SUSTAINABILITY

Our Group is directly involved in 4 priority areas:

- 1 Employee's health and safety.** *We ensures employees safety with an integrated approach that includes: job organization, safety management, health protection from dangerous substances, advanced industrial processes.*
- 2 Environmental protection.** *We act pro-actively to satisfy environmental standards, using environmentally friendly products and processes, with adequate environmental management systems and effective projects aimed to lower emissions and wastes.*
- 3 Safety Processes.** *We act in a precautionary, systematic and exhaustive manner: for every production processes and equipment used, risks are identified, evaluated, deleted or reduced, assuring the respect of the highest safety standards.*
- 4 "Product stewardship"** *or Responsible Product management. We act respecting safety, health and environment standards, during all the product lifecycle: from planning to after sales supervision until eventual disposal*

We produce every year our

CORPORATE SOCIAL RESPONSIBILITY

We are also part of the voluntary international “Responsible Care” programme, which monitors the implementation of principles and conduct regarding the safety and health of employees and environmental protection. The commitment also involves the disclosure of the results achieved towards continuous, significant and tangible improvement.

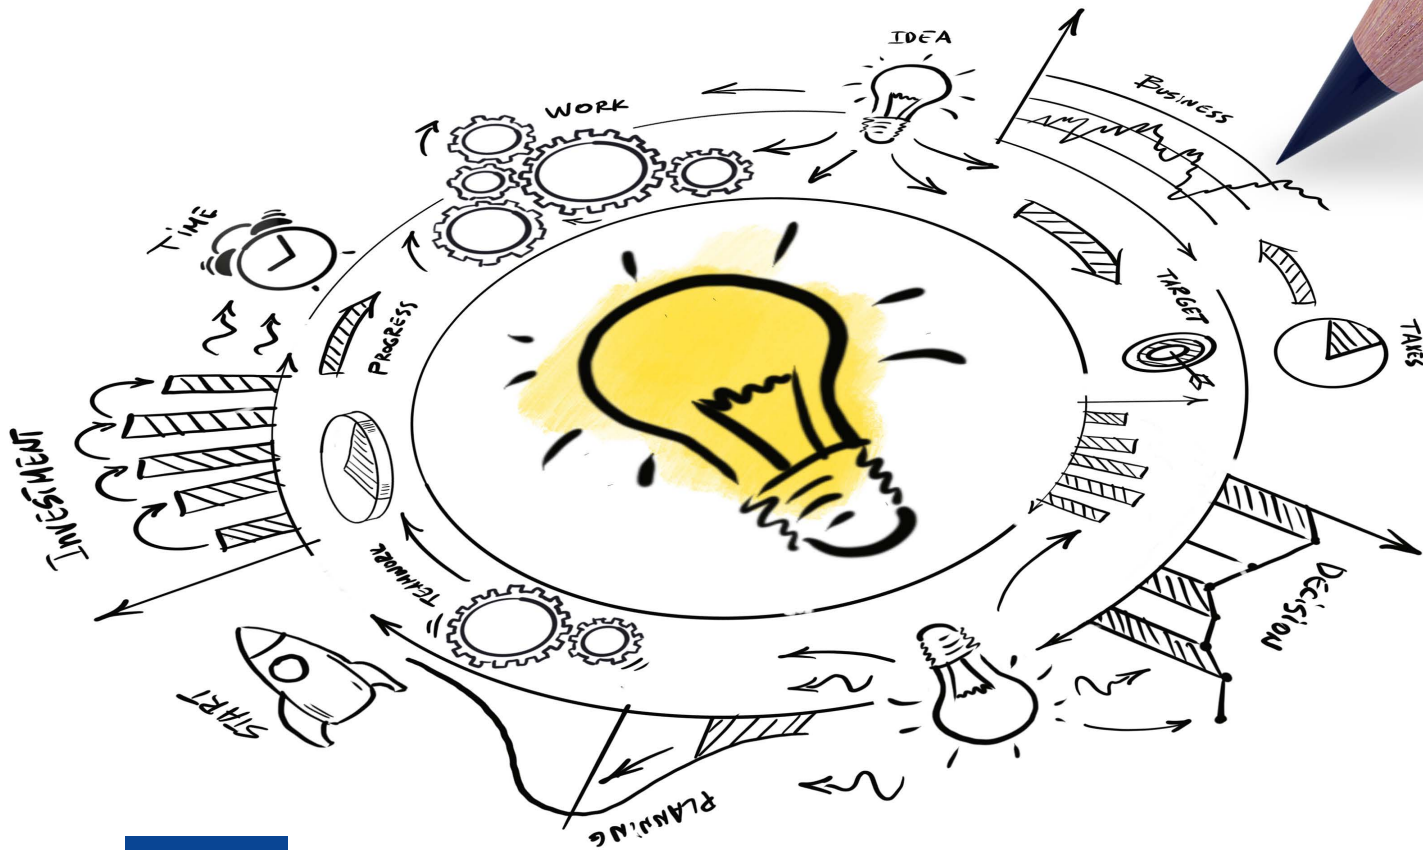

Responsible Care[®]

Water without impurities is an essential condition. Production standards benefit from a new inverse osmosis plant, which produces extremely pure water, and a technologically advanced water purification system. The constant purity of the water is guaranteed by a permanently connected, dedicated emergency system.

We work in a socially responsible way so that the community in which we live and the territory in which we work can look towards a long-term future, to satisfy the needs of the present without compromising the ability of the future generations.

REGULATORY SUPPORT

- ✓ *Registration Assistance
