THE TECHNICAL KNOW-HOW
IN INJECTION MOLDING
OF PACKAGING IN PLASTIC MATERIAL

DISCOVER THE COMPANY

IBS Moulding is an Italian company specialized in design and production of primary packaging, medical devices and taylor-made articles.

Since **1983** we constantly believe that innovation and structures are essential, for this reason during the years we improved our facilities with clean-rooms and **the most advanced Quality control systems improving our services while respecting the environment.**

We provide to each customer the best solution and the best **technical expertise** for his needs, from design stage to industrial production.

WE ARE THE BEST PARTNER TO ADD VALUE
TO YOUR PRODUCT / PRIMARY PACKAGING PROJECT

For us, people are the first heritage, the environment the most precious asset.

Thanks to a strict optimization of our industrial processes, today we achieved **the goal of 90% production scraps recycled.** We also started using biodegradable plastics.

WE ARE READY TO REALIZE YOUR IDEAS AND MEET YOUR NEEDS
BECAUSE YOUR NEW PRODUCTS ARE JUST WAITING FOR YOU
