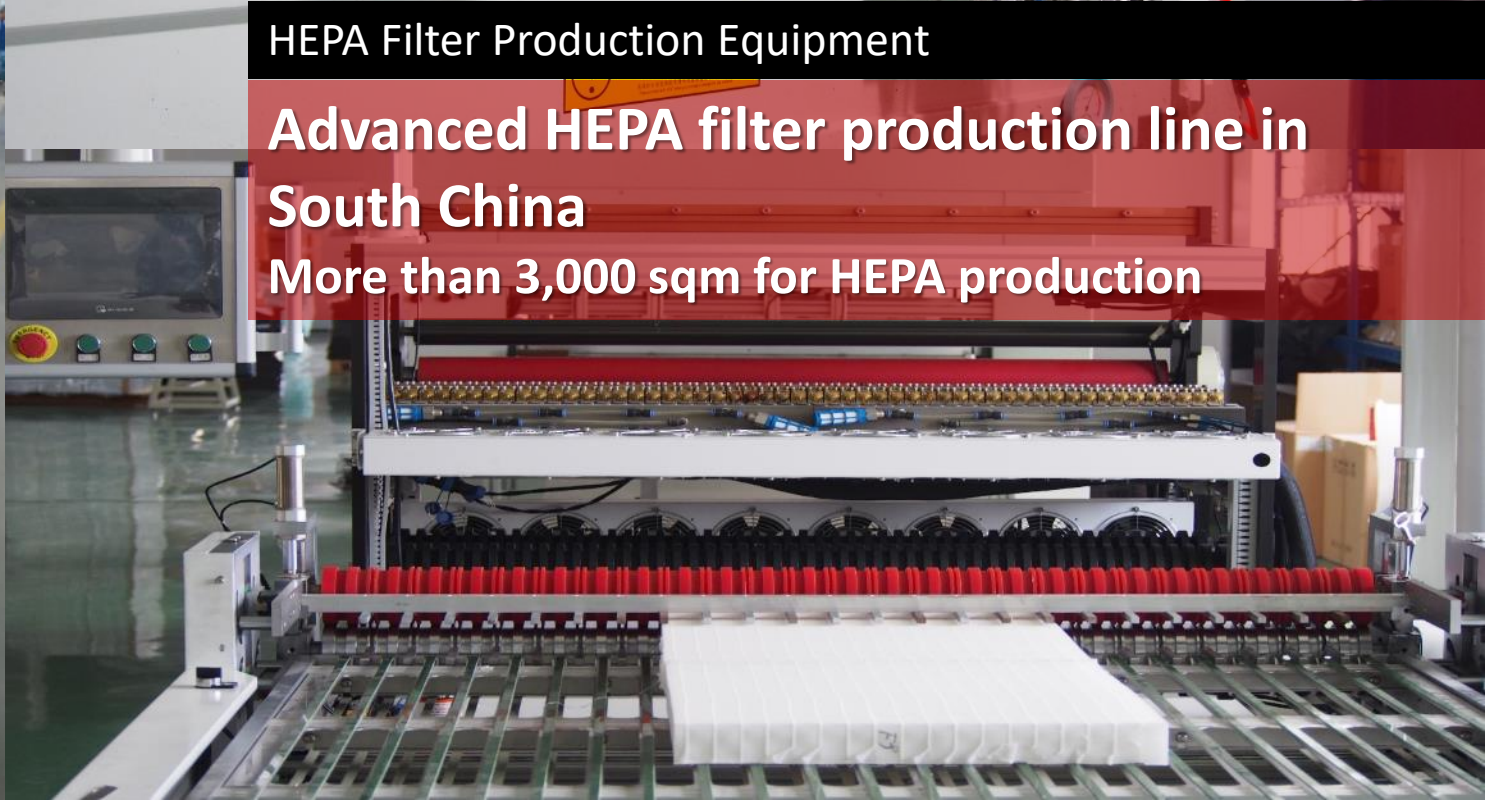

HEPA Filter Production Equipment

Advanced HEPA filter production line in South China

More than 3,000 sqm for HEPA production

实用新型专利证书

证书号第 10678824 号

实用新型名称: 一种平板式过滤器

发明人: 洪建明; 黎应晋; 卢国胜; 邹再彬

专利号: ZL 2019 2 0974709.X

专利申请日: 2019年06月26日

专利权人: 广东富瑞希空气净化过滤制品有限公司

地址: 528216 广东省佛山市南海区丹灶镇南沙村向南村民小组“莲拱”地段D4地块

授权公告日: 2020年06月05日 授权公告号: CN 210674386 U

国家知识产权局依照中华人民共和国专利法经过初步审查, 决定授予专利权, 颁发实用新型专利证书并登载于专利公报上予以公告。专利权自授权公告之日起算, 自公告之日起算。

专利权的期限为十年, 自申请日起算。专利权的转移、质押、无效、终止、恢复和专利权的姓名或者名称、国籍、地址变更等事项记载在专利登记簿上。
