

## Novelty and Technology for Care

Advanced scientific research and technology drive our efforts to innovate care practices.

Our range of products builds from our historical vocation for innovation aimed at improving the experience of patients and healthcare practices.

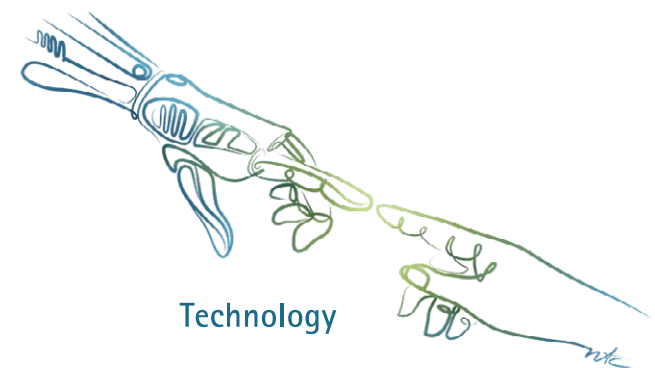

An innovation aimed at discovering specific **therapeutic gestures**: simple and intuitive, sustainable, and technically advanced for empowering the patient.

Our research aims to put pioneering new products within the reach of everyone and to optimize the performance of our products by analyzing the daily needs and habits of people undergoing treatment.

