

Moxifloxacin 400mg/250ml (250ml Bottle)

Solution for Infusion

Reference Product: Avelox® / BAYER

Description:

Moxifloxacin, which belongs to a group of antibiotics called fluoroquinolones, works by killing bacteria that cause infections if they are caused by bacteria that are susceptible to moxifloxacin. Moxifloxacin is used in adults for treating the infection of the lungs (pneumonia) acquired outside the hospital and infections of the skin and soft tissue.
