

PACIFIC
PHARMACEUTICALS LTD.

Mission

We have dedicated ourselves to produce quality drugs strictly in compliance with the GMP Standards and WHO's rules and regulations for our consumers.

We are fully determined to carry on our relentless efforts for continuously improving the Quality Management System for our products in the light of the innovative research and development techniques brought about by the ingenious experts who are recognized as pioneers in the domain of pharmaceutical sciences the world over.

Our real objective is to help in alleviating the agonies of the people who are afflicted with innumerable kinds of diseases in and outside the country by supplying them high quality life saving drugs.

Vision

Being a quality conscious EU GMP Certified company, our vision is to get accreditation of Federal Drug Authority (FDA) USA, as well as Good Laboratories Practices (GLP) Certification to further ensure the quality of our medicines for our domestic as well as foreign customers.

We are looking forward to building GMP Compliant dedicated area for Anti TB products, injectables and Veterinary products in coming years.

History

The establishment of Pacific Pharmaceuticals Limited is the outcome of slow and steady, unremitting and consistent evolution, spanning over a period of five decades of a once modest drug store on The Mall (now Shahrah-e-Quaid-e-Azam), Lahore, set up by Haji S.M. Ismail, father of Mr. Irfan Omer, the present Chief Executive.

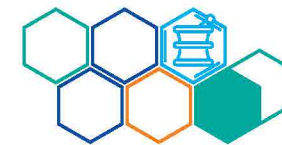

This evolution from retail trade to high capacity, hi-tech production came gradually over the time through dedication and honesty of purpose. Retail sales grew into wholesale, one-shop operation gave way to a nation-wide distribution network and local sourcing climbed up to international sourcing from world research centers.

Milestones

- 1947 Established a small pharmacy known as ISMAN DRUG HOUSE (Pvt.) Ltd, by Mr. S. M. Ismail. Started
- 1951 distribution of Pfizer, Archifer Opal Laboratories, Parke Davis, Nicholas and Smithkline & French Lederle
- 1969 Marion Merrel Dow, Lundbeck, Carlo Erba, Recordati
- 1979 Construction of pharmaceutical plant at the present
- 1987 location was started under the leadership of present CEO Mr. Irfan Omer
- 1991 On 28th October, the plant was inaugurated
- 2003 MOH Pakistan Accreditation as a Model Unit, ISO 9001:2000 Accreditation from TUV European Union GMP Certification from Germany
- 2004 LCCI Gold Medal 1st Achievement Award
- 2005 ISO 14001 :2004 from SGS
- 2006 Re-inspection and Certification of European Union GMP
- 2007 MACCAWARDS by Islamic Chamber of Research & Information Centre (ICRIC) Tehran, Iran
- 2010 Re-inspection and Certification of European Union GMP, Re-inspection and Certification of European Union GMP
- 2013 **MHRA Certificate of GMP Compliance for**
- 2017 **Manufacturing of Solid Dosage products.**

Plant Overview

PACIFIC plant is designed to live up to the ultramodern style and guidelines upholding the standards of Good Manufacturing Practices (GMP) and WHO's recommendations. Pacific has been awarded the prestigious European Union Certification (German GMP). It stands in good stead among the pharma manufacturing facilities anywhere in the world. The plant is made up of high performance and highly sophisticated sub-units, mostly imported from Germany, Italy and the United Kingdom.

The local components used are acquired on the principle that there would be no compromise on quality at any level. Environmental control is so meticulously attended to that the raw materials and the end products are also kept at the most suitable temperature so as to ensure maximum stability and efficacy.

The Italian-based Technical Centre of Marion Merrell Dow, the innovative research-based multinational, contributed valuable technical guidelines towards its design.

Commitment to Produce Quality Products

As national pharmaceutical company, Pacific is manufacturing / marketing high tech research based products in technical collaboration with world renowned multinational companies i.e.

Gruppo Lepetit (Italy) subsidiary Marion Merrell Dow, USA

Ravizza (Italy)

Recordati (Italy)

Applied Pharma Research (Switzerland)

Buckley's (Canada)

Mucos (Germany)

COMMITMENT
TO PRODUCE
QUALITY PRODUCTS

Certifications

We have the distinction of having received GMP compliance certificate from Germany and it is the only Pakistani pharmaceutical company, which has received this honour for the fourth time.

