OBSIMED® Weight loss assortment

Different people, different treatments

People have different causes for being overweight and obese: some people can not stop eating (binge eaters), some people can not stop their cravings for sweets, carbohydrates and fatty foods like snacks. One thing they all have in common: these foods often provide the body with more calories than it needs – the excess energy is stored in fat deposits. Now Lucovital Obesimed® has a full line of medical devices for weight loss, for every type of person.

Satiety formula

Medical device for adults and children aged 10 years and over. Absorbs 50x its weight in water.

Claims

- For the treatment of obesity
- For substantial weight loss
- Prevents overweight
- Prevents excessive eating
- Supports a balanced diet

Dosage

2 capsules before every meal, 3 times a day.

Mechanism of action

Lucovital Obesimed® gives a sensation of being full, achieving satisfaction more readily during a meal and the period after.

Active ingredients

Omtec19®

Content

45 capsules

Satiety formula

Medical device for adults aged 18 years and over who are overweight by more than 10 kilos or have a BMI > 28. Absorbs 100 x its weight in water.

Claims

- For the treatment of obesity
- Reduces appetite
- Prevents overeating
- For substantial weight loss

Dosage

1-2 capsules before every meal. Dosage can be increased up to 6 capsules per meal.

Mechanism of action

Lucovital Obesimed® Forte forms a highly viscous stable gel matrix. This gives a feeling of fullness and reduces the feeling of being hungry and, therefore, the size of meal portions can be easily reduced.

Active ingredients

Omtec19® and Omtec20®

Content

42 capsules
126 capsules

Fat blocking formula

Medical device for adults and children after consulting a doctor. Absorbs up to 800x its own weight in fat (in in-vitro tests)

Claims

- Prevents or treats excess overweight and obesity
- Reduces calorie intake and fat absorption from food
- Reduces the cholesterol absorption from food

Dosage

For weight reduction 2-3 capsules twice

a day. For weight control 1-2 capsules twice a day.

Mechanism of action

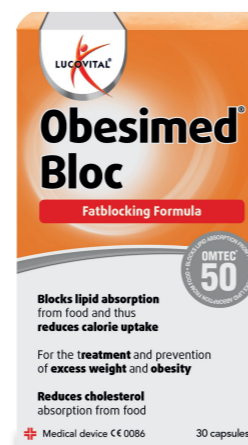

Lucovital Obesimed® Bloc has a high lipid binding capacity and forms a gel-like substance and mixes with the food. Fats and cholesterol are removed from the food and bound in a non-soluble form. The bound fats are excreted undigested.

Active ingredients

Omtec50®

Content

30 capsules

New! Full line of weight loss products for every type of person
Different people, different treatments.

Fat, sugar and carb blocking formula

Medical device for adults aged 18 years and over.

Claims

- For the treatment of overweight and obesity
- Reduces the calorie intake from fat, sugar and carbohydrates
- Reduces the appetite
- Scientifically proven effective

Dosage

2 tablets 3 times a day before a main meal

Active ingredients

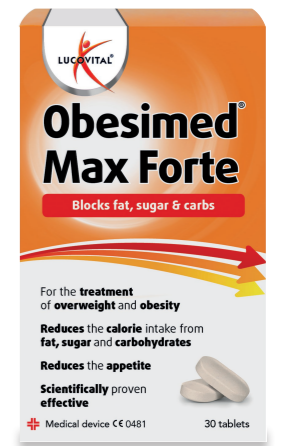

OMTEC50® and OmtecXS®.

Mechanism of action

OMTEC50® is a natural fiber with a high lipid binding capacity. Fats and cholesterol are removed from the food and bound in a non-soluble form. OmtecXS® disrupts the carbohydrate digestion process. In this process, fats, sugars and carbohydrates are removed from the food and bound in a non-soluble form. The bound fats are excreted undigested. Moreover OmtecXS® lowers desire to eat and has good influence on blood sugar levels.

Content

30 / 60 / 120 / 180 tablets

Carb blocking formula

Medical device for adults aged 18 years and over.

Claims

- For the treatment of overweight and obesity
- Reduces the calorie intake from sugar and carbohydrates
- Reduces the appetite
- Scientifically proven effective

Dosage

2 capsules before every meal, 3 times a day.

Mechanism of action

OmtecXS® disrupts the carbohydrate digestion process. In this process, fats, sugars and carbohydrates are removed from the food and bound in a non-soluble form. Moreover OmtecXS® lowers desire to eat and has good influence on blood sugar levels.

Active ingredient

OmtecXS®

Content

30 / 60 / 120 / 180 capsules

Obesimed Flat Belly

Medical device for adults and children aged 12 years and over.

Claims

- For a tight belly
- Losing of centimeters
- Reduces bloating and abdominal distension

Dosage

1 capsule 2-3 times a day

Active ingredients

Natural mineral clay and Simethicone 50%

Mechanism of action

Natural mineral clay has the ability to bind endo- and exotoxins, bacteria, and rotavirus (removing the bowel irritating materials). The clay is able to bind excessive water. Simethicone acts as a surfactant: it has a very low surface tension and forms a thin film. It reduces the size of gas bubbles, thus allowing easier passage of gas.

Content

30 capsules
