

END TO END SOLUTIONS

OUR COMPANY

Salvat is a pharmaceutical company, based in Barcelona (Spain), with a subsidiary in Miami (US). Three manufacturing plants in Barcelona and Madrid (Spain) and production line in Tamarac (US). With a state-of-the-art manufacturing plant of sterile liquid forms (Pharmaloop, a Salvat company).

For over 65 years, Salvat has been developing, manufacturing and marketing innovative branded pharmaceutical products worldwide.

Salvat offers a fully integrated End to End solution in:

- **Sterile Liquid Forms**
Blow-Fill-Seal (BFS) and Multidose technologies
- **Non-Sterile Liquid Forms**
Multidose technology
- **Solid Dosage Forms**
Sachets, Capsules & Tablets technologies

Salvat manufactured products
are commercialized in over
60 countries.

CDMO SERVICES

Salvat offers an integrated End-to-End solution, to ensure your project's commercial success.

We offer the latest technologies with **optimum quality, flexibility** and **operational excellence**. With over 65 years of experience, we can provide the services and solutions that make our partners successful.

DEVELOPMENT SERVICES

Salvat's wide array of solutions and services can be tailored to your project's needs.

We have an expert, integrated team to help you bring your ideas to market.

Nano-emulsion and Smart Polymers technology platforms, solutions for your Ophthalmic, Respiratory and Otic products.

- Increase residence time
- Decreased frequency of administration
- Lower doses required
- Minimizes side effects (local and systemic)
- Improves patient adherence and compliance

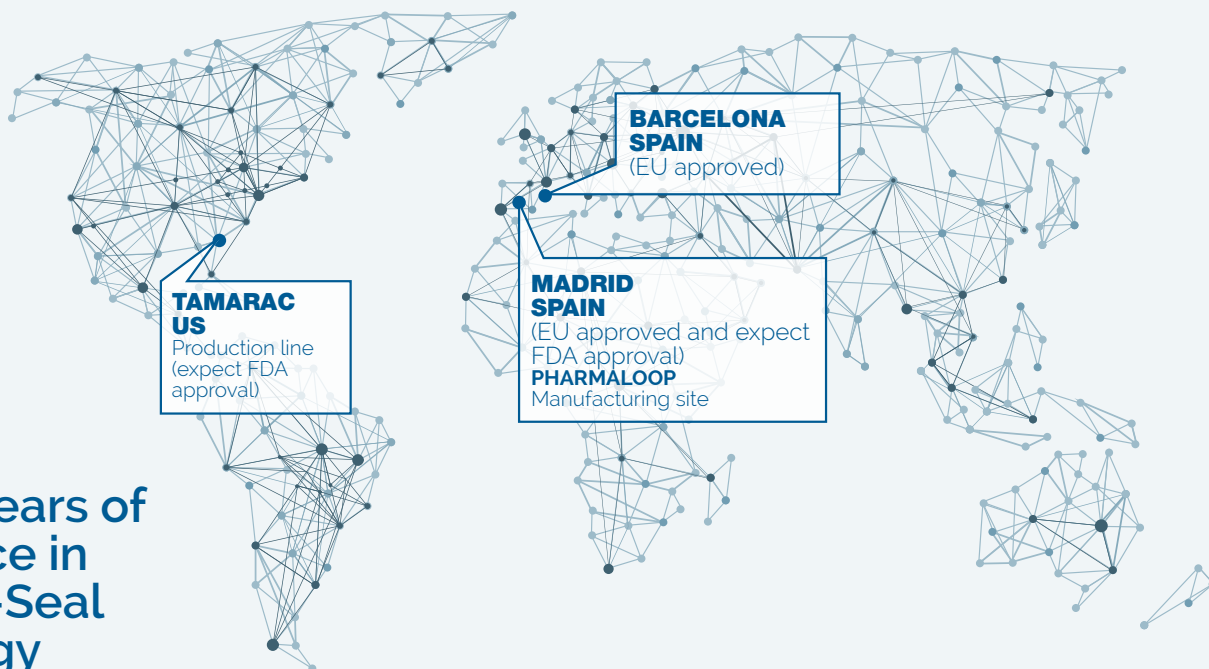

Oral Multiparticulate Technology Platform, solution for oral products, with "On Demand" drug release profiles:

- Multiple pulses
- Gastro-resistant
- Extended-release
- Mucoadhesive

MANUFACTURING SERVICES

We understand the importance of guaranteeing consistent supply, ensuring regulatory compliance, quality and good manufacturing practices. These components, paired with strong packaging capabilities, allow us to successfully deliver a wide variety of dosage forms and packaging to our global customers.

MANUFACTURING SITES

Over 10 years of
experience in
Blow-Fill-Seal
technology

STERILE LIQUIDS

Optimal solution for Ophthalmology,
Otolaryngology, Antiseptic & OTC
products.

BLOW-FILL-SEAL (BFS) TECHNOLOGY

Advantages:

- Increased patient compliance
- Preservative-free single dose vials
- Totally manufacturing process

Capacity:

- 5 Blow-Fill-Seal lines (Rommelag)
- Over 250 Million unit dose/year
- Filling from 0.20 ml – 15 ml
- Batch size: 50 L – 2,000 L

MULTIDOSE TECHNOLOGY

Advantages:

- Preservative free (Specific container)
- Sterile by filtration
- Fully sterile process

Capacity:

- Sterile bottle filling line (Groninger technology)
- Over 25 Million/year
- Filling from 2 ml – 15 ml
- Batch size: 50 L – 2000 L
- ATEX formulation capabilities

NON-STERILE LIQUIDS

Gastroenterology,
Wound care, Cough, Food
Supplements and Cosmetics.

MULTIDOSE TECHNOLOGY

Advantages:

- Wide range of application devices available
- Automated filling lines
- Flexibility, quick set up and versatility

Capacity:

- Over 23 Million/year
- Filling from 0.20 ml – 3 ml
- Batch size: 50 L – 2000 L
- Robotic filling under laminar flow

SOLIDS

Gastroenterology,
Analgesics, Cough and
Food Supplements.

TABLETS, CAPSULES & SACHETS TECHNOLOGIES

Advantages:

- Easy to carry
- Automated line

Capacity:

- Tablets 195 Million/year,
capsules 100 Million/year
& Sachets 2.6 Million/year
- Tablets & Capsules Batch size:
100 – 500 kg / Sachets 50 - 250 kg
- Tablets coated and uncoated
