Aquauro

「HOW AND WHEN
SHOULD I DRINK
AQUAURO?」

**It is a good idea
to drink steadily
throughout the day.**

It is advisable to
increase consumption
of **AQUAURO** in summer
months and in the event
of relapse.

It is important to check that
you produce about 2 litres
of urine every 24 hours.

Aquauro

Your doctor has suggested drinking **AQUAURO** because it forms part of your therapy.

WHY SHOULD I DRINK AQUAURO?

Drinking at least 2 litres of water per day is a major factor in solving your problem:
kidney colic and/or urinary tract infections.

Drinking water is essential for **eliminating and preventing the formation of kidney stones.**

Water therapy alone can prevent 55% of recurrences.

If you have urinary tract infections (e.g. **cystitis**) it is **very important to drink** the right water in order to keep the urinary tract clean.

European Guidelines (EFSA) recommend a minimum daily **water intake of 2 litres for women and 2.5 litres for men.**

WHY IS AQUAURO UNIQUE?

Because AQUAURO is sourced from **three springs chosen** to create a **water that is chemically and physically IDEAL.**

Aquauro is a "light" water"

- Lightly **mineralised** and **low in sodium**
- It prevents formation and promotes elimination of **kidney stones.**
- It stimulates **diuresis**, promoting cleansing of the urinary tract.
- It reduces the concentration of **bacterial colonies.**

Because thanks to its special packaging and transport, **AQUAURO will get directly to your home, as and when you want it. Free from alterations, with no chemical, physical or taste changes: exactly as it is when it flows from the spring.**

Because **AQUAURO offers you free telephone support from a qualified operator**, who will be on hand to advise and assist you in following your water-based therapy.

WHERE TO FIND AQUAURO

AQUAURO is not typical water but a part of your therapy.

To ensure safety and high quality standards and to prevent the product being left in sunny warehouses, **AQUAURO** is not available via normal distribution channels, but is delivered directly to your door.

HOW TO PURCHASE

You can pay for **AQUAURO** by **credit card, PayPal or cash on delivery.**

The operator will explain all of the options during the telephone call. For more information, you can also **send an e-mail to info@setthim.ch**
