LOOKING AT THE WORLD THROUGH A DIFFERENT LENS

What is the use of innovation if it is not accessible, what is the use of accessibility if it is not affordable? Healthcare is all about balance, and we are continuously striving to achieve this balance. Because in our mission to make the world a Happier, Healthier place we know that making a positive difference is the only way of creating an impactful, global healthcare organization that the world can look up to.

ABOUT US

Sun Pharma is the 5th largest generic pharmaceutical company in the world and ranks topmost in India. A vertically integrated business with economies of scale and an extremely skilled team enables timely delivery of quality products at affordable prices. It serves customers and patients in over 150 countries across the globe. Sun Pharma's global presence is supported by 41 manufacturing facilities spread across 5 continents with a multi-cultural workforce comprising over 50 nationalities.

The consolidated revenues for 12 months ending March 2018 are US\$ 4 billion, of which USA contributes US\$ 2.3 billion. In India, the company enjoys leadership across 13 different therapeutic classes of doctors. Sun Pharma's 32 brands feature amongst the top 300 pharmaceutical brands in India. It's footprint across emerging markets covers over 100 markets including 6 markets in Western Europe. It's Global Consumer Healthcare business is ranked in the Top 10 across 4 global markets. Sun Pharma fosters excellence through innovation supported by strong R&D capabilities with 2,000 scientists and R&D investments of over 7% of net sales.

Sun Pharma's product list includes complex APIs that require isolated manufacturing area like anti-cancers, peptides, steroids, sex hormones and controlled/narcotic substances. It offers Bulk Actives, Intermediates and services for Custom Synthesis. Every year, the company makes a large number of products filings based on the technology developed at its R&D centres. Sun Pharma manufactures APIs in 12 world class manufacturing plants located in India, Hungary, the US, Australia and Israel. These manufacturing facilities are cGMP compliant and hold approvals from global regulatory agencies including USFDA, EUGMP, PMDA, COFEPRI, TGA, etc.

The company currently has 430 DMF/CEP filed, of which 313 have been approved as on June 2018.

Sun Pharma's comprehensive end to end support ensures smooth development, timely filing and successful launch of products. Its R&D prowess and manufacturing capabilities are strengthened by a strong and well informed regulatory team. It has an experienced team of IP attorneys and other skilled professionals, specialising in medicinal chemistry and IP law who protect its IP wealth. This team ensures that all the API and processes developed for global markets comply with applicable laws and intellectual properties.

With its vision of **Reaching People and Touching Lives** globally and as a leading provider of valued medicines, Sun Pharma is dedicated to bring about change and create a meaningful impact in the lives of others.