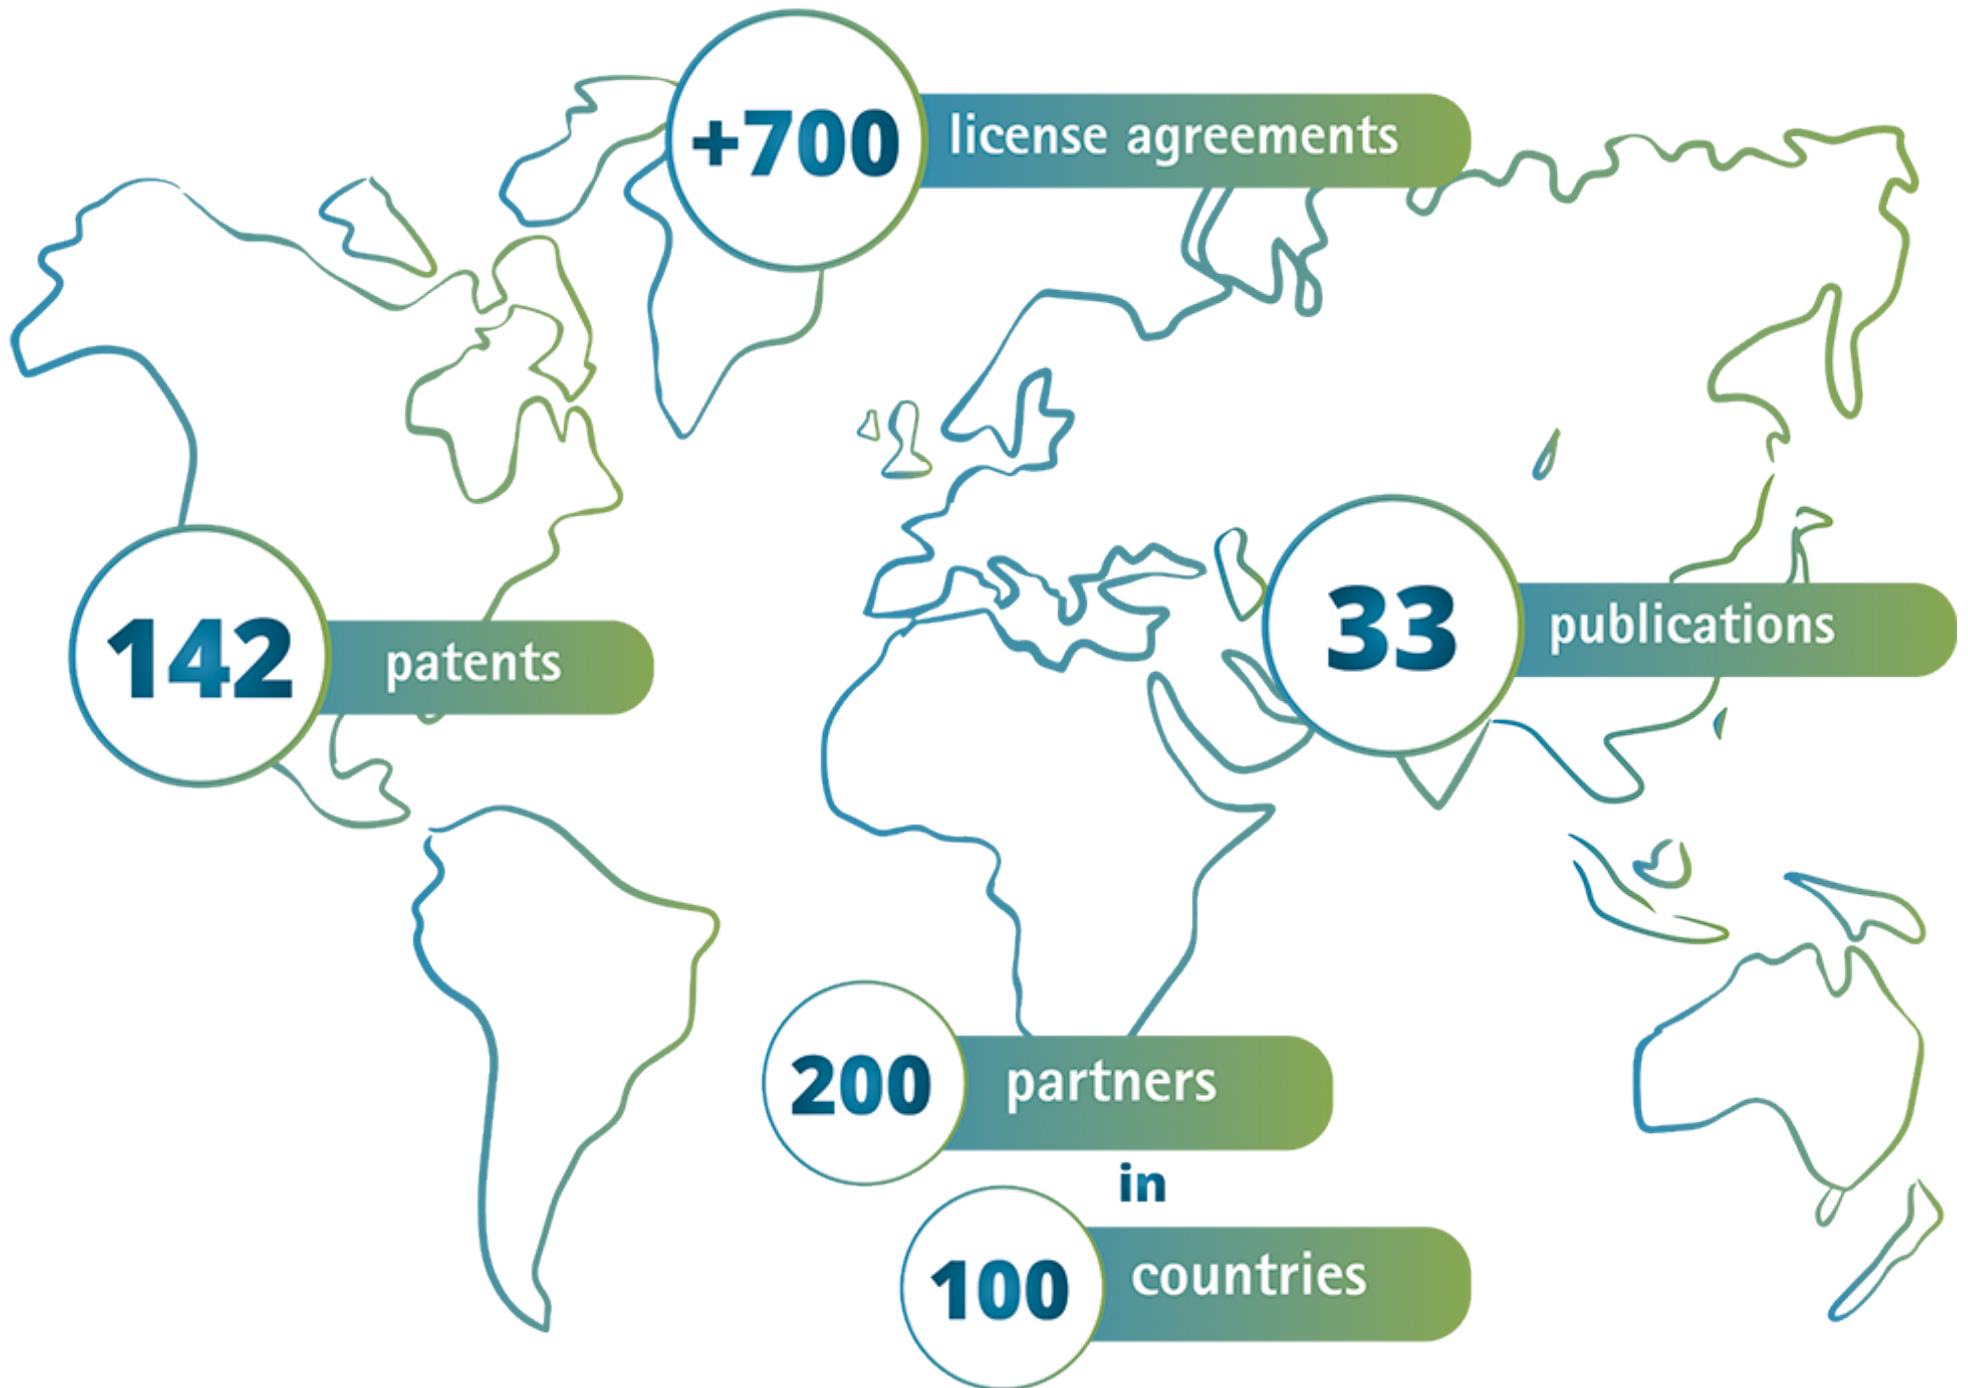

We research, develop and produce innovative drugs, medical devices and food supplements.

We market our products worldwide through licensing, distribution, marketing, and commercial deals with partner companies.

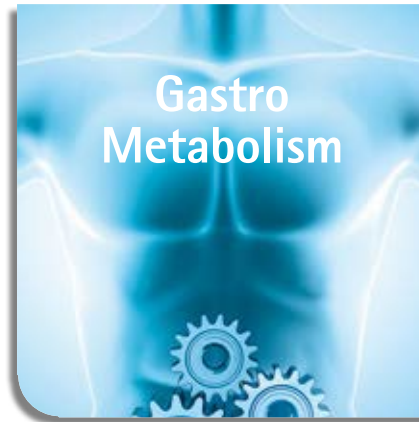

Our core therapeutic areas are: **Ophthalmology, Gastro-Metabolism, Pediatrics and Gynecology.**

## NTC, your strategic business partner worldwide

## Therapeutic solutions

**NTC** engages KOLs with the aim to target unmet medical needs and unresolved problems in Ophthalmology, Gastro-Metabolism, Pediatrics, Women Health and resolve them with innovative therapeutic solutions to close the gap.

## Ophthalmology

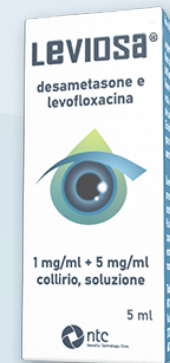

**NTC** is building its reputation in Ophthalmology thanks to the large number (30) of recently fully developed projects, including 10 prescription drugs.

**NTC's** ophthalmology expertise includes a wide range of ocular health products: single-dose, multi-dose, preservative free formulations using state of the art devices, some of them also suitable for contact lenses wearers.

**NTC** is investigating several different therapeutic indications in the ophthalmology area, with the aim of improving eye health and enhancing the patient's quality of life. In particular reducing the excessive antibiotic exposure to patients, choosing the right antibiotic with the adequate clinical data set of evidences and improving compliance for a better therapeutic outcome in ophthalmology are the main objectives, thus contributing to the **NTC** mission to improve sustainability.

**Leviosa®**

Levofloxacin 0.5%, Dexamethasone 0.1%;  
eye drops solution, multidose, 5 ml  
Also available Preservative Free Formulation

First in class fixed combination of  
a **quinolone** and a **corticosteroid** for  
**post-cataract surgery management**

New therapeutic  
approaches from  
NTC Research  
& Development

**Leader - i-perme**

the largest clinical study in Europe in Ophthalmology for changing paradigm of patient management after cataract surgery

## NTC014

Levofloxacin 0.5%, Ketorolac 0.5%; eye drops solution, multidose, 5 ml

New first in class fixed combination between a quinolone **antibiotic** and a non steroidal **antinflamatory** for the treatment of **acute bacterial conjunctivitis**.

Potential to become 1st choice treatment in this therapeutic indication.

Clinical study about efficacy in the eradication of bacterial conjunctivitis and speed in relieving signs and symptoms in comparison with current standard treatments.

This innovative and technological trial design will allow to gather data on the clinical evolution of the disease in a timely manner.

**Mirakle**

*(under development)*

## Dexamethasone monodose

Dexamethasone 0.1%; eye drops solution, single-dose.  
Preservative Free.

For prophylaxis  
and treatment  
of inflammation

## Dexamethasone multidose

Dexamethasone 0.1%; eye drops solution, 10 ml.  
Preservative free. Novelia device.

## Ofloxacin

Ofloxacin; eye drops solution, single-dose. Preservative Free.  
Phosphate free.

Ofloxacin; eye drops solution, multidose, 10 ml

## Levofloxacin

Levofloxacin; eye drops solution, multidose, 5 ml.

