Zonisamide	68291-97-4

A network of white and light blue circles connected by thin lines, resembling a molecular structure or a data network, set against a teal background. The circles vary in size, and the lines are thin and white. The overall shape is somewhat irregular, with some clusters and some isolated nodes.

# Reagents

Summit Pharmaceuticals Europe

# Reagents from Japan

Nippon Light Metal

## Sodium Hypochlorite Pentahydrate (SHC5 - POWDER FORM) made by Nippon Light Metal

An innovative oxidizing agent based on an old molecule with highly improved features compared to the solution; higher selectivity, higher yields, higher stability, better handling.

**UBE**

## Flolead made by UBE Industries

A novel and safe fluorinating agent with good stability and selectivity.

HODOGAYA CHEMICAL

## Carbonyl Diimidazole made by Hodogaya Chemical

With exceptional stability and purity.

**NARD** chemicals, Ltd.

## Tribot made by Nard Chemicals

It is useful acid-catalyzed O-benzylating reagent under mild conditions. Non toxic.

Otsuka

## 1-Hydroxybenzotriazole monohydrate (1-HOB) made by Otsuka Chemical

An additive in condensation (amide bond formation) reactions together with Carbodiimides.

## Di-2-Methoxyethyl Azodicarboxylate (MEAD) made by Toyobo

A Mitsunobu reagent with easy work up.

# Excipients

Summit Pharmaceuticals Europe

# Excipients

## Plastibase

A hydrocarbon gel used for making creams and ointments with especially stable viscosity with temperature.

## DMSO

A solvent also used for making creams and ointments which enhances permeation.

## Cyclodextrin derivatives

Especially used for drug delivery and solubilization of poorly soluble APIs. Used for oral and injectables.

## Sodium Stearyl Fumarate

Lubricating agents for making tablets.

## Florite

It's a special porous calcium silicate which can be used to protect APIs from light or to make solid formulations from liquid APIs.

Covid-19:

# Product list

## Finished drug product

AZITHROMYCIN Injection,  
EQ 500MG BASE/VIAL

Linezolid and glucose  
injection (soft bags)
