

Anybody can sell you a product.
We prefer to offer you Success Stories.

You choose.

Our History

The Lo.Li. Pharma Group researches and develops therapeutic Food Supplements and Medical Devices, with a focus on the fields of gynecology, fertility, endocrinology, and recently psychiatry.

2001

Lo.Li. Pharma was founded with the goal of developing and distributing products dedicated to women's healthcare in Italy.

2009

Lo.Li. Pharma started **its first international activities**, cooperating with companies in South Africa, Bulgaria, and other countries.

2012

The fast growth of global partnerships led to the founding of **Lo.Li. Pharma International**, a company fully dedicated to the development of international markets.

2024

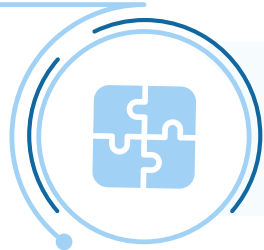

Lo.Li.'s products are now available in more than **60 countries** around the world.

What We Do

We develop and out-license innovative, clinically tested, ready-for-market therapeutics to help you stay competitive.

It's not easy to stay competitive in crowded markets and innovating through internal product development can be both expensive and risky. What's more, many nutraceutical and medical device development companies don't invest in robust clinical research, which could negatively impact your market success.

Lo.Li. Pharma International is a branch of Lo.Li. Pharma Srl, a growing healthcare company based in Rome, **dedicated to the research, development and distribution** of innovative, clinically tested and proven Medical Devices and Functional Dietary Supplements.

As world-renowned experts in inositol and nutraceutical basic science and research, **Lo.Li. Pharma International** is committed to supporting our Partners through equitable in-licensing agreements, while sharing the scientific know-how and marketing strategies, which are needed to be successful.

How We Do It

Speed and agility are our superpowers.

We protect our past and your future.

Most of our product lines are protected by intellectual property to safeguard our effort and guarantee your competitive advantage.

We verify efficacy before launch.

Our products are supported by clinical studies carried out in local and international, public and private research centers.

We listen and understand true clinical needs.

Our products are developed to offer new clinical strategies to physicians, especially when current treatments are insufficient or demonstrate an unbalanced risk/benefit ratio.

We research innovative and safe solutions.

We carefully research new therapies using nutraceutical ingredients which have been proven safe and effective. We safeguard human health by shaping new standards of care.

We prioritize Partner success.

Our Partners are always at top of mind. Our goal is to make doing business with us as easy and carefree as possible.
When you win, we win.

How We Serve

A highly adaptable and motivated team assists our partners from the first contact to launch and beyond.

BUSINESS DEVELOPMENT

The Business Development Team aims to **expand global patient access to new treatments** by ensuring the most **profitable opportunities** for our future partners.

LEGAL OFFICE

A multi-specialized team is dedicated to **protecting our intellectual property rights** and safeguarding our Partners' competitive edge.

REGULATORY AND QUALITY

R&Q guides **product registration** according to country requirements, supporting market access. They also ensure a **consistent supply of high-quality products**.

MEDICAL MARKETING

We provide **high-quality, scientifically supported marketing materials**, field-based knowledge, and competitive insights. Our marketing team is constantly working with our Partners to share experiences and help them reach their goals.

LOGISTICS

A large team is highly involved in logistical support: from the purchasing and shipping of goods to monitoring forecasts. They ensure **prompt and consistent availability of the products** according to market demand.

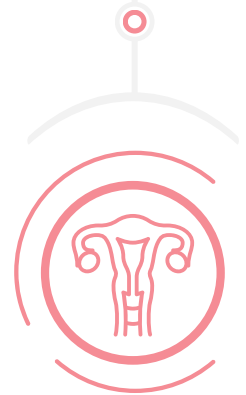

ACCOUNT MANAGEMENT

Serving as our Partners' **extended team**, account managers respond to every query, monitor sales performance, and take immediate action to resolve any issues that may arise. They identify new business opportunities and develop our Partners' portfolio, throughout **our long-term partnership**.

Therapeutic Areas

New, innovative solutions are constantly in development.