Italy and Abroad*
- ✓ *Pre-Registration
Document Preparation*
- ✓ *Tailored
Assistance*
- ✓ *Legislative Compliance
Evaluations*
- ✓ *Support to Relevant Institutions
and Governative Organizations*

PRODUCTION

- ✓ *Technologically Advanced Equipment*
- ✓ *High Flexibility:
All Liquid and Solid Forms*
- ✓ *All Types of Packaging*
- ✓ *Complete Traceability*
- ✓ *Full Service and Customer Partnership*

Production FOOD SUPPLEMENT

We develop, produce and package our products in 4 modern plants, we work with customers all over the world.

We develop innovative products, safe and effective, for all ages, starting from a few months of life.

Search for the best raw materials, proprietary technologies, patents, industrial competence, accurate controls and stability plans conducted internally, make us the ideal partner.

Production TABLETS

- ✓ *Swallowable single, double, triple layer tablets*
- ✓ *Chewable Tablets*
- ✓ *Normal, fast, modified release Tablets*
- ✓ *Coated tablets by aesthetic film; taste masking film; gastroprotected film*

NEW : *Big Size Tablets, Effervescent Tablets In Blister, Strips*

OFI

O.F.I. - Farmaceutici Procemsa - Property Strictly Confidential

Production CAPSULES

- ✓ *Hard gelatin capsules in sizes:
00, 0 long, 0,1, 2*
- ✓ *Vegetable gelatin capsules (HPMC)
00, 0 long, 0,1, 2*
- ✓ *Low humidity (LH) capsules specific
for probiotics and hygroscopic or
moisture sensitive active ingredients
00, 0 long, 0,1, 2*
- ✓ *Gastro-resistant capsules*
- ✓ *Capsules without titanium dioxide*

NEW : *Hard Gelatine Capsules with
One Beadlet, 2 Type of Beadlet, 1 Type of
Beadlet and Powder*

Production POWDERS

- ✓ *Single-dose maxi format sachet (over 8 gr)*
- ✓ *Single and twin sachets up to 8gr, from 60x90 mm to 60x110 mm*
- ✓ *Sticks from 26x90 mm to 26x110 mm*
- ✓ *Strips*

Various poly laminate wrapping for different protection needs, barrier to light, oxygen and humidity. Specific wrapping for probiotic-based products, in wrapping with molecular desiccants; Possibility of inserting nitrogen during packaging.