1st Certification	January	2004
2nd Certification	March	2007
3rd Certification	June	2010
4th Certification	September	2013

Pacific is also an EN ISO 9001:2000 TUV and ISO 14001:2004 SGS Certified Company.

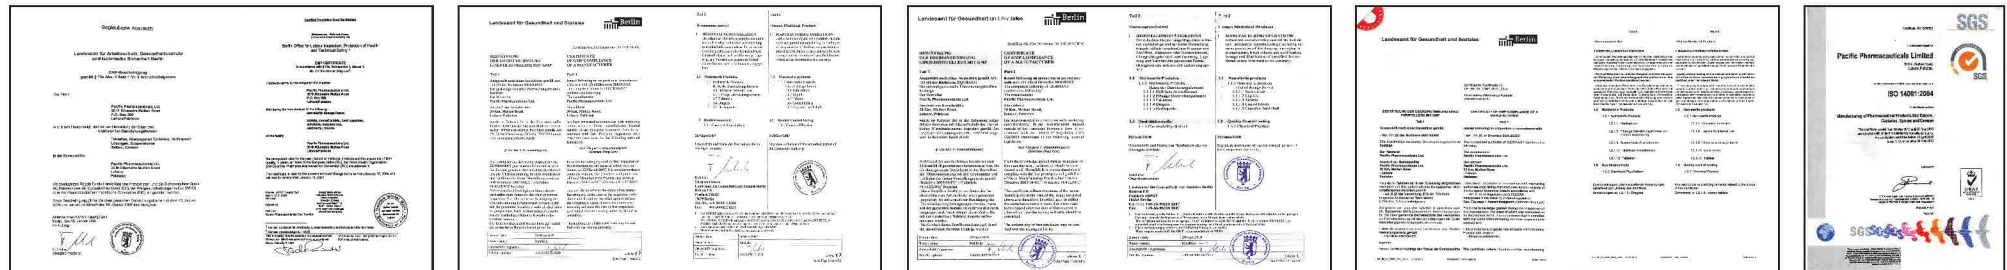

Awards

LCCI Achievement Award

Lahore Chamber of Commerce & Industry First Achievement Award 2005.

MECC Award

Muslim Excellence & Competitiveness Corporations' Award in August 2007 from Tehran-Iran.

Another Step Towards Excellence

FIRST & ONLY EUROPEAN UNION GMP CERTIFIED COMPANY IN PAKISTAN

Production

At PACIFIC, quality comes first. We endeavor successfully to build quality into our products through a comprehensive quality control system applied at each stage of manufacturing. Our state-of-the-art manufacturing plant is one of the unique assets that distinguish us from our competitors. Our manufacturing facility fully complies with the requirements set by GMP, cGMP and the local Ministry of Health. By continuously upgrading our production plant, we are preparing for meeting the future needs of the dynamic and demanding pharmaceutical market.

PACIFIC has invested in the latest technology to produce cost-effective and high quality pharmaceuticals in accordance with GMP guidelines. PACIFIC state of the art production facility in Lahore is spread over approx 207,000 sq. ft. with 60,439 sq. ft. covered area PACIFIC plant is regularly inspected and approved for the production of pharmaceuticals by national and international authorities.

Our most modern production facility has the capability of manufacturing tablets, capsules, oral liquid forms & Semi Solids. Our systems and procedures take full advantage of the modern technology and are fully backed by a hi-tech IT infrastructure and other automations and gadgets. Our unique manufacturing plant, which also has vast warehouses and an artistically decorated office, employs 250 people and hence make substantial contribution in the growth and prosperity of our country as well as our fellow countrymen.

We are serving various Therapeutic segments with around 110 registered brands.

