NUVOTECH**

Vikram Hygiene Products

(Formerly Known as Pioneer Hygiene Products), is a unit of Vikram Nuvotech India Pvt. Ltd. Encouraged by GOI's Quality Healthcare for all and focus on Self Reliant India under Atma Nirbhar & Make in India missions, Vikram Group ventured into setting up of a Hi-tech International Standard manufacturing venture to cater to the needs of Personal Hygiene, Meditech & Healthcare Industry. This ISO-HACCP-GMP compliant manufacturing unit is strategically located at Dahej-GIDC, Gujarat. India

MISSION

Strive to be a leader in manufacturing breathable & non breathable products for personal hygiene & medical disposables endeavoring to excel with research, product design & development.

VISION

To be a trusted partner for health care & personal hygiene industry by providing medically safe product combinations with enterprising spirits, strategic vision, and appropriate engineering abilities.

VALUES

To combine managerial skills with innovation, sincerity, commitment & consistency ensuring satisfaction and delight to each member of our manufacturing, QC, selling and consumer ecosystem.

QUALITY MANAGEMENT SYSTEM

The Quality Management System of Vikram Hygiene Products is based on the logical approach to processes and production SOP's. Each & every employee is committed to consistent quality manufacturing and continual improvement of products and services in compliance with customer requirements and international Industry standards. Vikram Hygiene consistently implores to improve its HRM, procurement, manufacturing, product quality, R&D, asset management systems and dispatching processes maintaining highest stands of sustainable practices and environmental governance.

OUR INFRASTRUCTURE

Setup on a Land Parcel of over 12 Acres, Vikram Hygiene has most modern clean air controlled state-of-the-art built up manufacturing infrastructure of over 100,000 Square Feet. The unit is industry 4.0 ready with innovative production lines and advanced testing equipment from renowned engineering companies of Korea, Taiwan, Switzerland, USA, Japan, Germany and Italy. All entry-exit points are well equipped with devices to maintain ISO Class 8 cleanroom facility standard in a dust-free positive pressure working environment with 100 % Electric Power Backup for uninterrupted product supplies.

PRODUCTION FACILITIES

- Two Cast Breathable Film Lines with 100% defect detection
- Fully Automated Compounding Lines
- Rotogravure and CI Flexo Printing Lines with 6 Colour Printing and 100% Print Inspection
- Automatic Lamination Lines with Slot Die for Partial & Full Lamination
- Automated Slitting Lines for up to 2300 mm slitting width

R&D

We have personalized value-added cost effective product innovations with robust research, development and quick sample service customer collaboration. To be on forefront of changing dynamics of the Personal Care and Hygiene Industry, Vikram Hygiene continually interacts with leading Industry bodies like EDANA, AIPMA, ITTA, INDA and ANFA and benchmarks itself with Industry leaders.

LABORATORY & QC

World-class testing lab with advanced testing equipment like WVTR, Tensile, Hydrostatic Pressure, Dart Impact, etc. imparting a very high degree of Quality consciousness to production SOP's.

RAW MATERIAL

Storage is designed to keep RM for at least four months to cater to emergency production needs.

CONNECTIVITY

Connected to 8 lane NH6, 2 Km from Dahej Port and 120 Km from Vadodara International Airport.

OUR PRODUCTS

Vikram Hygiene Product manufactures broad range of plain, embossed, printed & laminated PE Breathable & Non Breathable Films. All Mechanical, WVTR and requested properties are achieved as per customer requirements under stringent manufacturing SOP's and QC protocols. The unit is vertically integrated to produce its own Master Batches & Compounds for better product recipe control and committed repeat sample matches. The unit caters to mainly four verticals as under

FILMS

PE - Breathable & Non - Breathable Hygiene Films
TPE - Breathable Viral Barrier Monolithic Films

LAMINATES

Bi-Lamination (2Layer) Facility
Tri-Lamination (3Layer) Facility

COMPOUNDS & MASTER BATCHES

Speciality Polymer Compounds
& Master Batches

PPE

SteriAttire-Medical Coveralls & L1-L4 Gowns and
UniSteri-Single use Medical Disposables

END USE PRODUCTS

Vikram Hygiene Products will strive to be an industry leader and has been on a path of continuous growth and progress, consolidating its position through product innovation and commitment to excellence for diverse applications covering Fem Care, Baby Care, Adult Care, Medical and host of related personal care and healthcare product lines.