Gynaecology

Our Brands

Lo.Li. Pharma International currently offers **36 products within 17 unique product lines**. In each, you will find innovation and research, unique formulations developed to increase therapeutic options for clinicians, and line extensions for your long-term growth and success.

Not only products
but success stories

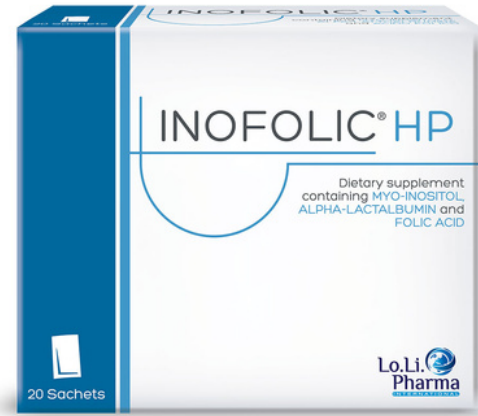

In 2001 we were the first company in the world to understand and embrace the potential of Myo-inositol in PCOS management.

The answer we received was:
IMPOSSIBLE!

Nevertheless, slowly but surely, INOFOLIC® became the most trusted solution for millions of doctors and women, worldwide, for PCOS, infertility, and gestational diabetes.

A breakthrough in the management of PCOS and female infertility

40:1 the perfect balance

INOFOLIC® HP

INOFOLIC®

A High Performance dietary supplement for the management of PCOS and prevention of Gestational Diabetes.

Pharmaceutical form

Sachets
Soft-gel caps

Scientific studies

The efficacy of the product line is supported by 60+ international clinical trials in more than 5000 patients. Many published studies demonstrate efficacy in improving metabolic and hormonal imbalance, as well as signs and symptoms in PCOS women. It has also been shown to be effective in controlling insulin sensitivity in pregnancy and preventing Gestational Diabetes.

Patents

Formulation patent granted in Italy and pending or granted throughout Europe, as well as other national patents around the world.

For the Soft-gel Caps formulation, Italian and European patents have been granted, as well as other national patents around the world.

The standard formulation is also available.

A High Performance dietary supplement for the management of PCOS, especially in overweight and obese women.

Pharmaceutical form

Soft-gel caps

Scientific studies

The efficacy of this innovative formulation, with the ideal ratio of myo-inositol and D-chiro-inositol has been confirmed by 8 clinical trials, sophisticated in-vitro studies, and reviews published in high Impact Factor scientific journals.

Patents

Formulation patents granted in Italy and pending or granted throughout Europe, as well as other national patents around the world.

For the Soft-gel Caps formulation, Italian and European patents have been granted, as well as other national patents around the world.

The standard formulation is also available.

INOFOLIC® Combi HP

INOFOLIC® Combi

DISCOVER MORE

For women seeking pregnancy or undergoing Assisted Reproductive Technology (ART)

INOFOLIC® PLUS Caps

Dietary supplement for women to improve oocyte and embryo quality.

Pharmaceutical form

Soft-gel caps

Scientific studies

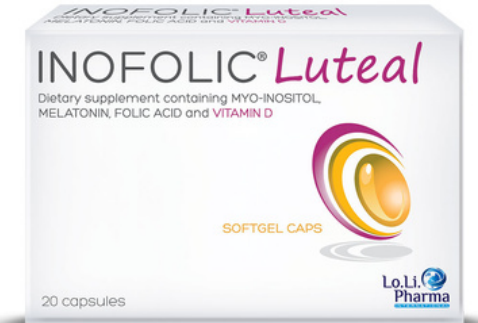

Clinical efficacy is demonstrated in 4 clinical trials and confirmed in a number of international review papers. Several international studies on the molecules contained in the formulation have been carried out by powerful research groups.

Patents

For the Soft-gel Caps formulation, Italian and European patents have been granted, as well as other national patents around the world.

Your baby's first cradle

INOFOLIC® Luteal

Dietary supplement for women to enhance implantation rate, improving endometrial receptivity. It supports the correct evolution of gestation, especially in the first trimester.

Pharmaceutical form

Soft-gel caps

Scientific studies

Safety and efficacy are supported by 2 clinical trials. Intensive research on the molecules in human reproduction further support efficacy, according to several high-impact publications.