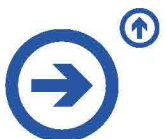

Research and Development

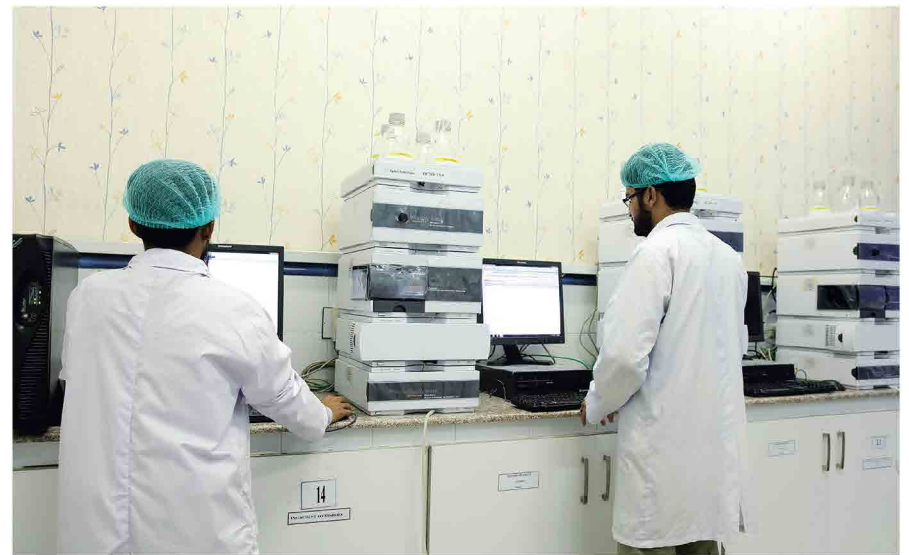

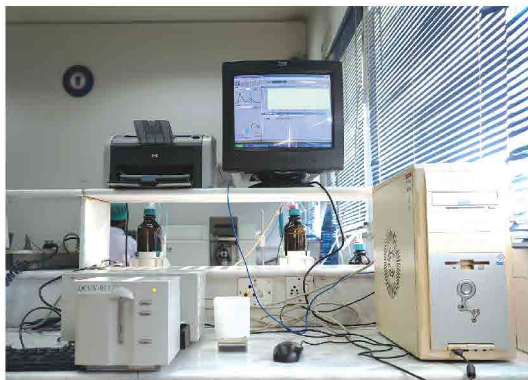

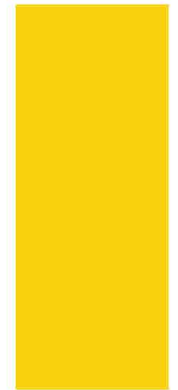

Research and development is the heart of Pacific Pharmaceuticals' international vision and future business, and our goal is to be recognized first and foremost as "best in class" in drug discovery and development. We are committed to developing and bringing to the marketplace new and innovative drugs for the treatment of TB and other diseases.

Pacific's scientific innovations are defined and supported by an international / professional R&D staff. Our discovery efforts focused on antiviral development have resulted in significant accomplishments since 2000. We have advanced two compounds (viramidine and remofovir) into clinical development and created significant value to our Company.

Over the past four years, our Company has invested significant capital and resources to modernize our laboratories and establish a world-class state-of-the-art R&D capability.

A cross functional and fully integrated Drug Discovery infrastructure has been established among multi-disciplinary scientists to ensure that relevant targets are selected and tractable drug candidates with sound mechanisms of action are moved rapidly through the pipeline. We have created a multi-parametric system to evaluate efficacy, safety, drug metabolism and compound-enabling formulation and to enhance drug-like features.

Quality Assurance And Product Development

Product development scientists and pharmacists are unraveling the secrets of health and disease. We have successfully introduced new formulations in various therapeutic segments, where we operate. We want to be a company devoted to scientific cause. That is why we invest heavily in development programs aimed at creating new therapeutic options of health problems faced by mankind. This is the most important way in which we can make a difference.

At PACIFIC, we have a Quality Assurance team that is involved in all activities starting from selection of raw materials to transformation to finished products upto dispatch to market.

Quality

PACIFIC strives never to compromise on quality in all our business endeavors. Its systems and procedures are designed to high standards of quality and are expected to meet rigorous audit and compliance tests. It will produce, market and provide its customers with products and services of the highest quality.

Quality Control

PACIFIC's quality control lab is equipped with state of the art instruments, which monitor the products manufacturing at every step. It ensures product quality at par with international standards. Our QC lab is fully equipped with the latest armamentarium like High Pressure Liquid Chromatography, UV – VIS, Atomic Absorption & Infrared spectrophotometers, to ensure that we manufacture drugs of highest quality and standards. To perform effectively, quality control staff is trained on specialized methods and modern equipments.

