

Medisorb

Pharmaceutical company

About us

Medisorb is a pharmaceutical company with over 28 years experience in generics manufacturing. We contribute to healthcare, making proven medication affordable to patients. Medisorb is well known for its high quality products in Russia, EAEU countries, Belarus, Uzbekistan and Tadzhikistan.

Our portfolio includes more than 30 products and is constantly increasing to bring more value and opportunities for our customer. Our manufacturing facilities use state of the art technology in accordance with international Good Manufacturing Practice standards.

Partnering opportunities

**We are looking for distributors worldwide
to enhance organic growth with current
product portfolio!**

Medisorb can also open Russian and EAEU market for your products providing:

- Regulatory & market access services;
- Contract manufacturing;
- Distribution all over Russia.

Sevoflurane
Medisorb

Clear advantage over other anesthetics

Sevoflurane is relatively new inhalable anesthetic, with constantly growing market share worldwide

- No airway irritation
- Easy mask induction
- Rapid in – rapid out
- Shows cardioprotection
- No sympathico-excitation
- May be used in minimal flow
- Limited respiratory depression
- Synergistic with opioids

All combined in Sevoflurane Medisorb

One of the safest anesthetics

100% Sevoflurane

High quality product, no additives,
no preservatives, less impurities.

Special plastic bottle

Safe handling and storage, protected
from chemical degradation.

Quik-Fil® compatible

Universal container – fits all vaporizers.

VALUE-ADDED GENERIC

CLOSE TO IDEAL ANESTHETIC

Innovative patented product container

1. Easy to open

2. Quik-Fil® compatible

3. Safety ring for adapters

4. PEN plastic bottle

5. User friendly
& memorable design

Valve

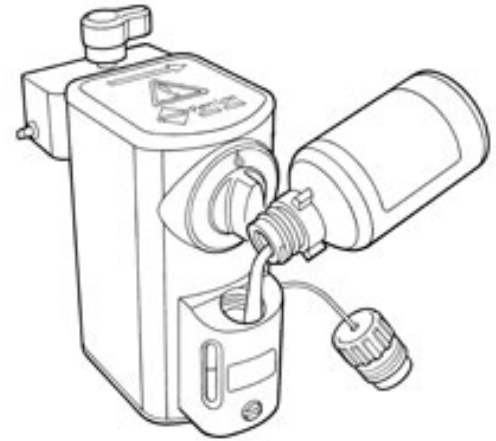

Innovative valve

- detachable tamper-evident valve is compatible with Quik-Fil® as well as pour-fill vaporizers;
- special safety ring safeguards the use of wrong adapters if the valve is unscrewed.

Quik-Fil®

Pour-Fill

Bottle

- Bottle made of special resin – Polyethylene naphthalate (PEN) preventing sevoflurane chemical degradation;
- No risk of bottle braking – safe handling.

A close-up photograph of a doctor in a white lab coat holding a patient's hand. The patient's arm is resting on a white surface, and a stethoscope is visible around their arm. The background is a light blue wall.

Ivabradine

Medisorb

**Ivabradine is the first
specific antianginal
medicine with the proven
clinical efficacy against
angina pectoris¹**

¹Kim Fox; Ian Ford; P Gabriel Steg; Michal Tendera; Prof Roberto Ferrari (2008). «Ivabradine for patients with stable coronary artery disease and left-ventricular systolic dysfunction: a randomised, double-blind, placebo-controlled trial». The Lancet. 372 (9641): 807–816.

Ivabradine Medisorb

- effectively reduces heart rate;
- improves exercise capacity;
- reduces the number of angina attacks;
- has superior anti-anginal and anti-ischaemic activity;
- non-inferior to atenolol and amlodipine.

The only agent that clinically lowers heart rate with no negative inotropism or effects on conduction and contractility¹

β -blockers VS Ivabradine

- hypotension;
 - psychological depression;
 - erectile dysfunction and worsening of intrinsic atrioventricular node disease;
 - obstructive pulmonary diseases
- diabetes mellitus;
- hyperlipidaemia and intermittent claudication;
 - relatively common concomitant of coronary artery disease.

- lower heart rate at concentrations that do not affect other cardiac ionic currents;
- no negative inotropic or lusitropic effects, preserving ventricular contractility;
- does not change any major electrophysiological parameters unrelated to heart rate.

Ivabradine Medisorb is your opportunity to join the fast-growing market

Produced by just a few companies under different trade names

Marketed not too actively – low competition

Extensively growing demand

Product list

BETAHISTINE 16MG; 24MG / TAB.

IVABRADINE 5MG; 7,5MG / FILM-COATED TAB.

Our generics —
your opportunities

FLUCONAZOLE 50MG; 150MG / CAPS.

FINGOLIMOD 0,5MG / CAPS.

IBUPROFEN 200MG / CAPS.

AMLODIPINE+LISINAPRIL 5MG+10MG; 10MG+20MG / TAB.

ATORVASTATIN 10MG; 20MG; 40MG / FILM-COATED TAB.

METFORMIN 500MG; 850MG; 1000MG / FILM-COATED TAB.

OLANZAPINE 5MG; 10MG / FILM-COATED TAB.

RASAGILIN 1MG / TAB.

TERBINAFINE 125MG; 250MG / TAB.

PRODUCT PORTFOLIO

<i>Product portfolio</i>	<i>Dosage</i>	<i>FDF</i>
Acetylsalicylic acid	500 mg	tab.
Acetylsalicylic acid (cardio)	100 mg	coated tab.
Amlodipine	5 mg, 10 mg	tab.
Atorvastatin	10 mg, 20 mg, 40 mg	coated tab.
Betahistine	16 mg, 24 mg	tab.
Calcium gluconate	500 mg	tab.
Drotaverine	40 mg	tab.
Fingolimod	0.5 mg	caps.
Fluconazole	50 mg, 150 mg	caps.
Ibuprofen	200 mg	caps.
Ibuprofen	100 mg / 5 ml	100 ml syrup
Ivabradine	5mg, 7,5mg	film-coated tab.
Lisinopril	5mg; 10mg; 20mg	tab.
Lisinopril + Amlodipine	5mg+10mg, 10mg+20mg	tab.
Meloxicam	7,5mg; 15mg	tab.
Metamizole sodium	500 mg	tab.
Metformin	500mg; 850mg; 1000mg	coated tab.

PRODUCT PORTFOLIO

<i>Product portfolio</i>	<i>Dosage</i>	<i>FDF</i>
Metronidazole	250 mg	tab.
Naftifine	1%	20 ml solution
Nitroglycerin	0,4 mg	spray
Nitroglycerin	0,5 mg	sublingual tab.
Olanzapine	5mg; 10mg	coated tab.
Oseltamivir	75mg	caps.
Papaverine	40mg	tab.
Paracetamol	500 mg	tab.
Pregabalin	75mg; 150mg; 300mg	caps.
Rasagilin	1 mg	tab.
Rosuvastatin	5mg; 10mg; 20mg	coated tab.
Sevoflurane	100%	250 ml liquid
Spironolactone	25mg	tab.
Terbinafine	125mg; 250mg	tab.
Tolperison	50 mg; 150mg	coated tab.
Torasemide	5mg; 10mg	tab.
Valsartan	40mg; 80mg; 160mg	coated tab.
