

Corporate Profile

WHO WE ARE

For the last one decade, Lyra Laboratories has focused on just one thing: **External Applications** including Clinical **Dermatology**, **Cosmetology** and **Dental Care**.

The reason for our existence is our understanding that Dermatology and Dentistry are **Specialized** domains within pharmaceuticals and require expert **Knowledge** and particular **Skills**.

We are business partners for some of the most successful Pharmaceuticals companies in India. By building on our strength in **Formulation Design**, **Packaging Development** and **Ingredient Knowledge**, we are a leading name in Dermatology and Cosmeceutical Manufacturing.

We stand for Effective & stable formulae, Innovative Thinking and Technology know How and the **Time-Honored Relationships** we share with our customers.

W H Y U S

Our well established standards, protocols and validated process ensure consistent high quality.

Organizational Excellence

Lyra Laboratories is perhaps one of the very few manufacturing facilities in the country that is completely dedicated to and focused upon External Applications. We have two **state of the art Manufacturing** units with a fully integrated **Formulation Development** Laboratory.

We are **Flexible, Versatile** and we have some of the best people and great **Infrastructure** that actually put the product together. Very few units have the type of **Equipment** that we have, which allows us to work with different type of **Emulsions, very complex type of Systems** & also at the very same time allows us to provide **Consistency and Reproducibility**.

While the dermatology industry is going through a **Transformation**, we are continually upgrading our **Knowledge**, investing in **Technology** and increasing our **Infrastructure** to cater to the increasing demands of our customers in this domain.

It's not about ideas. It's about
making ideas happen.

Research & Development

The Formulation Development Laboratory represents the **Heart, Driving Force & Core** itself of **Lyra Laboratories**. A team of pharmacists invariably committed to product development work on adding values and stability of Clinical Dermatology products and to creating innovative and effective cosmetological products.

We are associated with some of the top Clinical Research Laboratories for safety and efficacy studies and for **Substantiation of Claims** where required.

Lyra's expertise in formulation development, market analysis, regulatory support and our associations for claims substantiations provides customers with immediate access to all services that are essential for **Successful Dermatological Formulation**.

The Goal is not to sell a Product,
but to build a relationship of confidence & trust.

Customer Relationship

A sensitive area, such as Contract Manufacturing of Pharmaceuticals and Cosmeceutical products thrives when combined with **Experience, Trustworthiness and Reliability**. Everyday quality standards need to be met and controlled and products have to be delivered on time. **Partnership and Teamwork** are key factors here. This defines our own senses of self understanding as not only being a reliable manufacturer but a **Long Term Strategic Partner** for our associates.

Our commitment to **Innovation, Quality Manufacturing, Valued Customer Relationship & Competitive Prices** has led us to collaborate with some of the most prestigious companies around the country and abroad. We measure our success with the trust our customers have in their products manufactured by us. Some of our key customers include:

OUR EXPERTISE

CLINICAL DERMATOLOGY

We focus on Fungal Infections, **Acne, Dermatoses, Bacterial Infections and Pigmentation disorders** amongst others in a variety of dosage forms such as Ointments, Creams, Gels, Lotions, Dusting Powders and Shampoos.

Our pipeline includes Novel Drug Delivery Systems like **Microspheres, SLNs** for antifungals like **Ketoconazole, Luliconazole** and antiacne products like **Tretinoin and Adapalene**.

COSMECEUTICALS

We have a proven ability to understand what dermatologists need and we meet and exceed expectations in cosmetology by providing **Scientific rationale based products** with Raw Materials Sourced from all around the world.

Our areas of expertise include **Sunscreens, Emollients, Antiaging, Hair Growth Serums and Melasma care** in addition to other specialities.

DENTAL CARE

Lyra today, stands tall as a manufacturing unit of high and international quality standards in dental and oral hygiene products. The company holds **Experience** in manufacturing **Toothpastes, Mouthwashes, Gumpaints, Toothpowders** and products for denture including **Denture cleaning and Denture fixing** solutions. Products in our development pipeline including **Teeth Whitening** with innovative ingredients and **Oral Hydration Solutions**.

QUALITY ASSURANCE & QUALITY CONTROL

As a manufacturer of pharmaceuticals and cosmetics, it goes without saying that you have the obligation to maintain a qualified quality management. A **Quality Management System** that ideally not only **meets all legal requirements** but **Surpasses** them by far. A system which ensures strict **Control and Documentation** every step of the way: from the receipt of goods to **Manufacturing, Packaging and Delivery**.

We have just such a QMS at our disposal which is maintained by the QA **across the Organization** to ensure that products meet the predetermined standards. This is achieved by a combination of **Systematic Sampling, Testing, Validation, In Process Monitoring & Auditing** facilities of our suppliers.
