END TO END SOLUTIONS

CDMO SERVICES

OUR COMPANY

Salvat is a pharmaceutical company, based in Barcelona (Spain), with a subsidiary in Miami (US).

For over 65 years, Salvat has been developing, manufacturing and marketing innovative branded pharmaceutical products worldwide.

Focus on **Ophthalmology, Otorhinolaryngology, Gastroenterology & Consumer Health Care.**

CDMO SERVICES

Salvat helps you stand out from your competitors developing and manufacturing advanced formulations for your product.

DEVELOPMENT SERVICES

Solutions for your Ophthalmic, Respiratory and Otic products

- **IMPACT-SVT®**, a patented nanoemulsion drug delivery technology ensures drug solubility and improves drug penetration and bioadhesion.
- **Smart Polymer technology**, that increases residence time on target and decreases frequency of administration.

Solution for oral products, with "On Demand" drug release profiles

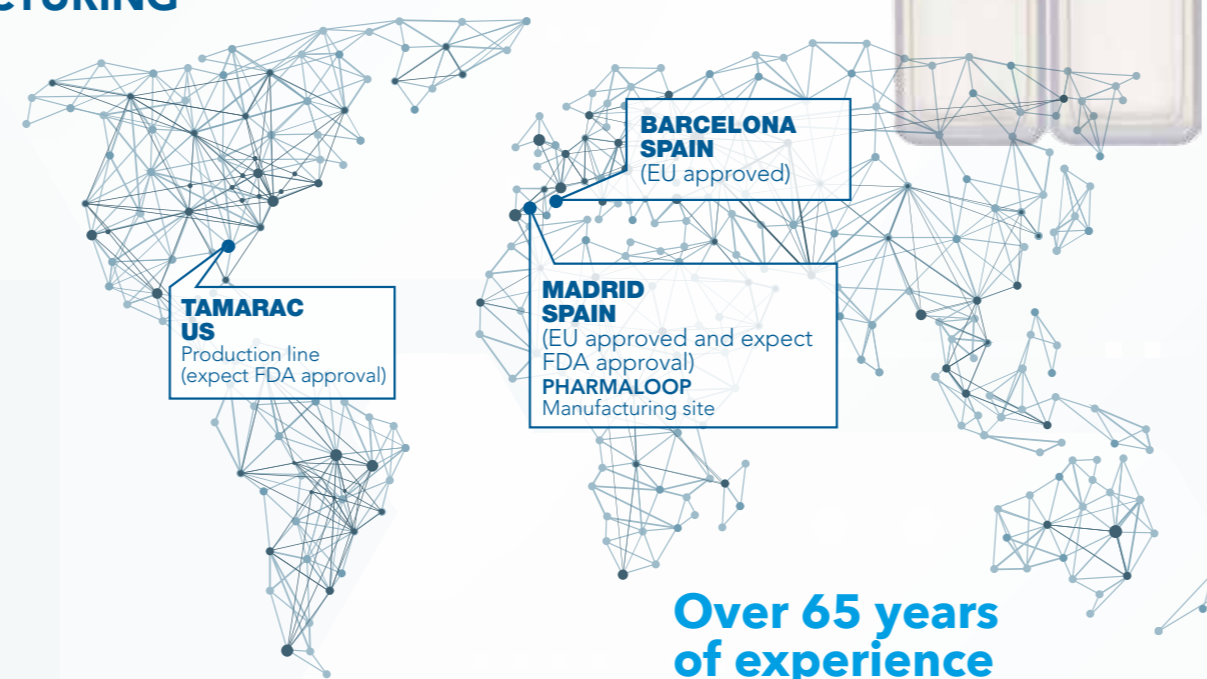

- **Oral Multiparticulate Technology Platform**, enables line extensions or re-positioning for already marketed oral drugs, particularly improving bioavailability.

MANUFACTURING SERVICES

Salvat manufactured products are marketed worldwide.

Our strong capacity, expertise and innovative technology allow us to successfully deliver your product.

MANUFACTURING SITES

Over 65 years of experience

STERILE LIQUIDS

Optimal solution for Ophthalmology, Otorhinolaryngology, Antiseptic & OTC products.

BLOW-FILL-SEAL (BFS) TECHNOLOGY

Advantages:

- Increased patient compliance
- Preservative-free single dose vials
- Innovation in the format

Capacity:

- 7 Blow-Fill-Seal lines (Rommelag)
- Over +350 Million unit dose/year
- Filling range 0.20 mL – 15 mL
- Batch size: 50 L – 2000 L¹

MULTIDOSE TECHNOLOGY

Advantages:

- Preservative free²
- Sterile by filtration
- Fully sterile process

Capacity:

- Sterile bottle filling line (Groninger technology)
- Over 25 Million/year
- Filling range 2 mL – 15 mL
- Batch size: 50 L – 2000 L¹
- ATEX formulation capabilities

1. Commercial phase minimum batch sizes: 250 L _ 2. Specific container

NON-STERILE LIQUIDS

Gastroenterology, Wound care, Upper respiratory tract, Food Supplements and Cosmetics.

MULTIDOSE TECHNOLOGY

Advantages:

- Wide range of application devices available
- Automated filling lines
- Flexibility, quick set up and versatility

Capacity:

- Over 23 Million/year
- Filling range 10 mL – 500 mL
- Batch size: 50 L – 2000 L
- Robotic filling under laminar flow

SOLIDS

Gastroenterology, Analgesics, Upper respiratory tract and Food Supplements.

TABLETS, CAPSULES & SACHETS TECHNOLOGIES

Advantages:

- Easy to carry
- Automated line

Capacity:

- Tablets 195 Million/year, capsules 100 Million/year & Sachets 2.6 Million/year
- Tablets & Capsules Batch size: 100 – 500 kg / Sachets 50 – 250 kg
- Coated and uncoated tablets
