

Introducing the next generation of VG Capsule  
**EMBOCAPS<sup>®</sup> VG PRO**

Improved lubricity  
Improved strength  
Improved clarity  
Improved disintegration

PLUS

All of the benefits of the Embocaps<sup>®</sup> by Suheung  
premium hard capsule brand.

**A winning combination**

The VG Pro is a crystal clear HPMC capsules designed for outstanding filling performance even under low moisture conditions.

The VG Pro is compatible the various EMBOCAPS® capsule technologies.  
Take the VG Pro to the next level of customization.

EMBOCAPS® LP+

For liquid, oil, and fine power filling  
(to prevent leaking)

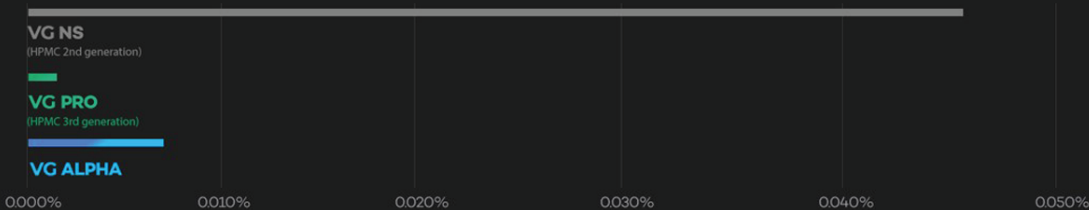

EMBOCAPS® LPR

Used for inhalation capsules to  
reach the lung.

Brittleness Comparison

-Test Method

Conditions for the brittleness test : Temperature 22-24°C, Humidity 45-60%

\* Brittleness Test Method (Impact Test Method)

Lay the capsule down on its side and drop the 50g and 70g weight from 10cm. Make eye observations on whether or not the capsule has been broken. (Quantity of capsules tested per moisture content level: n=20)

Weight	LOD(%)	Clear/Clear			White/White		
		VG PRO	VG Alpha	VG	VG PRO	VG Alpha	VG
50g	>4%	0%	0%	0%	0%	0%	0%