Patents

For the Soft-gel Caps formulation, Italian and European patents have been granted, as well as other national patents around the world.

*An adventure that
can't be missed.*

*What does it mean to be a father today?
When starting a family, most men must balance
spending time with the kids and working to support
them. There is sacrifice and patience. And all this, in
exchange for a lot of love.*

Andrositol® helps you have a baby. The rest is up to you.

For the best spermatozoa

ANDROSITOL®

Dietary supplement to improve male fertility in OAT patients and in idiopathic infertility.

Pharmaceutical form

Sachets

Scientific studies

Five Clinical Trials confirm Andrositol efficacy in supporting sperm motility and spermatozoa morphology. Several in vitro studies support efficacy by establishing the ability to increase sperm motility and improve spermatozoa morphology.

ANDROSITOL® is also available in a High Performance formulation

Patents

Formulation patent granted in Italy and pending or granted throughout Europe, as well as other national patents around the world.

Also in the case of semen hyperviscosity

ANDROSITOL®
PLUS

Dietary supplement to improve male fertility in OAT patients with semen hyperviscosity.

Pharmaceutical form

Sachets

Scientific studies

One clinical Trial has been submitted for publication and confirms Andrositol Plus efficacy in supporting semen motility and viscosity, morphology, vitality and count. Several in vitro studies support efficacy by establishing the ability to increase sperm motility and improve spermatozoa morphology.

Patents

Formulation patent granted in Europe.

ANDROSITOL® PLUS is also available in a High Performance formulation

Patents

Formulation patents granted in Italy and pending or granted throughout Europe, as well as other national patents around the world.

DISCOVER MORE

When she takes charge of their fertility, miracles can happen.

A novel approach for couples with infertility

Medical device class IIB for couples with male factor or idiopathic infertility.

Pharmaceutical form

Vaginal suppositories

Scientific studies

Two clinical trials support safety and efficacy, demonstrating an improvement in sperm motility and increased pregnancy rates. Strong scientific background and numerous in-vitro trials support efficacy in the vaginal environment.