Also available Preservative Free Formulation in selected countries

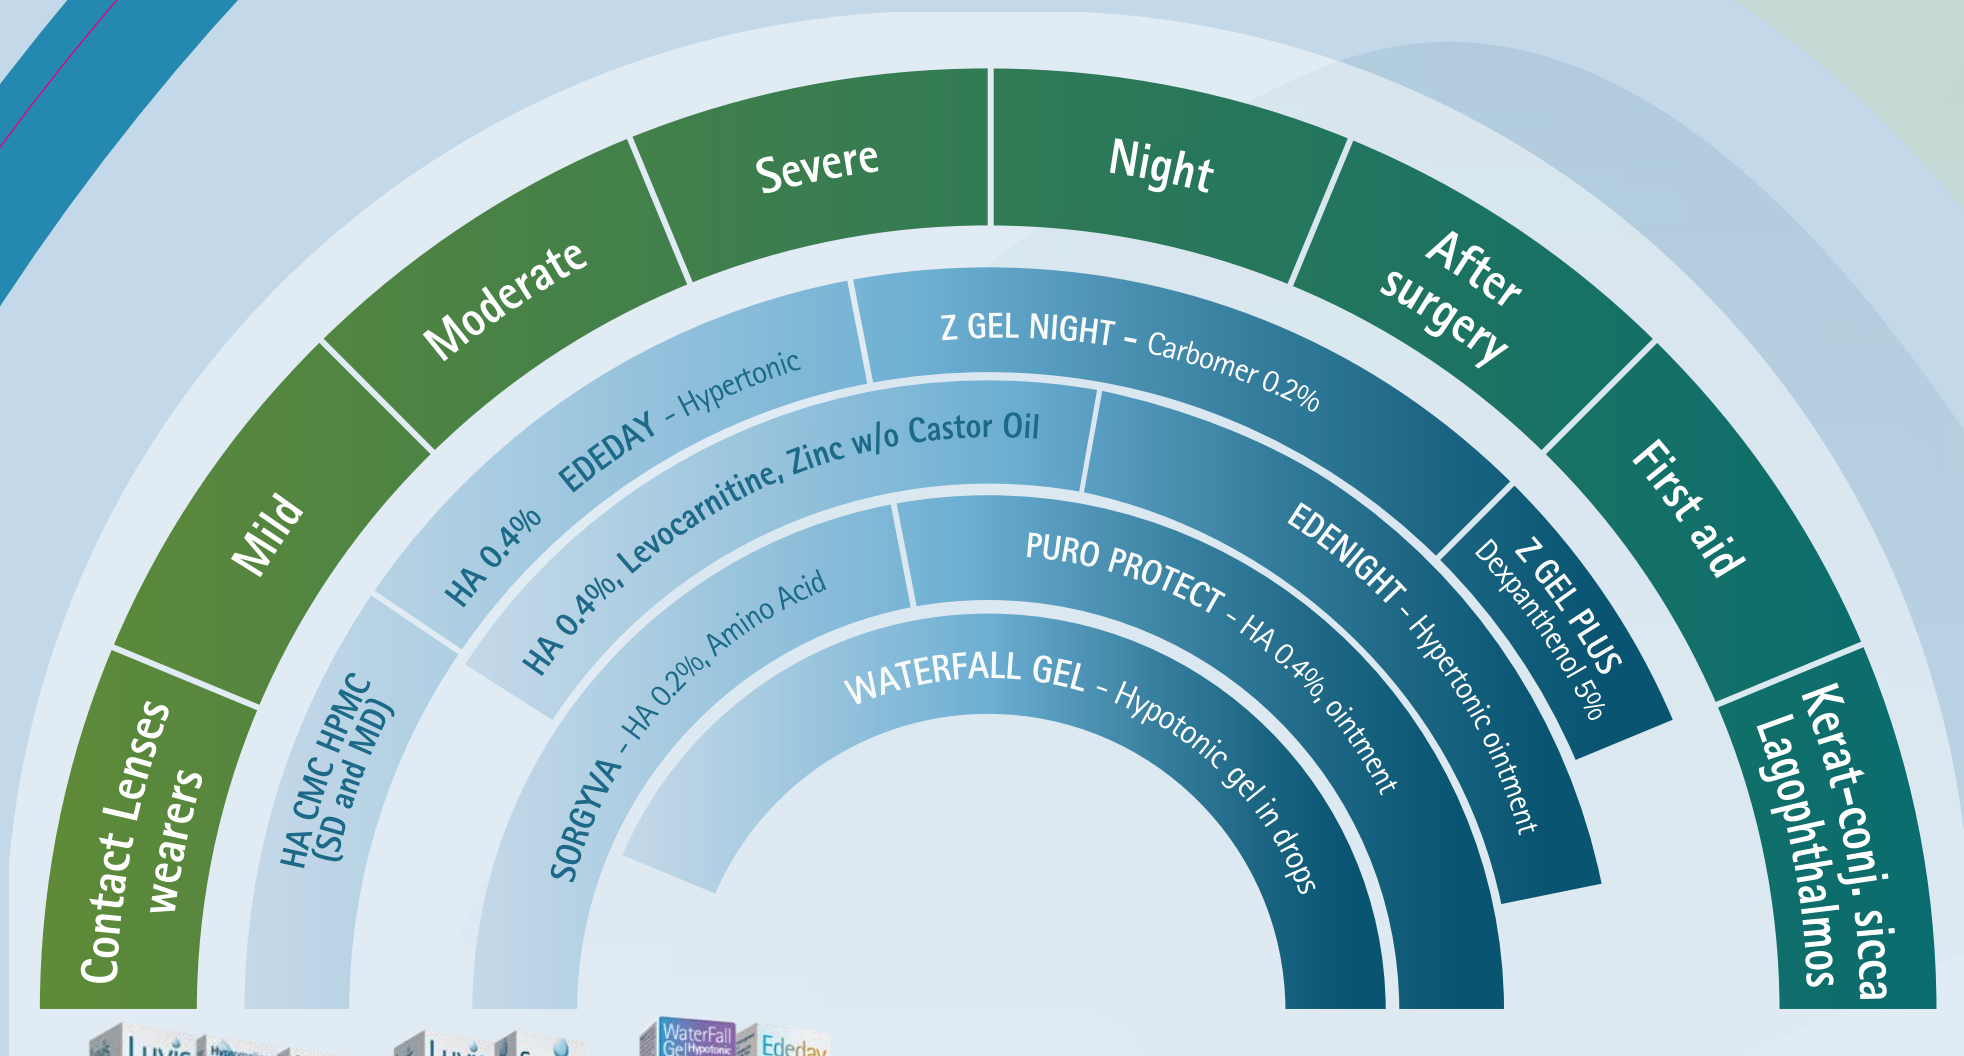

For the topical  
treatment of  
**bacterial external  
ocular infections**

DRY EYE

MEDICAL DEVICES MD

Full range of solutions to relieve symptoms of irritated, tired, dry eyes

## DRY EYE and VISION ACUITY

MEDICAL DEVICES MD

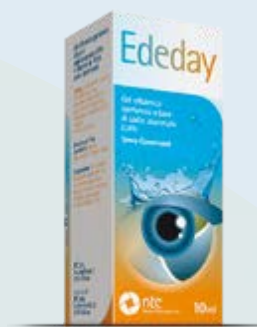

### Ededay

#### Ededay - HYPERTONIC EYE DROPS:

Sodium Hyaluronate 0.4%, Sorbitol 13.5%; 10 ml.  
Preservative free and Phosphate free. Aptar device.

For a rapid management  
of corneal edema and  
relief of dry eye symptoms.

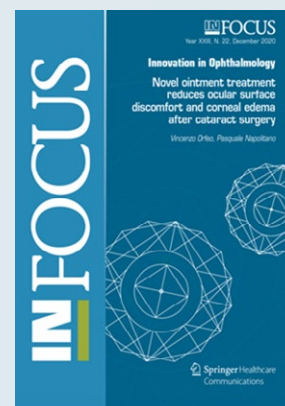

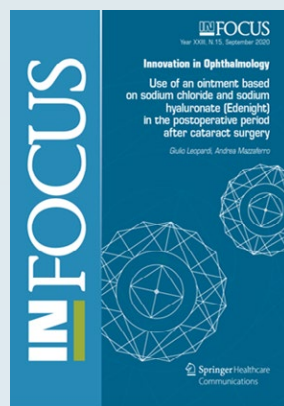

### Edenight

#### Edenight - HYPERTONIC OINTMENT:

Sodium Hyaluronate 0.4%, Sodium Chloride 4.5%; 5 g

Improve quality of vision and  
reduce ocular discomfort for  
an effective post management  
of cataract surgery.

OPHTHALMOLOGY

A complete treatment to  
restore quickly the normal  
condition of the eye after  
cataract surgery and  
a unique solution for  
corneal edema

DRY EYE

MEDICAL  
DEVICES

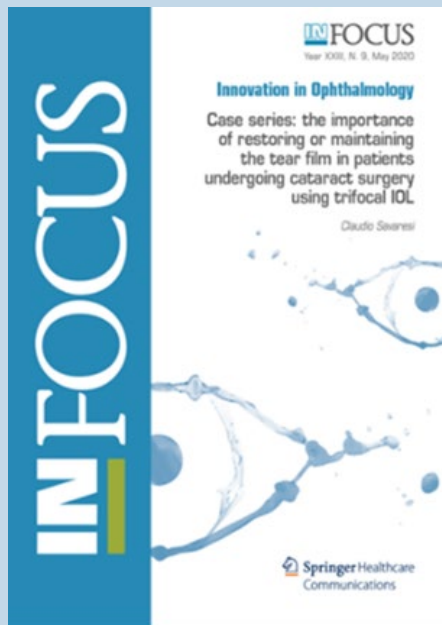

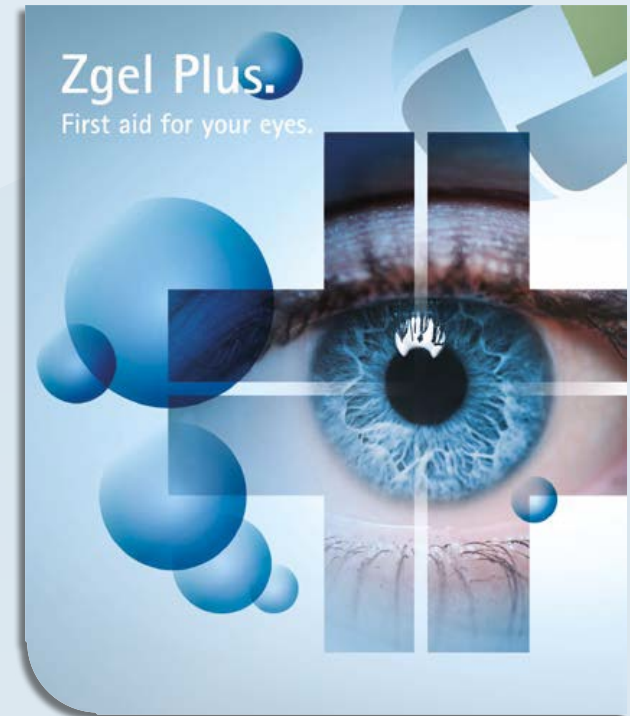

MD

## Zgel Plus

NEW

Dexpanthenol 5%,  
Carbomer (Carbopol 980) 0.3%;  
ophthalmic gel, 10 g

To protect and facilitate  
re-epithelialization of  
injured cornea  
also after surgery

DRY EYE

MEDICAL  
DEVICES MD

## Puro Protect

NEW

Sodium Hyaluronate 0.4%, ointment, 5g.

