杭州华缔集团有限公司  
Hangzhou Huadi Group Co., Ltd.

## COMPANY PROFILE

Huadi Group was established in 2011 ( It originated in 1995 ), which is a national High and New Tech enterprise, mainly specialized in Bio-extracted raw material, Synthesis peptides, Biochemical formulations and Nutritional supplements. To adapt the requirement of the Group's development, a high-tech biological industrial zone was built in Anji 2017, involving R&D, production, sales and technology services.

Implement a strict and complete quality control system which to ensure the quality of each product meet the requirement of customers. The products have been successfully exported to America, Germany, France, Russia, Korea, Brazil, Vietnam, Pakistan and so on.

Huadi Group is committed on human health. It is our unshirkable responsibility to improve people's health with the best efforts on our products and services. We appreciate sincere partners over the world to work together on this lofty aspiration.

### ➤ HANGZHOU HUADI GROUP CO., LTD.

## ➤ SEEKING COOPERATION

As a national High and New Tech Enterprise, Hangzhou Huadi Group Co., Ltd, mainly specialized in Bio-extracted raw material, Synthesis peptides, Biochemical formulations and Nutritional supplements with strong activity and safety. To adapt Group company's development requirements, we are building a high-tech biological industrial park in Anji Tianzi lake development zone and keeping open-minded to explore more opportunities and modern ways to cooperate with a variety of pharmaceutical companies all over the world. Our new cooperation models are as follows:

### (1) R&D Service

We would provide our technology to R&D and API production, if you know good new biological products and want to find a company to R&D.

### (2) Technology Transfer

We would provide our technology and support you from manufacturing raw material to formulation processed, registration, and market locally, if you are interested in our API and would like to develop it and its finished formulation in your market.

### (3) Registration Cooperation

We would provide the locally registered formulations, if you have rich experience in registration and your domestic market promotions.

### (4) OEM Service

We would offer OEM service for Capsule, Tablet, Small dose injection.

## ➤ API&INTERMEDIATE (PEPTIDE)

Product Name	CAS No.	Molecular Formula	Molecular Weight	Purity (HPLC)
Thymopentin(TP-5) (GMP)	69558-55-0	C30H49N9O9	679.77	≥97.0%
Oxytocin Acetate (DMF)	50-56-6	C43H66N12O12S2	1007.2	≥93.0%
Octreotide Acetate (DMF)	83150-76-9	C49H66N10O10S2	1019.26	≥96.0%
Terlipressin Acetate	14636-12-5	C52H74N16O15S2	1227.37	≥95.0%
Vasopressin Acetate	113-79-1	C46H65N15O12S2	1084.24	≥95.0%
Desmopressin Acetate	16679-58-6	C46H64N14O12S2	1069.24	≥95.0%
Lypressin Acetate	50-57-7	C46H65N13O12S2	1056.22	≥80.0%
Lanreotide Acetate	108736-35-2	C54H69N11O10S2	1096.32	≥98.0%
Liraglutide	204656-20-2	C172H265N43O51	3751.38	≥95.0%
Eptifibatide Acetate	148031-34-9	C35H49N11O9S2	831.96	≥80.0%
Bivalirudin	128270-60-0	C98H138N24O33	2180.3	≥95.0%
Propyl Gallate	121-79-9	C10H12O5	212.2	≥98.0%
Acetyl Hexapeptide-3	616204-22-9	C34H60N14O12S	889.01	≥95.0%
Matrixyl Powder (Palmitoyl Pentapeptide-3/4)	214047-00-4	C39H75N7O10	802.05	≥98.0%
Copper Peptide (GHK2-CU)	49557-75-7	C14H24N6O4	742.74	≥96.0%
Snap-8	868844-74-0	C41H70N16O16S	1075.16	≥98.0%

## Custom Peptide:

We can synthesize molecule custom-tailored to your special requirement-from milligram to kilogram, from two to eighty-three amino acid residues, including kinds of modification or special package requirement.

Linear peptide: less than 80 residues, quantity from mg to kg, purity can reach 99%;

Simple modified peptides: acetylation, amidation (C-terminal);

Complex modified peptides: phosphopeptides, myristic acid, fatty acid, cyclic peptides, peptides with s-s bonds, fluorescein (FITC&FAM), biotin labeled peptides, peptide protein conjugation (KLH&BSA), special amino acid and their derivatives;

The range of purity: crude >75%, >85%, >90%, >95%, >98%.

