QOSINA BIOPROCESS CATALOG

Learn More:
qosina.com

Dear Valued Customers:

I am pleased to introduce the first edition of the Qosina bioprocess component catalog!

We recently expanded our bioprocess initiative and decided to create a dedicated catalog with a curated, comprehensive portfolio of high-quality components that meet the technical and commercial needs of single-use system (SUS) manufacturers.

Our new single-use bioprocess catalog includes more than 1200 in-stock components and is a complete resource guide for bioprocess SUS integrators. We are working to expand the product categories with some exciting new products in 2023, along with extensions to the existing product categories we have today.

For more than 40 years, Qosina has been a trusted source of the supply chain, delivering a high service level to our customers and demonstrating business continuity through efficient supply chain management, demand planning, forecasting and inventories.

We enable SUS integrators to focus on core competencies to bring innovation, speed and agility to your customers without sacrificing assurance of quality supply. We do this by leveraging our strengths to deliver business continuity, consistent quality and change control to the supply of SUS components. We further support SUS integrators by allowing you to outsource your warehousing and vendor management. We will break down manufacturers' box sizes and deliver only the quantities you need based on your defined projects. We also provide technical, quality and regulatory documentation, which can be easily downloaded directly from our website, enabling you to support your customers at the highest level in the industry.

While the past three years have brought about significant challenges in global supply chain operations across all industries, Qosina put several measures in place to mitigate the impact to our customers and reduce the risk of component shortages. With a diverse and extensive product portfolio, Qosina can offer you multiple options of equivalent products to meet your requirements. With such a large quantity of in-stock, single-use bioprocess components in our inventory, we can specify pre-defined alternative components in the event an existing component becomes available.

Since changes are inevitable, Qosina has an established change notification process and built-in SOPs for change control. We notify and manage changes with an understanding of our customers who work in regulated industries, including traceable and segregated inventories and last-time buy options.

We have a brand-new, state-of-the-art cleanroom, which demonstrates our commitment to you and the integral role we play in the supply chain for medical device and bioprocess system manufacturing. By increasing our cleanroom packing and bill of material kitting capacity, we can continue to expand our role as a supply chain outsource partner. You can purchase only what you need, when you need it, from a single supplier that is ISO 13485 (medical device manufacturing), ISO 9001 (quality system), ISO 14001 (environmental management) and ISO 22301 (business continuity) certified. This reduces your need to invest in inventory, working capital commitments, purchasing, warehousing and kitting activities.

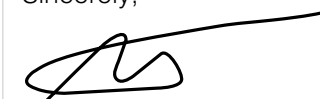

We've also recently launched our Irradiate to Order service, which offers our customers a convenient way to purchase pre-irradiated, single-use bioprocess components. You can select from more than 1,200 components for single-use bioprocess applications, and easily purchase small quantities of individually packaged components, irradiated at greater than 25 kilogray.

Be sure to visit our Bioprocess Resource Center on qosina.com for updates on new products, supply chain and regulatory issues and other topics related to the design, development and manufacture of single-use systems.

While Qosina continues to change and grow, one factor remains constant: we are committed to providing you with exceptional customer service and thousands of stock components with backup documentation and quality controls to support finished products in the highly regulated industries we serve.

We appreciate the opportunity to work with you and are grateful you've chosen Qosina as your source for bioprocess components.

Sincerely,

Scott Herskovitz
President and CEO

Irradiate to Order Service

for single-use bioprocess components

Select your products from our broad selection

Qosina will **Supply** from over 1,500 in-stock components

Irradiated at greater than 25 kilogray

As part of our on-going commitment to the bioprocess industry, Qosina now offers customers a convenient way to purchase pre-irradiated single-use bioprocess components. Components are individually packaged and irradiated at greater than 25 kilogray.

Qosina offers a broad selection of more than 1,500 stock components, tubing and bag chambers for bioprocess applications. Virtually any component from our extensive product portfolio can be supplied individually packaged and irradiated to order.

Quick turnaround time
Low minimum order quantities

Our Irradiate to Order service is backed by the same world-class customer support you're accustomed to receiving from Qosina.

Contact Qosina today to get started!

HEALTH & SAFETY

The highest possible level of safety risk controls have been enacted, so you know your suppliers meet your own quality management system standards.

All of our policies, processes and procedures are controlled, which provides assurance that our products and services meet our customers' needs.

We ensure continuous improvement and engagement associated with the environment by reducing waste in a proactive and preventive nature.

We are committed to maintaining a high standard of quality and safety in our operations by reducing workplace risks and creating better, safer working conditions.

Our business continuity system provides protection against and recovery from unexpected, harmful incidents that may cause business disruption, giving you peace of mind for an uninterrupted supply chain.

New state-of-the-art ISO Class 8 Cleanroom

- Qosina's investment in the cleanroom further validates its commitment to its customers and the integral role it plays in the supply chain for bioprocess system manufacturing.
- By increasing our cleanroom packing and bill or material kitting capacity, we can continue to expand our role as a supply chain outsource partner. Customers can purchase only what they need, when they need it, from a single supplier, supplied from our cleanroom to theirs.
- Supply partners can focus on their own operational excellence, knowing that Qosina helps them serve the ever important small order, with a high service level and no degradation of product quality
- Supports the increased growth of Qosina's business allowing for increased capacity and reduced lead times for customers.