Quality Policy

Pacific Pharmaceuticals Ltd. has adopted a policy of producing Quality Products and service in compliance with the regulatory and International Standards that enhance Company's reputation in the market place by meeting and exceeding the Quality expectation of our customers and the consumers.

Intent

- * Quality will continue to be our major strategic thrust.
- * Every employee is a part of our Quality System Team.
- * Develop a Quality Management System to ensure Quality of our Products and their intended use.
- * Develop a climate that allows our employees to work in a friendly environment.
- * Develop a culture of continuous improvement.

Human Resource

At Pacific, we place immense significance on human values. Our work philosophy revolves around the best managed behaviors. We offer a truly congenial working environment, which fosters creativity, team work, motivation and innovation plus respect for the individual.

We strongly believe our employees are our supreme strength. Therefore, we strive to attract, retain and develop the best possible talent. We put down great weight on continuous training and grooming of our employees by inhouse as well as external training courses and workshops.

**We believe in “Par Excellence” and “beating,
not meeting the standards”!**

Marketing

Innovative marketing and sales force is the hallmark of PACIFIC. In our Company we respect innovation, integrity and passion. We welcome out-of-the box thinking and dynamism. We focus on unprecedented marketing activities, hence making us the leaders and pioneers in exceeding the expectation of our customers and business partners. Our creative marketing team is continuously devising strategies to add value to the lives of the people associated with us and around us.

PACIFIC takes pride in its dynamic, motivated and experienced marketing and sales force of more than 274 people. This huge force makes us strategically strong in the local markets, with even the far-flung territories in our easy access.

We also have a very far-reaching distribution network, comprising more than 42 distributors of national repute, who make it possible that our drugs benefit the patients living in every nook and corner of the country.

We also have a full-fledge customer services department, catering to the needs of our customers, across the country.

This dynamic engine of marketing and sales is leading the company towards the right direction, each day closer to its long-term goals and vision! Our marketing units strive to succeed with colours:

Gastro Intestinal Care

Plasil With Enzymes

Metoclopramide + Bromelain + Simethicone

The Winning combination of excellent ingredients

Metoclopramide:	Improves GI motility
Bromelain:	Hydrolyzing proteins break down to peptides & amino acids
Simethicone:	Absorbs the gases from stomach
Pancreatin:	Enhances the digestion of nutrients in food Sodium
dehydrocholate:	Increases the production of bile
Simethicone:	Absorbs the gases from intestine

Plasil with Enzymes is time-tested formulation for GI disorders due to hypo-motility & enzymes deficiency

Halitosis	Flatulence
Eructations	Cholelithiasis
Chronic Pancreatitis	Chronic Dyspepsia/ Gastritis
Post Cholecystectomy	Primary Gastric Hypo-motility Syndrome

GI disorders due to pharmacological factors

Levopraid 25

(Levosulpiride)

Overcome the Gastric Motility Effectively and Safely An excellent prokinetic with dual mechanism of action

- Act as a Dopamine (D₂) receptors antagonist
- Act as a Serotonin (5HT₄) receptors agonist

Accelerates
gastric emptying

Regulates the
colonic motility

Improves the
Gallbladder
emptying

Functional dyspepsia, upper abdominal pain, heartburn, bloating and discomfort caused mainly by delayed gastric emptying, impaired gastric accommodation and small bowel dysmotility.

A Rational, Efficacious and Safe treatment for

Dyspepsia
Reflux and Peptic Esophagitis
Irritable Bowel Syndrome (IBS)
Diabetic Gastroparesis
Non Erosive Reflux Diseases
A new solution for Premature Ejaculation

Dosage: Recommended dose for adult:
1 tablet 3 times daily before meal

Levopraid 25 (Levosulpiride) by accelerating the gastric and gallbladder emptying effectively and safely improves the symptoms of functional dyspepsia, GERD, IBS and duodenogastric reflux. Serra J. Gastroenterol 2010; 33(8):586-90

Different studies established that the Levopraid 25 is more superior and safer than Domperidone, Cisapride and Itopride to treat GERD, nausea and vomiting. (Mansi C. et al 2000)

Female Health Care

CLOMID

Clomiphene citrate

The First Fertility Drug

The effectiveness of CLOMID (Clomiphene citrate) has been clearly demonstrated in the treatment of infertility associated with oligo-ovulation. (Hughees, Collins J, Vandekerckhove)

A total of 240 consecutive women visiting a specialist academic fertility unit with a history of infertility, oligomenorrhoea or amenorrhoea, and normal FSH and estradiol serum concentration (WHO GROUP II) were prospectively followed. The women had not been previously treated with ovulation inducing agents. All patients commenced with CLOMID (Clomiphene citrate).

