## **Noah Technologies should be your Source for all your Chemical Needs**

Noah Technologies is a manufacturer of high-purity and high-technology chemicals for research and production. We take pride in utilizing the most modern methods of production and analysis. Our chemicals and metals are available in various purities and particle sizes and can be supplied in laboratory and/or bulk quantities. We also offer custom synthesis and have technical staff available to work with customers on specific requirements.

*Noah has become a leader in creating chemical products used in new emerging technologies.*

Noah is certified to ISO 9001:2015 and all material is produced under strict quality control. This certification assures our customers we are dedicated to the consistent quality of our products and service.

### **Production Capabilities**

Noah Technologies Corporation offers a broad list of high-purity chemical products worldwide, and serves the following markets: electronics, color and solar glass, automotive, pharmaceutical, adhesives, aerospace, hazardous waste remediation, nuclear science, optics, and textiles among others.

In addition to offering a broad range of inorganic compounds that are regularly produced, Noah Technologies also offers one of the most comprehensive lists of rare and less-common inorganic chemicals.

### **Vacuum Deposition Materials**

Noah Technologies' vacuum deposition chemicals are available in large pieces, granules, and coarse or fine powder.

### **Metal and Alloy Powders**

Noah Technologies' metal and alloy powders are produced in a variety of particle shapes and sizes, where the controlled size will depend on the ultimate application.

## General Product Listing

Noah Technologies can scale up from R&D laboratory quantities to full production quantities as needed. Our products are manufactured in various purities ranging from 99 percent pure up to 99.9999+ percent pure, in addition to national specifications for ACS, USP/NF, and FCC. Many of our chemical products are custom manufactured according to precise specifications.

Aluminum Nitrate	Cerium Ammonium Sulfate	Mercury Iodide	Sodium Bicarbonate
Aluminum Potassium Sulfate	Chromium Oxide	Mercury Nitrate	Sodium Bromide
Aluminum Sulfate	Chromium Potassium Sulfate	Mercury Oxide	Sodium Carbonate
Ammonium Acetate	Cobalt Chloride	Molybdenum Oxide	Sodium Chloride
Ammonium Bromide	Cobalt Nitrate	Molybdcic Acid	Sodium Citrate
Ammonium Carbonate	Cobalt Acetate	Nickel Sulfate	Sodium Cobaltinitrite
Ammonium Chloride	Copper Acetate	Oxalic Acid	Sodium Cyanide
Ammonium Citrate	Copper Chloride	Phosphomolybdcic Acid	Sodium
Ammonium Fluoride	Copper Nitrate	Phosphoric Acid	Diethyldithiocarbamate
Ammonium Iodide	Copper Oxide	Potassium Acetate	Sodium Fluoride
Ammonium Iron Sulfate	Copper Sulfate	Potassium Bicarbonate	Sodium Formate
Ammonium Metavanadate	Ethylenediaminetetraacetic Acid	Potassium Bromate	Sodium Hydroxide
Ammonium Molybdate	Iron Nitrate	Potassium Bromide	Sodium Iodide
Ammonium Nitrate	Iron Sulfate	Potassium Carbonate	Sodium Metaperiodate
Ammonium Oxalate	Iron Chloride	Potassium Chlorate	Sodium Molybdate
Ammonium Phosphate	Lanthanum Chloride	Potassium Chloride	Sodium Nitrate
Ammonium Sulfate	Lead Chromate	Potassium Chromate	Sodium Nitrite
Ammonium Thiocyanate	Lead Nitrate	Potassium Ferricyanide	Sodium Oxalate
Antimony Potassium Tartrate	Lead Oxide	Potassium Ferrocyanide	Sodium Peroxide
Arsenic Oxide	Lead Acetate	Potassium Fluoride	Sodium Phosphate
Barium Acetate	Lead Carbonate	Potassium Hydrogen Sulfate	Sodium Pyrophosphate
Barium Carbonate	Lead Subacetate	Potassium Hydroxide	Sodium Sulfate
Barium Chloride	Lithium Carbonate	Potassium Iodate	Sodium Sulfide
Barium Hydroxide	Lithium Chloride	Potassium Iodide	Sodium Tartrate
Barium Nitrate	Lithium Hydroxide	Potassium Nitrate	Sodium Tetraborate
Bismuth (III) Nitrate	Magnesium Acetate	Potassium Nitrite	Sodium Thiosulfate
Boric Acid	Magnesium Chloride	Potassium Oxalate	Sodium Tungstate
Cadmium Chloride	Magnesium Chloride	Potassium Permanganate	Strontium Chloride
Cadmium Sulfate	Magnesium Nitrate	Potassium Persulfate	Strontium Nitrate
Calcium Carbonate	Magnesium Oxide	Potassium Phosphate	Tin Chloride
Calcium Chloride	Magnesium Sulfate	Potassium Sodium Tartrate	Zinc Acetate
Calcium Hydroxide	Manganese Chloride	Potassium Sulfate	Zinc Chloride
Calcium Nitrate	Manganese Sulfate	Potassium Thiocyanate	Zinc Oxide
Calcium Sulfate	Mercury Acetate	Silver Nitrate	Zinc Sulfate
Cerium Ammonium Nitrate	Mercury Bromide	Silver Sulfate	
	Mercury Chloride	Sodium Acetate	
		Sodium Arsenate	

## Our Commitment To You

Noah Technologies has an industry-wide reputation for superior quality and customer service. Principles consistent with good scientific maintenance are closely followed and exceeded at our facility.

Our team offers a multitude of specialties and talents, all of which further our goal of supplying high-technology chemicals that meet or exceed our customers' requirements. At Noah Technologies we consistently place emphasis on manufacturing excellence to ensure the highest technology with the highest efficiency.

Customer satisfaction is a top priority at Noah and is maintained through continual improvement. To ensure the quality of our products and the traceability and documentation for all operations performed by our company, we adhere to and are certified to the ISO 9001:2015 Quality System.
