

## ARK Facility Listing

No.	Facility	Photo
1	80 Large CNC Lathe	
2	CNC Engraving Machine	

3	CNC Machine Center	
4	Dust-Free Workshop	

5	Electric Discharge Machine	 A blue industrial Electric Discharge Machine (EDM) is shown in a factory setting. It features a vertical column with a red tool holder and a control panel on the right side with a digital display and various buttons.
6	Electric Heating Blast Drying Box	 A large, grey industrial Electric Heating Blast Drying Box is shown. It has a control panel on the left side with several buttons and a digital display. The box is closed and has a handle.
7	Five-axis Finishing Machine	 A man in a grey work jacket is operating a Five-axis Finishing Machine. He is standing in front of a control panel with a large screen and many buttons, adjusting the machine's settings.

8	Five-axis Machining Center	 A photograph of a five-axis machining center. The machine is white and features a large, complex spindle head with multiple axes of rotation. It is positioned over a worktable with a grid of holes. The background shows a factory setting with a corrugated metal ceiling.
9	Four axis Machining Center	 A photograph of a four-axis machining center. The machine is white and has a control panel with a screen and various buttons. The spindle head is visible, and the machine is set up for machining a part. The background is a factory environment.
10	High Precision CNC Lathe	 A photograph of a high-precision CNC lathe. The machine is dark-colored and has a red handle on the door. The control panel is visible on the right side. The machine is used for precision turning of parts.

11	High-temperature Furnace	 A photograph of a high-temperature furnace with a teal-colored door and a central locking mechanism.
12	Hobbing Machine	 A photograph of a hobbing machine in a factory setting. A worker in a purple shirt is operating the machine. The machine has a control panel with a screen and various buttons. The number '3610' is visible on the machine's side.
13	Horizontal Injection Molding Machine-1	 A photograph of a horizontal injection molding machine. The machine is primarily orange and white. It features a control panel with a screen and a keypad. The number '41-02' is visible on the control panel.

14	Horizontal Injection Molding Machine-2	 A large industrial injection molding machine with a white and orange body. The model number 'EM260-V' is visible on the front. It is situated in a factory setting with a red crane hook visible above it.
15	Horizontal Injection Molding Machine-3	 A horizontal injection molding machine with a white and orange body. It features a large window on the front panel and is located in a factory environment.
16	Large Mould Press	 A large industrial mould press with a green upper section and an orange lower section. The Chinese characters '江苏宏威' (Jiangsu Hongwei) are printed on the green part. A person is standing next to the machine, and a control panel is visible on the right.

17	Mold Production	
18	Mould Processing	
19	Numerical Control Lathe	

20	Profile Extrusion & Production Line	 A large industrial profile extrusion machine with blue and yellow rollers, situated in a factory setting with a green floor.
21	Surface-grinding Machine	 A worker in a grey uniform operating a large blue surface-grinding machine in a factory environment.
22	Vertical Injection Molding Machine	 A worker in a grey uniform operating a vertical injection molding machine with a control panel, in a factory setting.

23	Wire Cutting Machine