71%
Pregnancies

79%
Live Births

Result

Overall there were 170 out 240 (71%) pregnancies of which 134 (79%) ending in a singleton live birth. The rates of pregnancy and miscarriage with CLOMID are close to those expected in a normal fertile population.

The majority of women with "PURE" an ovulatory infertility respond to treatment with CLOMID.

Dosage for females, usually

1 tablet of CLOMID is to be taken orally, daily for 5 days, starting from the 2nd day of the cycle.

For Males

1 tablet daily for about 90 days with a break of five days after every 25 days.

LOMEXIN

Fenticonazole Nitrate 2%

For all types of fungal infections

Dermatomycosis

Proven effective world wide
against Dermatophytes, Yeasts,
Moulds & Gram +ve Bacteria

High Efficacy with Once daily
application

"Considering importance of patient's
compliance in achieving high
cure rates"

Single & effective daily application

Broad-spectrum activity

High success rates

Long lasting protective effects

High patient compliance

Anti-Infectives

Heart Care

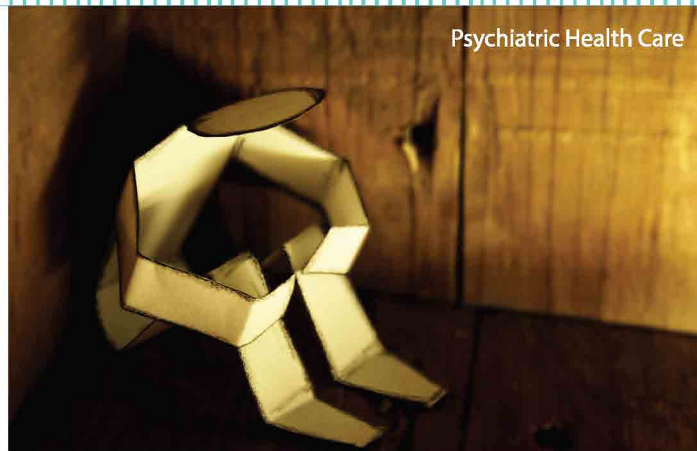

Anti-TB Treatment

 **PACIFIC**
PHARMACEUTICALS LTD.
PACIFIC'S SYSTEM OF HEALTH CARE

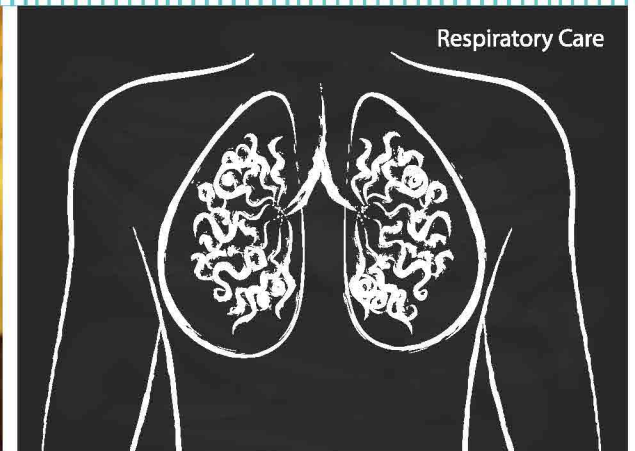

Musculoskeletal Health

Female Health Care

Psychiatric Health Care

Respiratory Care

Pacific's Cough Range

Pacific's Mixture

(Ammonium carbonate, Potassium bicarbonate, Menthol & camphor)
Sugar Free & Alcohol Free

Expectorant

Effective relief of the cough due to bronchial infection & smoking. Pacific's Mixture is an expectorant, which stimulates the flow of respiratory tract secretions by decreasing the viscosity of the mucus and facilitates their removal.