## ➤ BIO-EXTRACTED RAW MATERIAL

Product Name	Standard	Package	Indication
Cerebroprotein Concentrate/ Powder (Porcine Brain Extracted) GMP Report	Total Nitrogen: 25.0-32.5mg/ml	2000ml/PVC bag 10bags/carton	1, Used for primary dementia (such as Alzheimer's syndrome), vascular dementia. 2, Used in food supplements. Brain nutrient, benefit brain, improve memory and sleep. 3, Used in feed additive. Booster immunity.
	Total Nitrogen: 9.8%-16.2%	5kgs/bag 4bags/carton	
Thymomodulin Powder/ Solution (Calf Thymus Extracted) DMF	Peptides ≥ 10.0mg/g	5kgs/bag 4bags/carton	1, For the treatment of primary or off the T-cell deficiency. Some autoimmune diseases. 2, Used in food supplements. Adjust immunity and enhance resistance.
	Peptides ≥ 5.0mg/ml	2000ml/PVC bag 10bags/carton	
Liver Extract Solution/Powder (Porcine Extracted)	Peptides ≥ 10.0mg/ml	2000ml/PVC bag 10bags/carton	1, Promote the regeneration and repair of hepatocytes, nourishing the hepatocytes. 2, Used in food supplements. Protect liver. 3, Used in feed additive. Supplement nutrition, improve immunity.
	Peptides: 19.0%-23.0%	5kgs/bag 4bags/carton	
Anti-Toxic Bovine Liver Extract	Titer ≥ 180IU/mg (Reference to the USP and EP)	5kgs/bag 4bags/carton	Promote the regeneration and repair of hepatocytes, nourishing the hepatocytes.
Ox/ Porcine Bile Powder	Cholic Acid ≥ 45%	5kgs/bag 4bags/carton	Clear liver and improve vision, cholagogic and relaxing the bowels, detoxification and detumescence.
	Taurocholic Hyodeoxycholic ≥ 2.0%	5kgs/bag 4bags/carton	Used for fever and thirst, laryngalgia, jaundice, pertussis, asthma, diarrhea, dysentery, constipation, etc.
Spleen Extract Solution/ Powder (Porcine/ Bovine Extracted)	Peptides ≥ 5.0 mg/ml Ribose ≥ 165 μg/ml	2000ml/PVC bag 10bags/carton	1, Enhance or inhibit the humoral and cellular immune functions. 2, Used in food supplements. Adjust immunity and enhance resistance. 3, Used in feed additive. Supplement nutrition.
	Peptides ≥ 20.0mg/g Ribose ≥ 660 μg/g	5kgs/bag 4bags/carton	
Chondroitin Sulfate	Content: 90.0%-105.0%	5kgs/bag 4bags/carton	1, Treatment of joint disease. Promoting the regeneration of cartilage. 2, Used in food supplements. Enhance immunity, improve skin moisture. 3, Used for cosmetic products. Maintain beauty, anti aging, improve dry skin.
Bone Peptides Solution/ Powder (Porcine Bone Extracted)	Peptides ≥ 10.0mg/ml	2000ml/PVC bag 10bags/carton	1, For osteoarthritis, rheumatism, rheumatoid arthritis, fracture. 2, Used in food supplements. Promote bone repair and health, improve immunity. 3, Used in feed additive. Enhance physique.
	Peptides ≥ 10.0%	5kgs/bag 4bags/carton	
Chymotrypsin (Bovine Pancreas Extracted)	Content: 90.0%-110.0% Activity ≥ 1000u/mg	5kgs/bag 4bags/carton	Thinning the viscous sputum, make it easy to expectoration. Can also be used for wound healing after trauma or surgery.

Product Name	Standard	Package	Indication
RNA (Bovine Pancreas Extracted)	RNA ≥ 40.0mg/ml	2000ml/PVC bag 10bags/carton	Activate the activity of T cells and B cells in human body, improve the immune function.
Bovine Pancreas Extracted Solution/ Powder	Total Nitrogen ≥ 10.0%	2000ml/PVC bag 10 bags/carton	1, Used in food supplements. Enhance immunity. 2, Used in feed additive. Supplement nutrition.
	Peptides ≥ 10.0%	5kgs/bag 4bags/carton	
Bovine Prostate Extract	Peptides ≥ 50.0%	5kgs/bag 4bags/carton	Resisting fatigue, promote gonadal development in male. Maintain muscle strength, promoting physical energy.
Placenta Extract Powder/Solution (Porcine/ Bovine/ Sheep Extracted)	Total Nitrogen ≥ 10.0mg/g	5kgs/bag 4bags/carton	1, Used in food supplements. Increase immunity, antioxidation. 2, Used for cosmetic products. Maintain beauty and keep young.
	Total Nitrogen ≥ 5.0mg/ml	2000ml/PVC bag 10bags/carton	
Heparin Sodium (Porcine Small Intestine Extracted)	Total Nitrogen: 11.8%-14.4% Amino Nitrogen: 6.0%-7.5%	5kgs/bag 4bags/carton	Treat the early disseminated intravascular coagulation. Prevent dynamic, venous thrombosis and pulmonary embolism, hypolipidemic.
Porcine Anterior Pituitary and Adrenal Cortex Extract Solution	National Standard	2000ml/PVC bag 10bags/carton	Antirheumatic, for the treatment of rheumatic arthritis, rheumatoid arthritis.
Thyroid Powder	Liothyronine: 0.13-0.15mg/g Left Thyroid Hormone: 0.52-0.64mg/g	5kgs/bag 4bags/carton	Applied to maintenance of normal physical development, promote metabolism.
Bromelain (Pineapple Extracted)	Activity ≥ 800u/mg	5kgs/bag 4bags/carton	1, Can be used as an anti edema and antiinflammatory drug. 2, Used in food supplements. Adjust intestinal microflora. 3, Used for cosmetic products. Skin rejuvenation, whitening and remove freckle.