XYMINAL®

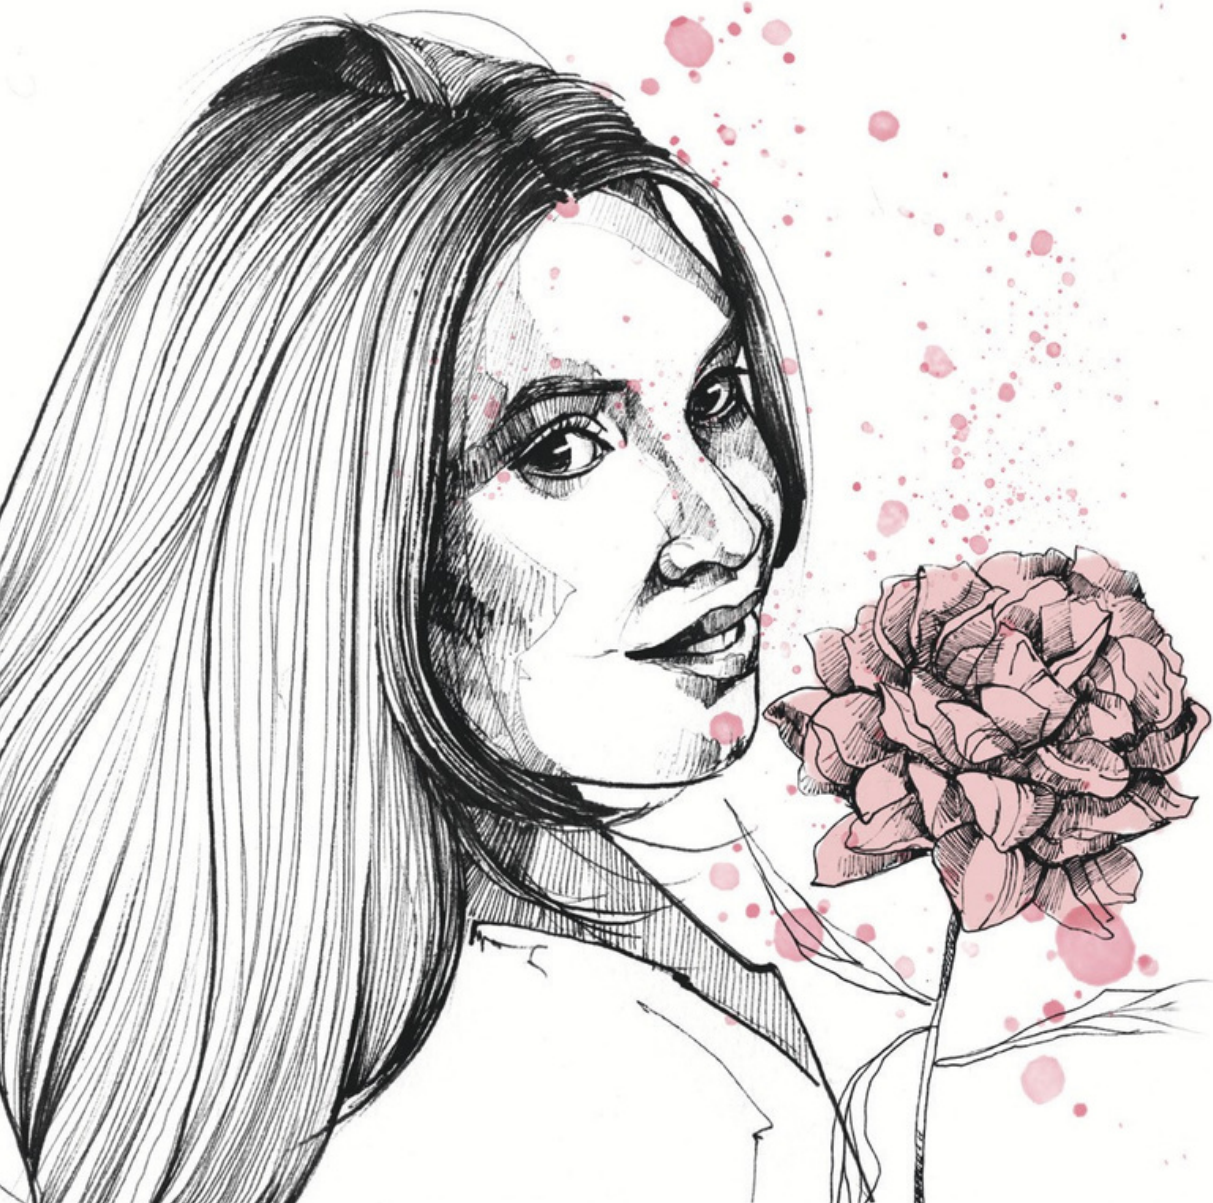

DISCOVER MORE

XYMINAL®

*I want to feel in control of my condition.
I want to live without fear.
I want to know that I have options.
I want to feel empowered, even when
living with uterine fibroids.*

The future of uterine fibroids management

Dietary supplement for uterine fibroids management.

Pharmaceutical form

Tablets

Scientific studies

Clinical efficacy is supported by 6 published clinical trials, which demonstrate a statistically significant reduction in fibroid volume and related symptoms, with a relevant improvement in quality of life.

Patents

Formulation patent granted in Italy, and international patents pending.

Dietary supplement for the management of Uterine Fibroids > 4 cm

Pharmaceutical form

Tablets

Scientific studies

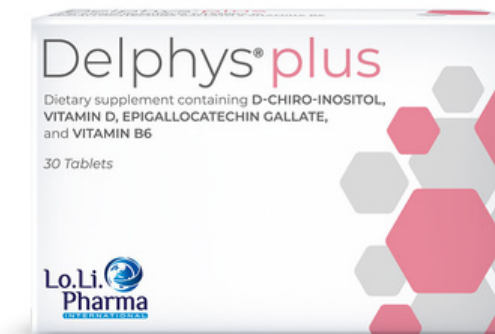

There are a number of published case studies and three ongoing clinical trials evaluating the safety and efficacy in the management of larger uterine fibroids.

