

## BIOHOOD SYSTEM FOR USE WITH THE CLEANSPACE HALO

CleanSpace® BioHood System, compatible with the CleanSpace HALO Respirator, is specifically designed for biocontainment units, laboratories and pharmaceutical cleanrooms. The CleanSpace BioHood, coupled with the exhalation adaptors, provides eye and head protection.

### CLEANSPACE BIOHOOD

- DuPont™ Tyvek® material & seam technology – light and durable, blood and fluid resistant.
- Only PAPR hood design to completely cover the respirator when worn – minimising device contamination.
- Can be easily removed while still wearing the respirator, to protect healthcare professionals when doffing.
- Broad field of vision. Unique design that secures the visor to eliminate slippage and movement.
- No belts or hoses. No fogging, no heat.
- Comfortable air flow, no breathing resistance.

# CleanSpace®

## RESPIRATORS

Front & back adaptors  
attach to mask & power unit.  
Mask Exhalation Adaptor  
is reusable.
