

IMAGINE

design, analysis, prototype in **ONLY 2 WEEKS**. We did.

24 HOURS
for blister design concept

7 DAYS
from digital prototype
to package samples

72 HOURS
for non-GMP stability
packages in a variety
of barrier films

1,300 PKG/MIN
productivity=speed,
utilization, yield, quality

up to 0.002 g/100 in²/day
MVTR barrier
up to 0.005 cm/100 in²/day
oxygen barrier

Deliver your clinical breakthrough to market in record time. With kp's next generation BlisterPro® services, you can gain a true competitive, cost-effective edge with turn-key blister package design, finite element analysis, tooling design, fabrication, and package production. As the leading pharmaceutical film supplier worldwide, kp is your trusted partner from concept to market with solutions that are as consistent as they are smart. Imagine the right film solution for your challenge, contact Daniel Stagnaro at d.stagnaro@kpfilms.com.