The **FIRST OINTMENT**  
containing Sodium hyaluronate 0.4%

For all those cases of **severe lacrimation disorders, dry eye and corneal dysfunctions or alterations.**

## Zgel Night

Carbomer (Carbopol 980) 0.2%;  
ophthalmic gel, 10 g

Carbomer, a viscosity-increasing agent,  
ensures a regular and stable protective  
film on the ocular surface

OPHTHALMOLOGY

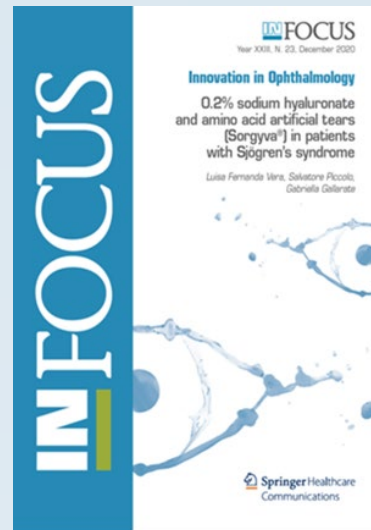

## Sorgyva

Sodium Hyaluronate 0.2%, L-Lysine, L-Leucine;  
eye drops solution, multidose, 10 ml.  
Preservative Free. Novelia device.

The presence of Amino Acids facilitates a more homogeneous distribution on the cornea providing more comfort to the patients

DRY EYE

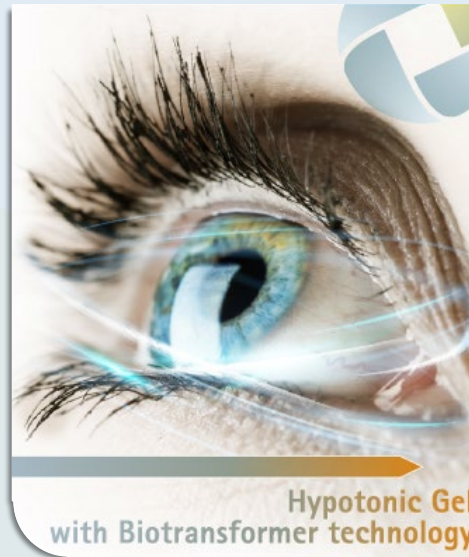

MEDICAL DEVICES MD

## WaterFall Gel

WaterFall Gel - Hypotonic  
with Sodium Hyaluronate 0.4%,  
Kolliphor 13.5%;  
sterile, multidose, 10 ml.  
Preservative Free. Novelia device.

Regular, stable,  
long-lasting lubricating film  
on the ocular surface

NTC Biotransformer  
technology  
all the protection of a gel  
in one drop

OPHTHALMOLOGY

DRY EYE

MEDICAL DEVICES MD

## Luvis Lipo

also without Castor Oil formulation.  
Sodium Hyaluronate 0.4%, Levocarnitine 0.25%, Zinc 0.0025%, Castor Oil;  
eye drop solution, multidose, 10 ml. Preservative Free. Aptar device.

Zinc supplemented to enhance corneal epithelium

Levocarnitine, an osmoprotector with a long duration of  
action, for an overnight treatment

Castor oil helps the reconstitution of the lipid layer and  
prevents evaporation of existing tear film

NTC premium eye drop  
designed to restore  
the lipidic layer of the tear film  
ensuring the maintainance  
of ocular homeostasis

DRY EYE

MEDICAL DEVICES MD

## Hidracare

Sodium Hyaluronate 0.2%, Chamomile, Red Fruits Extract; eye drop solution, multidose, 10 ml.  
Preservative Free. Aptar device.

Sodium hyaluronate improves the tear film stability and keeps the ocular surface lubricated, hydrated and protected. The natural Chamomile water has anti-inflammatory properties. Bilberry has a high content of flavonoids and exerts a potent antioxidant activity.

## Puro

Sodium Hyaluronate 0.15%; eye drop solution, multidose, 10 ml.  
Preservative Free. Aptar device.

Immediate and prolonged relief for dry eyes.  
Phosphate free.  
No calcification of the cornea.  
Contact lenses friendly.

DRY EYE

MEDICAL DEVICES MD

## High-quality Sodium Hyaluronate

Sodium Hyaluronate 0.2% – 0.4%;  
eye drops solution, single-dose, 0,5 ml. Preservative Free.

Sodium Hyaluronate 0.1% – 0.15% – 0.2% – 0.4%;  
eye drops solution, multidose, 10 ml. Preservative Free. Aptar device.

Sodium Hyaluronate 0.2% – 0.4%;  
eye drops solution, multidose, 10 ml.

Hypromellose HPMC 0.3%;  
eye drops solution, multidose, 10 ml. Preservative Free. Aptar device.

GREEN PRODUCT

Carboxymethylcellulose CMC 0.5% – 1%  
eye drops solution, multidose, 10 ml. Preservative Free. Aptar device.

GREEN PRODUCT

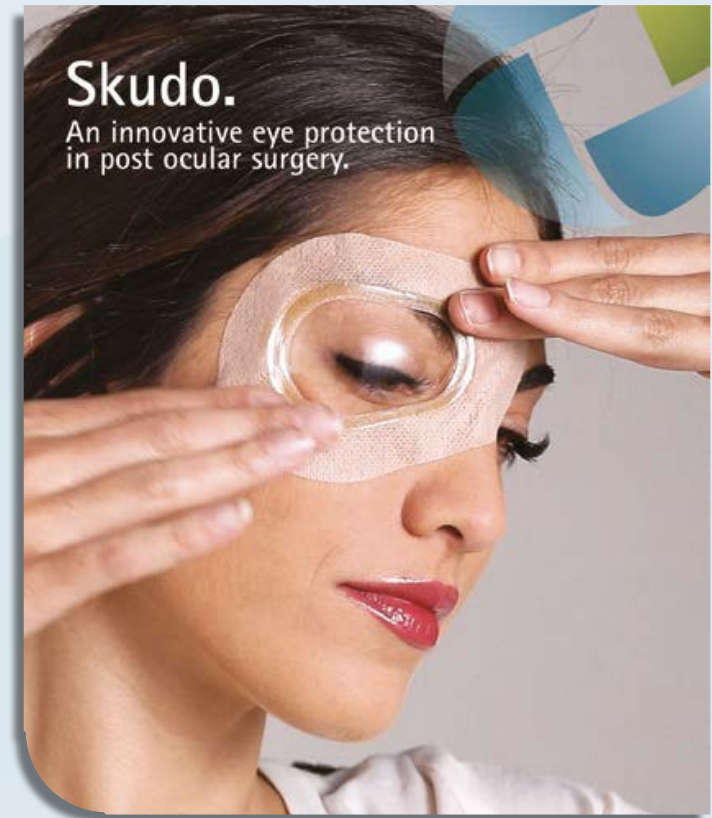

OPHTHALMOLOGY

Sterile,  
hypoallergenic  
and self adhesive  
Easy to apply

## Skudo

Self-adhesive eye shield  
with aeration holes

In Eye Surgical Custom  
Packs (ready for double  
sterilization)

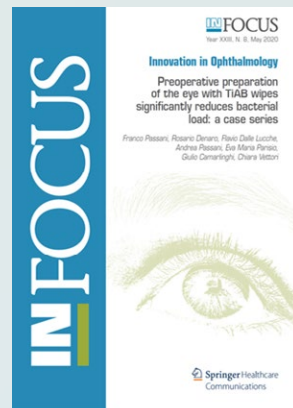

## TiABLO

Ophthalmic wipes, TiAB Complex 1%

A gentle, effective way to clean and protect the periocular area, especially before ocular surgery and intravitreal injections.

