

KAdermine VET powder spray

SCX TECHNOLOGY

POWDER SPRAY

WOUND HEALING

125 ml

INTENDED USE KADERMIN POWDER SPRAY VET is a powder formulation that creates a protective barrier, as treatment adjuvant for the wounds, abrasions, and skin lesions especially in the presence of exuding wounds and it protects the perilesional skin from maceration phenomena. KADERMIN POWDER SPRAY VET fosters the natural tissue repair of all animals lesions: horses, dogs, rodents, turtles, birds, exotic animals, etc. KADERMIN POWDER SPRAY VET forms a protective barrier film against microbial aggressions, useful to speed up healing. The barrier function is performed by the association of kaolin with hyaluronic acid: Kaolin absorbs the excessive wound exudate, while hyaluronic acid, fosters tissue hydration. Thanks to antimicrobial properties of SCX patented complex (silicon dioxide functionalized with Silver Ions and Chlorhexidine), the barrier created by kaolin and hyaluronic acid is resistant to external microbial aggressions, thus enhancing protection and helping wounds heal faster.

INSTRUCTIONS FOR USE

1. Before using, clean the skin and dry it carefully. 2. Must be shaken well before use. 3. Apply a thin layer of powder only in the affected area, dispensing from a distance of 10 cm. 4. After nebulizing KADERMIN POWDER SPRAY VET, cover the wound to avoid licking. 5. Once a day application.

PRECAUTION FOR USE

For external use only, avoid licking. Avoid any eye contact, in case of any contact immediately rinse with water. Do not use if package is damaged. Do not sterilize. Close the can carefully after use. Do not use after expiry date. Discontinue treatment in the presence of abnormal skin reactions. Do not use disinfectant with KADERMIN POWDER SPRAY VET. The application does not require medical personnel.

CONTRAINDICATIONS

No case of overdose has been reported nor interactions with other drugs and medical substances.

COMPOSITION

SCX-Powder (Silica Dioxide functionalized with Silver Ions and Chlorhexidine), Kaolin, Silica, Sodium Jaluronate, Propellant: butane-propane mixture.

WARNINGS Pressurised container. May burst if heated. Protect from sunlight. Do not expose to temperatures lower than 5°C or exceeding 50°C. Do not pierce or burn, even after use. To be used only for the indicated purposes. Do not direct towards eyes. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition sources. To be used only in open spaces. In case of ingestion or spray into eyes, immediately seek qualified medical advice, or an anti-poison centre and provide them with the product information stated on the label.