Patents

Formulation patent granted in Italy, and international patents pending.

DELPHYS®

DELPHYS®
PLUS

DISCOVER MORE

Male and female hormonal balance

"To control your hormones is to control your life."

~Barry Sears, PhD

Dietary supplements to balance testosterone and estradiol levels, in men and women, anytime they appear altered.

Pharmaceutical form

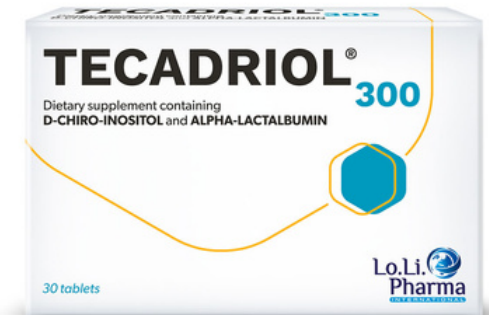

Tablets

Scientific studies

Two clinical trials demonstrate the ability to increase testosterone levels in healthy patients and in males with late-onset hypogonadism. One trial demonstrated its effectiveness in reducing endometrial thickness in women with simple endometrial hyperplasia without atypia.

Patents

Formulation patent granted in Italy and pending or granted throughout Europe, as well as other national patents around the world.

TECADRIOL® 300

TECADRIOL® 600

DISCOVER MORE

Give life the time it needs

ALERACT® LINE

Getting a degree, finding your perfect partner, starting a business, building a happy home: all good things take time.

Can you imagine a better gift than TIME?

Dietary supplements to prevent miscarriage and preterm labor.

Pharmaceutical form

Tablets

Scientific studies

Four clinical trials demonstrate safety and efficacy: Two of the clinical studies demonstrated efficacy in preventing preterm delivery. One clinical trial highlighted its ability to reduce subchorionic hematoma. One retrospective study confirmed safety in over 600 pregnant women.

There are two clinical trials for Aleract® HA, demonstrating both safety and efficacy.

Take better care of women's breasts

Dietary supplement for benign breast disease management.

Pharmaceutical form

Hard capsules

Scientific studies

Three clinical studies prove its efficacy.
One clinical trial demonstrates a significant improvement in non-cyclic mastalgia.
One clinical trial shows a reduction in breast density.
One clinical trial highlights a relevant reduction in fibroadenoma volume.

EUMASTÓS®

Medical device class IIA for mastalgia management.

Pharmaceutical form

Gel sachets

Scientific studies

One randomized clinical trial demonstrates the efficacy in reducing painful cyclic symptoms, improving the quality of life of patients.

EUMASTÓS®
Gel

Women's breasts are the nourishment of life. Women's breasts are maternity and sensuality. Woman's breasts are comfort and safety.

Eumastós® takes care of a woman's breasts.

Natural Replacement Therapy (NRT) to manage menopausal changes

*Sometimes
change is a
superpower.*

ZOYPHEN® NRT
manages
menopausal
changes

Dietary supplement for management of climacteric symptoms and control of menopausal dysmetabolic changes.

Pharmaceutical form
Sachets

Scientific studies
One clinical trial demonstrates the synergistic and beneficial effects of the entire composition in post-menopausal women, including reductions in cardiovascular risk and improvements in bone health and metabolic parameters while strong scientific background demonstrates efficacy of each component.

Patents
Formulation patent granted in Italy.

ZOYPHEN® NRT

[DISCOVER MORE](#)

*A small but **POWERFUL** remedy for vaginal affections*

The only ORAL Ultra Low Molecular Weight Hyaluronic Acid

Dietary supplement to restore tissue integrity and functionality.

Pharmaceutical form

Tablets

Scientific studies

Three clinical trials demonstrate its ability to improve vaginal epithelium and reduce itching and dyspareunia in postmenopausal women with vaginal atrophy. One of these studies was conducted using combined therapy with Santes. Two additional clinical trials prove its efficacy in preventing and reducing radiotherapy-induced symptoms of cystitis.

IALOS®

The deep effect of Low Molecular Weight Hyaluronic Acid

Medical device class IIA for vaginal affections treatment and prevention.