Dosage Adults:

1-2 teaspoonful 4 times a day

Pacific's DM

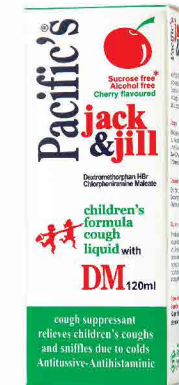

(Dextromethorphan HBr)
Sugar Free & Alcohol Free

Cough Suppressant

Provides quick and prompt relief from dry, hacking cough
Pacific's DM contains Dextromethorphan, which has direct effect on cough center in the Medulla, resulting in suppression of cough without causing respiratory depression, addition and constipation

Dosage Adults:

1-2 teaspoonful 4 times a day

Pacific's Jack & Jill

(Dextromethorphan HBr
Chlorpheniramine Maleate)
Sugar Free & Alcohol Free

Cough & Cold

Pacific's Jack & Jill contains Dextromethorphan is a cough suppressant that provides immediate relief from cough without causing addiction. Chlorpheniramine Maleate provides relief from cold and nasal congestion.

Dosage Adults:

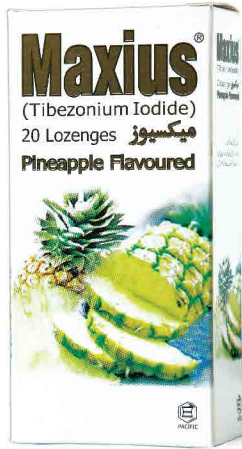

6-12 years:

1 teaspoonful 3-4 times a day

Over 12 years:

2 teaspoonful 3-4 times a day

Maxius

(Tibezonium Iodide lozenges/ Mouthwash)

Unique Pharmacokinetics

Maxius on ingestion lacks antibacterial activity therefore Gastrointestinal Flora is not altered.

Rapid Bactericidal action (1-5 minutes) due to rapid absorption at concentration 5mcg/ml.

Maxius offers Tripple Action

Antibacterial
Anti-inflammatory
Analgesic

Thus Maxius Prevents & Treats

Dry Cough
Sore Throat
Smoker's Cough
Halitosis, Pharyngitis
Gingivitis
Tonsilitis

Genurin Forte

(Flavoxate HCl 200mg)

Genurin Forte:

Specifically indicated for the treatment of Urinary Incontinence and Overactive Bladder. Relaxes the spastic muscles and regulates the tone of the smooth muscles of Bladder so normalizes the hyperactivity of Urinary Bladder.

Regulates the tone of the overactive bladder & its activity.

Improves the subjective symptoms rapidly.

Unique mode of action.

Compatible with the other drugs.

Suitable for both Male & Female patients.

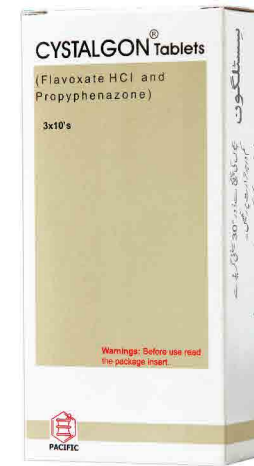

Excellent tolerability profile & safety.

Time tested & well documented.

More than 120 publications in its favor.

Dosage Adults:

1-2 tablets 3 times daily
Helps your patients pass urine in the right place at the right time.

Cystalgon

(Flavoxate HCl + Propyphenazone)

Cystalgon provides relief from these agonizing symptoms and improves the clinical conditions of patients because Cystalgon resolves spasm and relieves pain.

Therapeutic

Anti-spasmodic
Anti-inflammatory
Analgesic

Safety & Tolerance

Organ- specific
No anti- cholinergic side effects

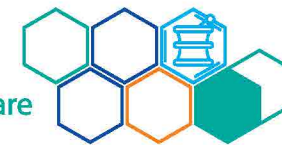

Patient's compliance

Rapid relief from subjective symptoms
Excellent tolerance
Economical

Cystalgon helps patients get rid of inflammation-pain-spasm associated with certain Urological, Surgical & Gynaecological conditions.