Your allies against microbial aggression

## Lertal® spray

Ocular spray with Biguanide, Liposomes and Sodium Hyaluronate 0.3%

It offers relief to irritated eyes and protect them from external microbial aggression with just one puff.

Usefull also in case of allergy.

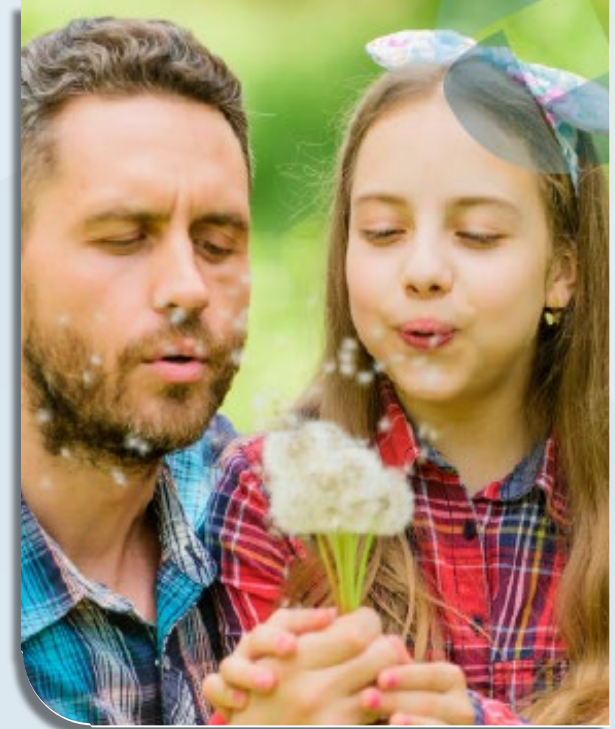

## Allergix Free

PER-LIP® a complex a complex of liposomes and sodium hyaluronate 0,2%, with Perilla.

Preservative Free ocular spray, 10 ml

Ideal for dry eye and seasonal allergic conjunctivitis symptoms in an innovative easy to use device.

Innovative approach to  
Seasonal Allergic Conjunctivitis

# BLEPHARITIS

MEDICAL DEVICES MD

## Blefastop

HY-TER® a complex of Terpinen-4-ol and Sodium Hyaluronate  
Ophthalmic wipes

Supported by clinical study

First complete therapeutic solution for Blepharitis

Vegan and Halal formulation available

Lutein 10 mg, Zeaxanthin 2 mg, Vitamin C 180 mg,  
Vitamin E 30 mg, Zn 10 mg. Sachets

## Retinorm (formulation for wet AMD)

Vitamin C 180 mg, Vitamin E 30 mg, Lutein 10 mg,  
Zeaxanthin 2 mg, Zinc 10 mg, Saffron 15 mg, Lycopene 1 mg.  
Chewable tablets.

## VITREOUS MIODESOPSIA

FOOD  
SUPPLEMENTS **FS**

### Vitreonorm

Hydrolyzed Collagen 200 mg,  
Glucosamine d-sulfate 120 mg,  
Vitis vinifera 85 mg, Vitamin E 12 mg,  
Capsules

In case of  
deficiency or  
increased needs  
of the ingredients for  
the vitreous trophism

OPHTHALMOLOGY

## Travoprost

Travoprost 40 mcg/ml; eye drops solution, multidose, 2.5 ml

## Travoprost + Timolol

Travoprost 40 mcg/ml, Timolol 5 mg/ml; eye drops solution, multidose, 2.5 ml

## Latanoprost

Latanoprost 50 mcg/ml; eye drops solution, multidose, 2.5 ml

## Latanoprost + Timolol

Latanoprost 50 mcg/ml, Timolol 5 mg/ml; eye drops solution, multidose, 2.5 ml

## Dorzolamide

Dorzolamide 20 mg/ml; eye drops solution, multidose, 5 ml

## Dorzolamide + Timolol

Dorzolamide 20 mg/ml, Timolol 5 mg/ml; eye drops solution, multidose, 5 ml

## Gastro – Metabolism

NTC offers a wide range of gastrointestinal (GI) treatments based on innovative formulations.

Within the GI arena NTC offers among the others: an innovative approach to colonoscopy preparation; a synergic, natural and effective way to treat constipation in adults; a preservative-free food supplement to promote gastrointestinal well-being and transit; an innovative treatment for gastroenteric meteorism; a natural product containing specific probiotic strains, *Lactobacillus gasseri*, for weight management; a highly bioavailable reduced L-Glutathione.

## NTC015

Oral drug formulation in 50gr sachets to be dissolved in water.

Patented (global PCTs)

Bowel cleansing procedure  
in patients undergoing  
to colonoscopy

Effective therapeutic solution, easy to take, with very good taste.  
With no relevant systemic side effects.  
For a complete intestinal cleansing while favoring compliance.  
Strong Evidence Based Medicine Data in support.

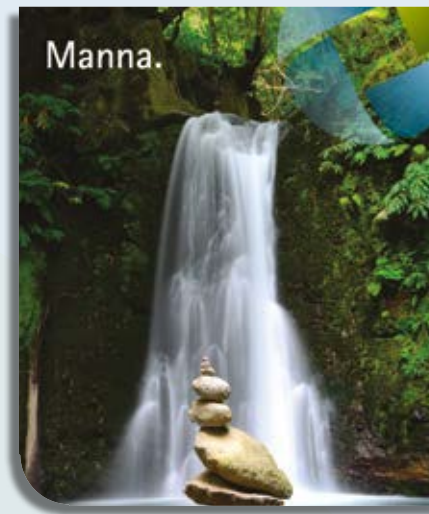

## CONSTIPATION

FOOD SUPPLEMENTS **FS**

### Fricol

Manna extracted from fraxinus ornus, mannitol, 15 g. Sachets

A natural approach in IBS-C

**Rapid efficacy**

Proven safety

High compliance

Non invasive

Natural

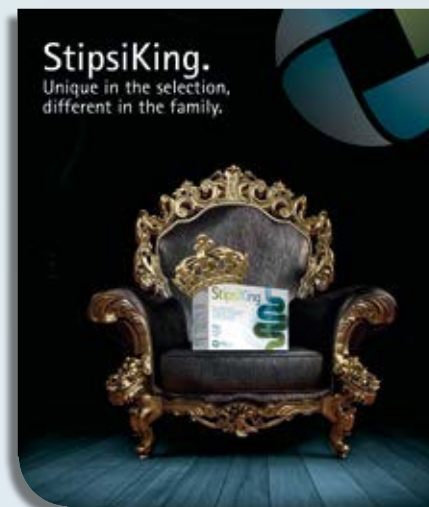

GASTRO-METABOLISM

## IBS-C

FOOD SUPPLEMENTS **FS**

### StipsiKing

Bifidobacterium animalis ssp. Lactis (BLC1) 10 billion CFU, Psyllium 2.5 g. Sachets

A specific

probiotic strain for a

'Real' solution

in Constipation and

IBS symptoms.

Ideal for **long-term use.**

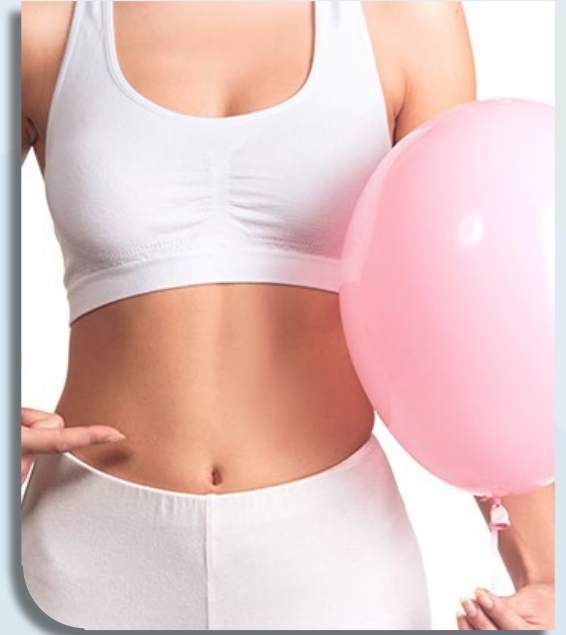

## Simethicone

**Simethicone drops in olive-oil,**  
Vitamin A and E, CoQ10;  
Sugar, Gluten and Preservatives Free;  
easy to dose bottle, 20 ml

**Simethicone drops in water,**  
bottle, 20 ml

**Simethicone 50 mg, Active Carbon 300 mg,**  
tablets

**Simethicone 80 - 240 mg,**  
soft gel capsules

For treatment of flatulence and bloating generated by swallowed air, digestion, high-fiber foods and intestinal bacteria

## INTESTINE EVACUATION

FOOD SUPPLEMENTS **FS**

### Puntuale Adults

White grapes monosaccharides,  
Polysaccharides from aloe and altea,  
Hydroglyceric propolis.  
Microenemas 10gr.