Pharmaceutical form

Vaginal suppositories

Scientific studies

Five clinical trials and one systemic review confirm safety and efficacy. One of the clinical studies demonstrates the improvement in vaginal atrophy in menopausal women and one includes combined therapy with Ialos. Three of the trials prove its ability to prevent acute side effects in women receiving radiotherapy after cervical surgery.

SANTES® Vaginal suppositories

DISCOVER MORE

Have I infected my partner, or has he/she infected me?
Will I be able to clear the infection on my own?
Or will I need treatment or surgery?
How long have I had the virus? How will it progress?

HPV raises many questions and fears. It's time for women to gain hope and certainty with Pervistop®, a safe and clinically studied solution to manage persistent HPV infections.

Dietary supplement to manage persistent HPV infections.

Pharmaceutical form

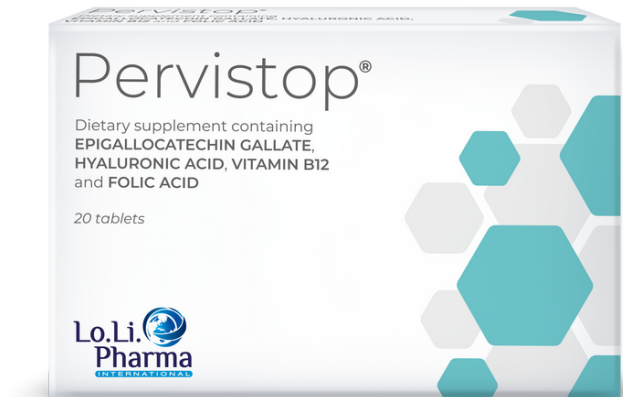

Tablets

Scientific studies

One clinical trial demonstrated a clearance of HPV in 85% of patients after 3 months of oral administration. In a published case report, the patient achieved full viral clearance improving the existing cervical lesions, thus reducing the urgency of undergoing invasive surgery. Two ongoing clinical trials.

Patents

Formulation patents pending throughout Europe and internationally.

PERVISTOP®

DISCOVER MORE

Vaginitis is every woman's nightmare, and on average it takes 22 months for a woman to receive an accurate diagnosis of the underlying cause. That means:

Nearly 2 years of embarrassment.

Nearly 2 years of discomfort.

Nearly 2 years of shame.

Nearly 2 years of the wrong treatments.

Give her relief in one shot with Biguanelle®.

Quick, easy, in just one-shot

Medical device for vaginal infections.

Pharmaceutical form

Vaginal solution with cannula

Scientific studies

Six clinical trials demonstrate its efficacy in clearing bacterial vaginosis, candidiasis and HPV infections. Two trials prove equivalent efficacy to gold-standard pharmacological treatments.

One systematic review confirms positive results.

BIGUANELLE®

DISCOVER MORE

BIGUANELLE® LINE

The perfect fit for a recurrent problem

Medical device for recurrent and/or persistent vaginal infections

Pharmaceutical form

Vaginal ovules

Scientific studies

One clinical trial demonstrates its efficacy and safety in preventing bacterial vaginosis after surgical treatment for cervical intra-epithelial neoplasia (CIN) vs other common therapies.

BIGUANELLE®
Vaginal Ovules

One product for him and for her

Medical device for external genital infections.

Pharmaceutical form

Dermatological gel

Scientific studies

A large clinical trial proves efficacy on external genital warts in men and women.

BIGUANELLE®
Gel

[DISCOVER MORE](#)

The amount of iron administered in one year is enough to build the most famous iron tower in the world. Unfortunately, we cannot say the same about the amount that is actually absorbed.

Emogut® helps you build better.

Health as strong as iron

Dietary supplement for iron deficiency anemia prevention.

Pharmaceutical form

Tablets

Scientific studies

Many studies demonstrate the increase of iron absorption and the high safety profile of the molecules.

Dietary supplement for overt iron deficiency anemia.

Pharmaceutical form

Tablets

Scientific studies

One prospective, double-blind, randomized controlled trial demonstrated restoration of the physiological iron status in women with functional menometrorrhagia, without the occurrence of side effects. Another trial demonstrated improved restoration of hemoglobin levels in pregnant women with Emogut Forte compared to another form of iron.