Dosage:

1 Tablet twice daily

Pacific's System of Health Care

COLENTICON Gel

(Antacid, Antiflatulent, Antispasmodic, Demulcent)

Secret of Equilibrium

Disequilibrium between the aggressive factors and defensive factors results in burning stomach

Magnesium Oxide

Rapidly neutralizes the acid therefore ensures the fast relief

Dried Aluminium Hydroxide

Works gradually and slowly so provides long lasting relief from hyperacidity

Simethicone

Provides the antifoaming and anti-flatulent effects

Dicyclomine Hydrochloride

Relieves colic and smooth muscle spasm of the GIT

COLENTICON Gel provides rapid and sustained relief from;

Heartburn	Dyspepsia	Hyperacidity
Flatulence	Epigastric pain	Spasm/ Cramps
Colic	Nighttime heartburn	

Dosage:

Usually 2-4 teaspoonful after every 4 hours for adults and children over 12 years of age.

In severe cases use Colenticon Gel intensively for first 2 weeks to control the symptoms.

XIBEN

(Ibuprofen 100mg/ 5ml)

Strong Analgesic
Proved Anti-Pyretic
Ultimate Anti-inflammatory

Parent's Relief:

XIBEN (Ibuprofen) Suspension provides quick & prompt relief from pain & fever to the children, makes them active & relaxes the parents. XIBEN (Ibuprofen) Suspension is a product of European Union Certified company with proven effective, Analgesic and Antipyretic effects. XIBEN Suspension is a palatable due to Orange Flavour with Unmatched Economy. XIBEN Suspension is a better choice as an Analgesic and Antipyretic for children. XIBEN Suspension offers good safety profile.

Dosage in Children:

1-2 years	½ teaspoonful, 3-4 times a day.
3-7 years	½-1 teaspoonful, 3-4 times a day.
8-12 years	2teaspoonful, 3-4 times a day.

Mr. Irfan Omer

The company started its operation in 1947 as a Chemist Shop, namely, Isman Drug House (Pvt) Ltd., 26 - Commercial Building, The Mall (now Shahrah-e-Quaid-e-Azam), Lahore. Its retail sales grew and soon it became a nation-wide distribution network. Later imports were started from the world-famous Pharmaceutical Companies viz. Marion Merrell Dow, USA; Lepetit, Italy; Recordati, Italy; Farmatalia Carlo Erba, Italy and Lundbeck, Denmark.

Inspired by the high ideal of sincerely serving the ailing people who are unfortunately afflicted with numerous diseases, Isman Drug House was transformed into a great modern Pharmaceutical Manufacturing Company under the name of PACIFIC PHARMACEUTICALS LTD. The Company was founded in 1990. Its plant is equipped with ultramodern and sophisticated machinery and equipment, which are handled by highly qualified and experienced professionals in their respective fields.

Pacific Pharmaceuticals has been producing and marketing quality products strictly in compliance with GMP Rules and Regulations and WHO Standards, for the last 17 years. It is also making exports of its medicinal specialties to other countries. As a result of relentless and consistent efforts for upgrading the manufacturing systems, Pacific Pharmaceuticals is now shining brilliantly on the horizon of pharmaceutical world. It has been granted many prestigious Awards:

- * EUROPEAN UNION GMP (GOOD MANUFACTURING PRACTICES) CERTIFICATES in January 2004, March 2007, 2010 and 2013. It is a unique distinction as PACIFIC is the first and the only Pakistani Pharmaceutical Manufacturing Company, which has received this recognition
- * Ministry of Health, Government of Pakistan's accreditation as a MODEL PHARMACEUTICAL MANUFACTURING PLANT OF PAKISTAN
- * SGS ISO 1400:2004 Certificate
- * Lahore Chamber of Commerce & Industry's GOLD MEDAL 1st achievement award 2005
- * Magnificent Muslim Excellence and Competitiveness Corporations Award (MECCAward) by Islamic Chamber Research & Information Centre (ICRIC), Tehran, Iran - an affiliate of the Organization of Islamic Conference (OIC) on August 12, 2007, at Tehran

We, the Pacific Pharmaceuticals Ltd., are doing this work as a pious Mission and are fully determined to carry on this mission with unremitting faith, dedication and high sense of responsibility and thus take Pacific Pharmaceuticals to further heights of excellence for the service of mankind.

Mr. Irfan Omer
Chief Executive Officer
Pacific Pharmaceuticals Ltd.
