WE AT MARCHESINI ARE PROUD TO BE LEADERS IN MANUFACTURING AND INTEGRATING COMPLETE LINES SINCE 1974. WE PRODUCE STAND-ALONE MACHINES AND COMPLETE LINES TO HANDLE THE ENTIRE PACKAGING PROCESS FOR THE PHARMACEUTICAL AND COSMETIC INDUSTRIES.

Every brand in the Group develops and manufactures specific machines for the whole packaging process in its plants located throughout Italy, while complete line assembly is coordinated from our Headquarters.

## KEY POINTS

---

We provide a **complete range** of machines for the entire **packaging process.**

---

**Accessible and ergonomically-designed** machines ensure a positive **operator experience** in terms of machine management, inspection and service.

---

High-speed machines are designed to **reduce** total **changeover time** and **maximise performance.**

---

---

We guarantee **customer care assistance** and **spare parts** for every generation of Marchesini machines.

---

**New models** are constantly developed in our **in-house R&D** department.

---

**In Process Controls** and containment cabinets in **Isolation Technology** can be implemented, to **reduce the risk** of **microbial contamination** and **minimize operator exposure** to potent products.

---

---

Designed in accordance with **cGMP regulations.**

---

**Small footprint** machine design maintains **efficient output.**

---

Our patented **robotic solutions** are **developed in-house** to connect different machines together in-line.

---

**BLISTER**  
**MB 421**

Blister Machines for PVC,  
PVDC, PP, PET, ALU-ALU

**BLISTER**  
**MB 451 EVO**

High-speed Blister  
Machines