EMOGUT®

EMOGUT®
Forte

DISCOVER MORE

EMOGUT® LINE

In the history of man, no metabolic disease has been truly cured by modern medicine.

Prevention is always easier than treatment

Dietary supplement to prevent metabolic disease in subjects overweight, obese, and with mild dysmetabolism.

Pharmaceutical form

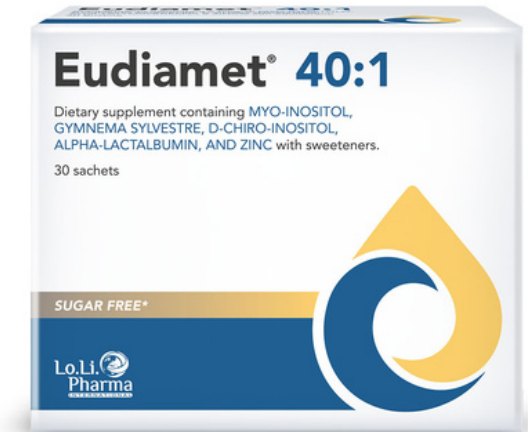

Sachets

Scientific studies

Two clinical studies confirm an improvement in metabolic parameters in patients with either Type 2 Diabetes or metabolic syndrome. Several studies on the molecules confirm the improvement in insulin sensitivity and improved control of lipid parameters, as well as other metabolic parameters.

Patents

Formulation patents granted in Italy and pending or granted throughout Europe, as well as other national patents around the world.

EUDIAMET® 40:1

[DISCOVER MORE](#)

Help the thyroid work by itself

Dietary supplement for subclinical hypothyroidism, with or without Hashimoto's thyroiditis.

TIROXIL® 4.0

Pharmaceutical form

Tablets

Scientific studies

Nine clinical studies demonstrate, among other results, TSH reductions and autoimmunity control after 6 months of treatment, and improvement in quality of life.

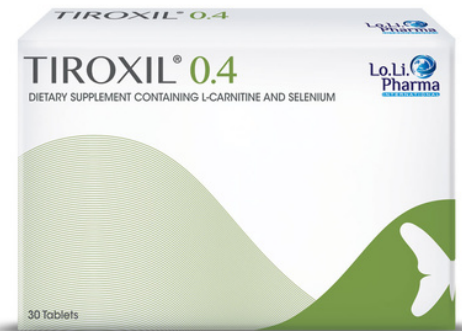

Patents

Formulation patent granted by the European Patent Office and validated in Italy and Spain.

A safe way to control symptoms

Dietary supplement for subclinical hyperthyroidism, with or without Grave's disease

TIROXIL® 0.4

Pharmaceutical form

Tablets

Scientific studies

One clinical trial demonstrates the effectiveness in reducing symptoms and improving quality of life of patients with subclinical hyperthyroidism. One clinical trial is ongoing which is assessing efficacy in association with methimazole.

A healthy thyroid for the 50+ generation

Dietary supplement to support thyroid function in people over 50 years old.

TIROXIL® D

Pharmaceutical form

Tablets

Scientific studies

Strong scientific background supports inclusion of vitamin D to the Tiroxil 4.0 formulation to support patients over 50.

Patents

Formulation patent granted by the European Patent Office and validated in Italy and Spain.

A targeted solution for iodine deficiency

Dietary supplement for faster improvement of iodine deficiency.