Special blend of active ingredients working synergically with a triple action: laxative, soothing and antibacterial.

## ALTERATION OF INTESTINAL MICROFLORA

FOOD SUPPLEMENTS **FS**

### Probiotics

Lactobacilli mix  
Lactobacilli 5 strains, group B vitamins  
Lactobacilli, vitamin B and C  
Probiotic drops in oil (Bifidobacterium lactis),  
capsules, sachets, vial presentations available

To maintain and restore normal gastrointestinal function during antibiotic therapy, in children and adults with acute and traveler's diarrhea and as support in people with inflammatory bowel disease.

GASTRO-METABOLISM

New effective mucoadhesive technology based on natural active ingredients for aftae treatment

Antioxidant and detoxifying with a dose dependent anti-melanogenic effect

## AFTAE (CANKER SORES)

MEDICAL DEVICES MD

### Rosafartil

Sodium Hyaluronate 0.2%, Damask Rose extract 4%

Mouth gel for adult, tube, 15 ml

Mouth spray, 15 - 20 ml

Mouthwash, 100 ml

## FREE RADICAL PRODUCTION

FOOD SUPPLEMENTS FS

### Oxithion® – Oxithion® HD

Reduced L-Glutathione (100 mg) in fast dissolving orodispersible tablets

Reduced L-Glutathione (250 mg) in high dosage sublingual granules

Innovative patented technology, that makes glutathione rapidly absorbed through the sublingual mucosa

Easy to administer even in people with difficulties in swallowing

High tolerability and with increased bioavailability of the active ingredients

## Pediatrics

Pediatric products require close attention to be paid not only to the efficacy of the formulation, but also to its acceptability, allowing accurate dosing, which may vary widely based on the child's age and weight.

**NTC** endeavors to meet the needs of pediatricians by providing easy-to-administer, child-tailored products offering a perfect balance between effectiveness and compliance. **NTC** is engaged in innovative therapeutic solutions in allergy and in acute otitis media.

**NTC** offers therapeutic solutions IBS-C that are safe, representing a natural and complete adjuvant approach to constipation treatment, a solution for gastroenteric meteorism in infants and children, and a food supplement for iron deficiency in children.

IRON DEFICIENCY

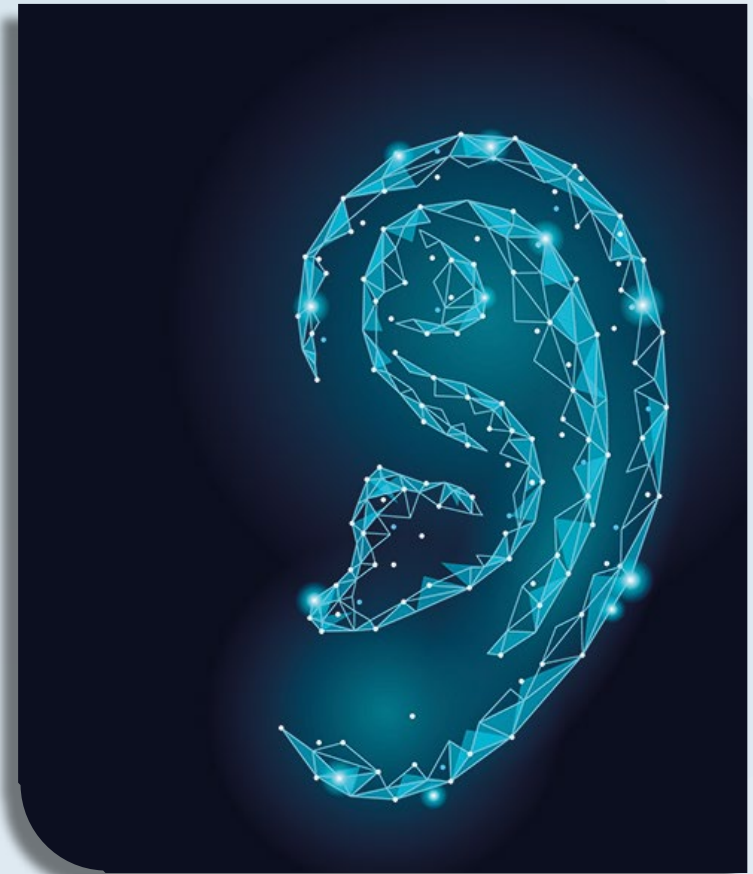

## NTC011

Levofloxacin 0.5%, Dexamethasone 0.1%; ear drops, 5 ml

Higher antibiotic concentration at the site of action to provide superior eradication of the infective pathogens without the disadvantages of systemic antibiotic therapy.

The superior alternative to systemic antibiotic treatment in Otitis media with spontaneous perforation of the tympanic membrane (AOM-STMP).

*(under development)*

## IMMUNOLOGICAL BOOSTER

FOOD SUPPLEMENTS **FS**

PEDIATRICS

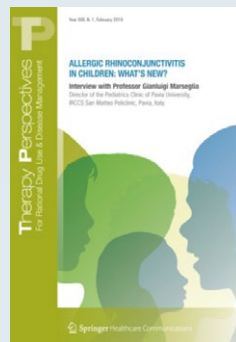

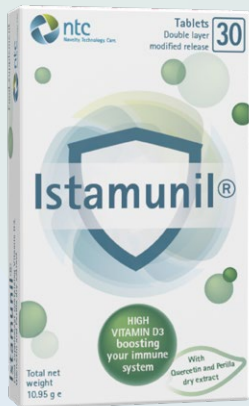

### Istamunil

Vitamin D3 5µg, Quercetin 150 mg, Perilla 80 mg  
Double layer tabs modified release

Patented

Short term reduction of histamine level.

Long term immunological system enhancement.

Strong Evidence Based Medicine Dataset of Publications available.

## METEORISM

MEDICAL  
DEVICES MD

Fighting against  
infant colic  
with an effective  
antifoam activity

### Simethicone with Vitamins A, E and CoQ<sub>10</sub> in olive oil suspension

Simethicone drops in olive-oil, Vitamin A and E, CoQ<sub>10</sub>,  
Sugar, Gluten and Preservatives Free, easy to dose bottle, 20 ml

The olive oil-suspension in drops is a new formulation easy to dose  
for infants and children, preservative, sugar and gluten free

## AFTAE (CANKER SORES)

MEDICAL  
DEVICES MD

For the oral mucosa  
suffering from recurrent aftae

### Rosaftil

Mouth gel for kids, tube 15 ml  
Sodium Hyaluronate 0.2%, Damask Rose extract 4%

Spray 15 – 20 ml  
Damask Rose extract, Sodium Hyaluronate,  
mint flavour, Aloe barbadensis leaf extract

New mucoadhesive technology, safe and effective,  
easy to use and apply, based on natural active ingredients

IBS-C

FOOD SUPPLEMENTS **FS**

## StipsiKid

Bifidobacterium lactis (BLC1) 6 billion CFU, Psyllium 0.75 g, Sachets

Psyllium, promotes bowel regularity, favours a lenitive and emollient action on gut, increase the absorption of nutrients and the lipid metabolism

Effective in treating constipation through reduction of whole gut transit time and increasing bowel evacuation frequency

The synergic natural, effective and gentle way to treat constipation and to ensure intestinal wellbeing of infants and children from 3 year on

CONSTIPATION

FOOD SUPPLEMENTS **FS**

## Fricol Kid

Manna extracted from fraxinus ornus, mannitol, 5 g. Sachets

A natural approach in constipation

Rapid efficacy  
Proven safety

Non invasive  
Natural

INTESTINE EVACUATION

FOOD SUPPLEMENTS **FS**

## Puntuale children

White grapes monosaccharides. Polysaccharides form aloe and altea. Hydroglyceric propolis. Microenemas 5gr.

