# Athlete's foot

(fungal infection of the foot)

Athlete's foot is a common and contagious fungal infection of the foot. The infection spreads easily under warm, damp conditions, so it thrives in places such as swimming pools and showers and on wet floors.

### The symptoms of athlete's foot

- Whitish flaking between the toes, sometimes with painful chapping. This is often accompanied by a strong odour ("cheesy feet")
- Itchy blisters, particularly on the soles of the feet, which dry up to form brown patches or scabs
- Redness and flaking of large areas on the soles and sides of the feet

### The solution

Athlete's foot is a medical device with natural ingredients for the treatment of athlete's foot. Athlete's foot is a gel that creates a protective layer on the skin of the foot. The combination of ingredients penetrates the upper skin-layer and callus and provides an environment that is unfavourable for the development of fungus that causes athlete's foot. Natilact is a natural ester that protects and hydrates the skin. The gel will adhere well to the skin and, therefore, the active ingredients will be fixed and provide longer term efficacy at the right place.

### Claims

- Supports the treatment of fungal infections of the foot (athlete's foot, tinea pedis)
- To prevent unpleasant foot odour

### Mechanism of action

Through a combination of ingredients Athlete's foot forms a gel layer with fungistatic properties which creates an unfavourable environment for the development of fungi, serves a protective role by forming a physical barrier against spread of fungi and soothes itch and redness. The gel supports the natural production of new healthy skin cells and skin repair.

### USP's

- Stops itchiness and irritation
- Is quickly absorbed
- Does not feel sticky
- Class I medical device

### Ingredients:

Aqua, Glycerin, Alcohol Denat, Urea, Natilact®, Ammonium Acryoldimethyl-taurate/VP Copolymer, Sodium levulinate, Menthyl Lactate, Mentha Piperita Oil, Lactic Acid, Sodium anisate, 4-Terpineol, Limonene.

### Product information:

Athlete's foot 30 ml tube  
• Outer box  
• Instructions for use

Athlete's foot 25 ml spray  
• Outer box  
• Instructions for use

Stops itchiness, irritation and unpleasant smell  
New! Athlete's foot spray!