IODACT®

Pharmaceutical form

Tablets

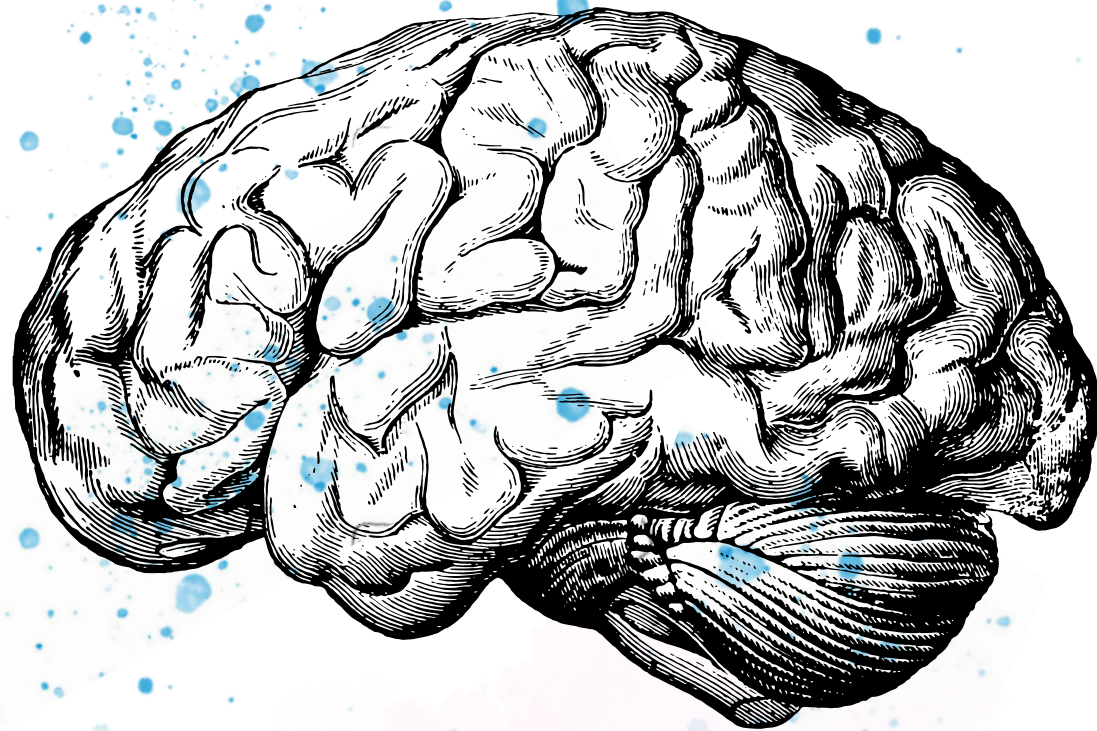

Scientific studies

Strong scientific background supports the pivotal role of the components on the physiological production of thyroid hormones, especially in obese patients, those with borderline FT4 levels, or patients with goiter.

Help bipolar patients feel better

Bipolar patients already have enough to deal with, and shouldn't have to worry about additional, often embarrassing, treatment-related side effects on top of everything else.

Deplesin[®] was developed to give them the relief they deserve.

Dietary supplement to manage side effects associated with pharmacological treatment for Bipolar Disorder.

Pharmaceutical form

Sachets

Scientific studies

+10 studies demonstrate the effectiveness of main components in the management of side effects associated with Bipolar Disorder pharmacological treatments. One clinical trial demonstrates safety.

Patents

Formulation patents granted in Italy and pending or granted throughout Europe, as well as other national patents around the world.

DEPLESIN[®] 80:1

DISCOVER MORE

Broncositol® Line

A safe and effective solution in the management of respiratory pathologies with surfactant alterations

A myo-inositol-based innovation from the world-leading experts in inositols

The first and only myo-inositol-based solution that restores lung function by increasing surfactant

Pharmaceutical form

Solution for aerosol

Scientific studies

Two clinical trials support safety and efficacy of the solution in a variety of respiratory conditions including respiratory complications of COVID-19, asthma, and COPD.

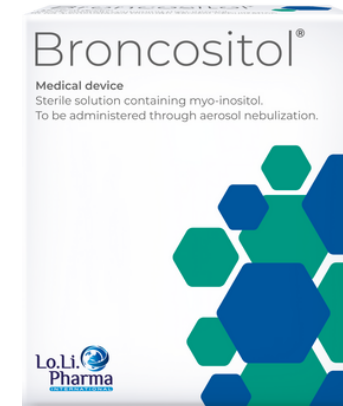

The dietary supplement designed for systemic action

Pharmaceutical form

Tablets

Scientific studies

Efficacy and safety of the food supplement components are demonstrated in a variety of clinical, in-vitro, and in-vivo trials.