For iron supplementation and consequent reduction of tiredness and fatigue. Important in cognitive development in children

## IRON DEFICIENCY

FOOD SUPPLEMENTS **FS**

### Turbofer® Drops 3+

Iron pyrophosphate 7 mg microencapsulated in liposomal form, Vitamin B<sub>6</sub> 0.7 mg, Vitamin B<sub>12</sub> 1.25 mcg

## WOUND CARE

MEDICAL DEVICES **MD**

### TiAHEAL Powder

TiAb, Kaolin, Sodium Hyaluronate

Suitable for small wounds, cuts, abrasions and burns

Quick and effective solutions  
Wide range of application

### TiAHEAL Powder Spray

TiAb, Kaolin, Sodium Hyaluronate

Suitable for larger wounds with exudate

### SPRAYthePATCH

TiAb patch spray

A resistant film

Its flexibility permits application even in uncomfortable areas to reach.

## Gynaecology

There are phases in a woman's life such as puberty, pregnancy or menopause, where physiological changes are particularly challenging.

**NTC** offers a range of products designed to specifically help address these female disturbances and maintain a general wellbeing:

a defensive barrier adjuvant in the treatment of vulvovaginitis, allowing a greater resistance of the intimate area against external attacks to the vaginal bacterial flora;  
specific probiotic strain for vaginitis and vaginosis to restore a healthy vaginal microbiota;  
a food supplement with excellent tolerability for iron deficiency;  
a natural remedy for anxiety and menopausal symptoms.

**NTC** also offers a full line of products designed to treat vaginitis, vaginosis and candida, leveraging antiseptic substances instead of antibiotics.

VAGINITIS – VAGINOSIS

TiAb, Aloe Vera extract and Sodium Hyaluronate

### Vaginal Atrophy

**TiAB Genistein Vaginal Gel**  
TiAb, Genistein, Sodium Hyaluronate  
Single dose cannulas

**GelFemme**  
Ectoine, Sodium Hyaluronate, Allantoin

**SiAB Red Clover Vaginal Gel**  
SiAB, Red Clover, Sodium Hyaluronate  
Single dose cannulas

## EXTERNAL Conditions

### Vulvar discomfort

**TiAfemme Wipes**  
TiAb and Lactic Acid

**TiAb Vulvar foam**  
TiAb, Malva and Sodium Hyaluronate

**TiAb Vulvar gel**  
TiAb, Dimethicone,  
Aloe Vera extract and Sodium Hyaluronate

VAGINITIS – VAGINOSIS

FOOD SUPPLEMENTS FS

**Biovaginil®**

Lactobacillus crispatus NTCVAG04® 3 billion CFU,  
Vitamin A 120 µg; oral capsules

Vitamin A contributes to the maintenance of normal mucous membranes

Lactobacillus Crispatus NTCVAG04® re-establishes healthy vaginal flora

Clinically demonstrated vaginal and rectal colonization of Lactobacillus crispatus following oral administration

Clinical study in press

NTCVAG04® prevents bacterial vaginosis outcomes and recurrences by restoring the microbiota eubiosis

VAGINITIS – VAGINOSIS

MEDICAL DEVICE MD

**TiAB Vaginal Soft Gel Caps**

Softgel caps containing TiAb, Aloe Vera extract and Sodium Hyaluronate

A rapid melting soft gel formulation that exerts a defensive barrier effect and provides alleviating and soothing effect

Different clinical studies have demonstrated Soft Gel Capsules efficacy on symptoms, signs, Vaginal Health Index Score and Female Sexual Function Index

Substantial dataset of published clinical studies available

A New Approach to treat Aerobic Vaginitis and to improve vaginal healing

## VULVOVAGINAL ATROPHY

MEDICAL DEVICE MD

### TiAb + Genistein

TiAb, Genistein, Sodium Hyaluronate  
Vaginal gel in Single dose cannulas

A moisturizing gel that effectively counteracts vaginal dryness and recovery mucosa physiological conditions.

Indicated for vaginal dryness and atrophy especially in the menopause

### SiAb + Red Clover

SiAB, Red Clover, Sodium Hyaluronate  
Vaginal gel in Single dose cannulas

For the treatment of menopausal symptoms

It restores the vaginal tissue trophism and the normal physiological functions of vaginal mucosa

An innovative long lasting non-hormonal adjuvant treatment for vaginal atrophy.

### GelFemme

Ectoine 3%, Sodium Hyaluronate, Allantoin  
Multi-dose tube with disposable cannulas

Fast-slow acting product combining ectoin for long-lasting hydration and hyaluronic acid for an immediate relief

## VULVAR DISCOMFORT

MEDICAL DEVICES MD

### TiAfemme

Vaginal wipes based on TiAb and Lactic Acid

Its powerfull formula helps to protect intimate area against possible external attacks to the vaginal bacterial flora and to recover the physiological condition

Easy application and maximal patient comfort

Innovative wipe for Vulvar intimate hygiene

### TiAB Vulvar foam

TiAb vulvar foam, with Sodium Hyaluronate and Malva

The soft, soothing and moisturizing foam designed for the sensitive intimate area.

For the treatment of vulvar discomfort

### TiAb Vulvar gel

Vaginal gel with TiAb, Dimethicone, Aloe Vera extract and Sodium Hyaluronate

A protective cream-gel that provides a quick relief from typical vulvar discomfort

Also useful in case of superficial lesions from surgical incisions

Natural remedies against menopausal symptoms (hot flushes).

## MENOPAUSAL SYMPTOMS

FOOD SUPPLEMENTS **FS**

### Talitha<sup>®</sup> quiet

Polygonum cuspidatum standardized in trans-Resveratrol, Vitamin E, Vitamin D3, Vitamin B6, Vitamin B12

It helps to maintain of normal bones, it regulates the ormonal functions and it contributes to the reduction of the sense of tiredness and fatigue.

## IRON DEFICIENCY

FOOD SUPPLEMENTS **FS**

### Turbofer<sup>®</sup>

Iron 14 mg, Folic acid 200 µg, Vitamin C 80 mg, Vitamin B 2.5 µg. Orodispersible granules

Provides adequate levels of iron without any unpleasant side effects

Orodispersible granules in sticks, good taste, easy to administer even in people with difficulties in swallowing

Iron microencapsulated in liposomal form for alimentary deficiency with proven efficacy and compliance

A waterproof resistant film

Its flexibility permits application even in  
uncomfortable areas to reach.

Isolate the point of application  
Protect from microbial attacks  
Create the best conditions for  
skin tissue regeneration

## PROCTOLOGY

MEDICAL  
DEVICES MD

Adjuvant in the treatment  
of symptoms associated  
with hemorrhoidal disease

### TiAHEM

TiAb, Dimethicone, Aloe Vera extract  
and Sodium Hyaluronate.

Promotes and accelerates normal repair and healing  
processes in case of hemorrhoids, anal fissures or traumas  
resulting from surgical treatment

Relieves irritation thanks to its emollient, soothing and  
refreshing properties

## UROLOGY

MEDICAL  
DEVICES MD

For prevention of male  
genital infections

### TiAb Urological

TiAb, Aloe Barbadosis, Sodium Hyaluronate, Dimethicone

Effective in healing surgical wounds in patients exposed to  
uro-andrological surgery

It isolates the point of application and prevents the  
formation of possible surgical and non-surgical male  
genital infections

It exerts a hydrating and soothing action

Clinical dataset available

## RESPIRATORY

MEDICAL  
DEVICES MD

## Respyal

Sodium Hyaluronate 0.2%, L-Lysine, L-Leucine  
Preservative Free

Forms a protective barrier on the nasal  
mucosa and improves its hydration  
Helps to free the nasal cavities

## HydraNose

Dexpanthenol 5%, Carbomer 0.3%, Cetrimide

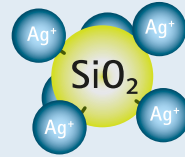

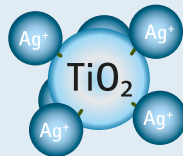

Helps to reduce irritation and dryness of the  
peri-nasal area providing hydration and protection

