**The INNODROPS family is formed by 3 formulations divided in two main lines:**

**INNODROPS P:**

Innodrops P formulations share the innovative combination of hyaluronic acid and perilla extract titrated in polyphenols content  
Action: antioxidant, refreshing, lubricant  
Helpful for: visual fatigue, allergic-inflammatory status, dry eye

**INNODROPS BB:**

Innodrops BB formulation is a blend of vegetable distilled waters (Hamamelis, Chamomile, Euphrasia, Blueberry) known for their soothing and relieving properties, together with hyaluronic acid chosen for its humectant action.  
Action: Humectant, refreshing, lubricant

Private Label

## Perilla dry extract and Sodium Hyaluronate 0,1%

Low viscosity. Intended to relieve eyes from redness, dryness and tiredness caused by environmental agents (such as dust, allergens as well as ocular stress (due to prolonged use of the computer, long time wearing of contact lenses, excessive exposure to light). Perilla is well known for its anti-oxidant properties. Can be used with contact lenses.

0,5 ML RECLOSABLE  
SINGLE DOSE CONTAINERS

10 ML PRESERVATIVE  
FREE BOTTLE

Shelf life: 36 months

## Perilla dry extract and Sodium Hyaluronate 0,25%

Light viscosity. Intended to relieve eyes from redness, dryness and tiredness caused by environmental agents as well as ocular stress. Also intended to alleviate the eye dryness sensation occasionally related to a blepharitis and to prevent situations of allergic conjunctivitis. Can be used with contact lenses.

0,5 ML RECLOSABLE  
SINGLE DOSE CONTAINERS

Shelf life: 24 months

## Distilled waters of Blueberry, Chamomile, Euphrasia, Hamamelis and Sodium Hyaluronate 0,15%

Low viscosity. Intended to refresh, hydrate, lubricate and soothe situations of redness, tiredness and ocular discomfort caused by environmental agents (such as dust, allergens) as well as ocular stress (due to prolonged use of computer, long time wearing of contact lenses and excessive exposure to light). Recommended to give immediate relief in case of dry eyes and for frequent and prolonged use. Can be used with contact lenses.