# TIAb & SIAB: PATENTED INVENTION

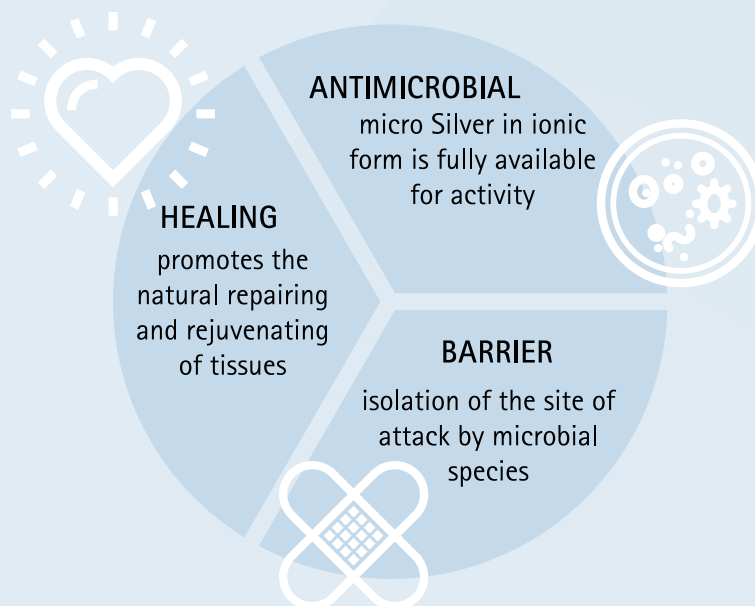

## MICROSIZED PARTICLES

TiAb and SiAB complexes are silver based microparticles, highly active against bacteria, fungi and viruses, with strong antiseptic properties.

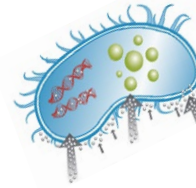

This innovative patented technology creates a new unique system that stabilizes the Silver ions to obtain the maximum activity with the lowest quantity of Ag.

## MULTIPLE EFFECT

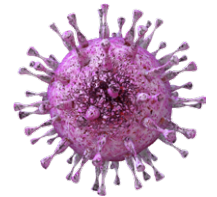

## Broad-spectrum antiseptic activity

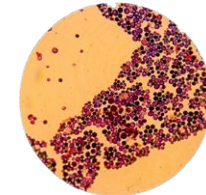

### Bacteria

### Virus

### Fungi

## MULTI COUNTRY PATENT

Technology: the Patent is valid in many countries  
Uses: Vaginal & dermal use as well are patented in many countries worldwide.

# ECO-SUSTAINABILITY

NTC has always been engaged on developing pharmaceutical Novelties through innovative thinking and leveraging Technologies, because we Care. Not only about people, but also about the Planet. NTC is focusing on fighting antibiotic resistance which means a more rational approach to the use of antibiotics (right doseage for the correct period of time) and on the use of antiseptis as an alternaive therapeutical approach.

NTC is reconceptualizing the development and manufacture of most of its products with a view to reduce plastic use as much as possible and eliminate carbon from all steps of the value chain.

NTC offers a wide range of "GREEN" products betting on the following characteristics:

- sustainable formulation (preservatives-free, coloring-free and without chelating agents)
- certified paper source
- water based varnish and vegetal based inks
- high ecological standards guaranteed by Certified Manufacturing Sites

If you find this symbol beside a product means it's green

FSC (Forest Stewardship Council) is one of the most accredited, recognized and widespread certification.

It is a guarantee to customers and consumers of an ethical engagement.

It means an environmental and social choice that can be exploited to improve the livery of your products.

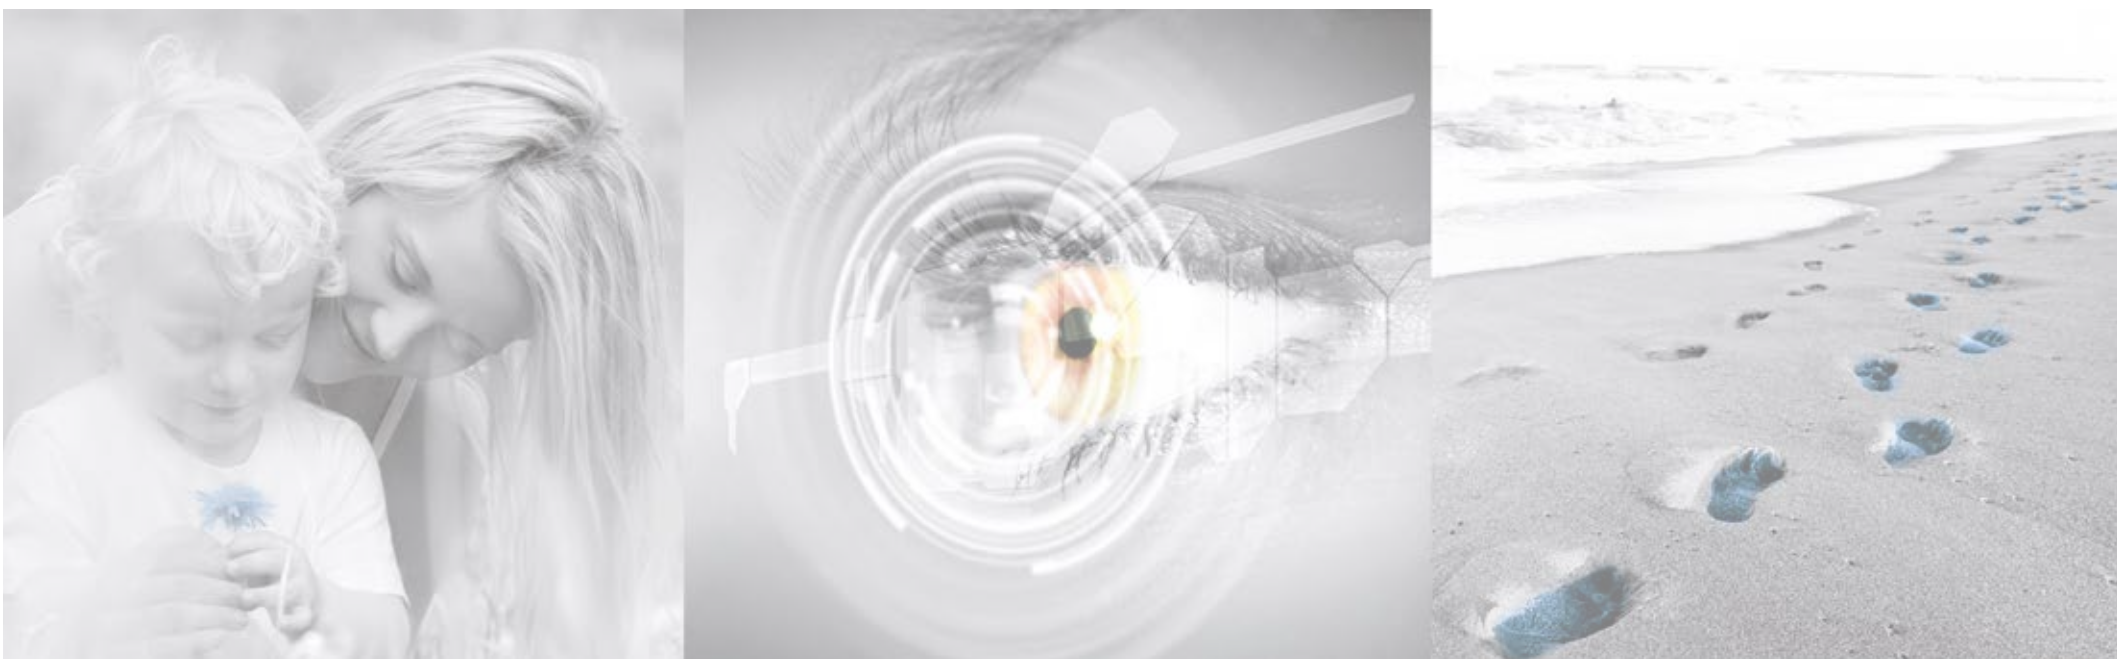

## BUSINESS SUPPORTING PLATFORM

**ntc4you**

Speed and simplicity to develop a more comprehensive and positive customer experience 24/7.

- Placing a new order
- Tracking the order status "everytime, everywhere"
- Accessing documents relating to orders and artworks
- Inserting new forecast