Qosina offers barbed connectors in a variety of configurations including straight, Y, T, cross, elbow and manifold style. These connectors can accommodate tubes with an ID of 1/16 up to 1 inch.

Aseptic connectors and disconnects allow for sterile connections and disconnections, even in non-sterile environments.

Our line of quick disconnect couplings can accommodate multiple tubing sizes and are offered in two materials for increased chemical compatibility.

Hose barbs are available in many different styles across pages 10-28. Each style is driven by the experience and specific requirements considered by the barb designer. Hose barbs are typically described by the nominal inner diameter (ID) of the tubing they are intended to be inserted into. This description should not be interpreted as a guarantee of performance of the barbed connection with any specific sized tubing. There are no consensus standards for barb dimensions to fit tubing IDs. In many cases, a barb may be used with different ID tubing than described.

For more details on the different styles, please see below:

There are no parting lines on any of the barb styles shown.

MicroCNX™

Building on the inventiveness of CPC, the leader in single-use connection technology, the MicroCNX™ line introduces a new category of aseptic micro-connectors that provide a simple, efficient method of connecting tubing for small format biomanufacturing assemblies. Process engineers and operators specify MicroCNX sterile micro-connectors as the modern alternative to the cumbersome, industrial process of tube welding. The MicroCNX line is engineered specifically for the challenging conditions of biologic media transfer in bioprocessing, cell therapy and gene therapy applications.

Aseptic Connectors

AseptiQuik® S

Shown Assembled

AseptiQuik® S small format connectors provide quick and easy sterile connections for small-flow applications, even in non-sterile environments. The “FLIP-CLICK-PULL” design of AseptiQuik® S enables users to easily transfer small volumes with less risk of operator error. The genderless and robust design delivers reliable performance without the need for clamps, fixtures or tube welders. And the laser-etched data code provides access to key product information. Biopharmaceutical manufacturers can now make sterile connections with the quality and market availability they expect from the leader in single-use connection technology.

Aseptic Connectors

AseptiQuik® L

Shown Assembled

Genderless AseptiQuik® L Connectors enable quick and easy sterile connections, in large-volume, high-flow production environments. The large-format, 3/4", 1", and 1-1/2" sanitary genderless design simplifies system integration and minimizes the risk of operator error. The connectors' robust construction provides reliable performance without the need for clamps, fixtures or tube welders. Biopharmaceutical manufacturers benefit from interchangeable 3/4" and 1", and 1-1/2" sanitary flow solutions for full-scale bioprocessing production environments with the quality and market availability they expect from the leader in single-use connection technology.

AseptiQuik® G DC

AseptiQuik® G DC Series Connector is the first all-in-one, genderless, single-use connection technology to offer both a sterile connection and a sterile disconnection. With the AseptiQuik G DC connector, manufacturers can make quick and easy sterile connections and disconnections – even in non-sterile environments.

The intuitive Flip - Click - Pull design of the AseptiQuik G DC connector enables users to transfer media easily with less risk of operator error. After transfer is complete, a simple two-step disconnection maintains media sterility by preventing environmental ingress into the media flow path.

The connector's robust design and automatic shutoff valves provide reliable performance without the need for fixtures or tube welders/sealers.

CONNECTORS

Aseptic Connectors

AseptiQuik® C

Shown Assembled

The AseptiQuik® C Series Connectors provide quick and easy sterile connections, even in non-sterile environments. These connectors feature a "CLICK-PULL-TWIST" design, which allows users to transfer media easily and reduces complexity and risk of operator error. An audible CLICK confirms the initial connection, the PULL tabs allow simultaneous and secure removal of both membranes, and a simple TWIST of the integrated lock ring provides a secure final assembly, which is confirmed by the final click. Its robust construction ensures repeatable and reliable performance without the need for additional hardware, such as clamps, fixtures or tube welders.

CONNECTORS

Aseptic Connectors

AseptiQuik® C DC

Shown Assembled

AseptiQuik® DC Connectors are the first all-in-one single-use connection technology to offer both a sterile connection and a sterile disconnection. With the AseptiQuik® DC Connector, manufacturers can make a quick and easy sterile connection and disconnection, even in non-sterile environments.

AseptiQuik® DC's intuitive "CLICK-PULL-TWIST" design enables users to transfer media easily with less risk of operator error. After transfer is complete, the connector features a simple one-step disconnection that maintains media sterility by preventing external organisms from entering into the media flow path. The connector's robust design and automatic shut-off valves provide reliable performance without the need for sanitary clamps, fixtures or tube welders.

Aseptic Connectors

AseptiQuik® X

AseptiQuik® X Large Format 1" Connectors provide quick and easy sterile connections for high flow applications, even in non-sterile environments. AseptiQuik X's "TWIST-PULL-TWIST" design enables users to quickly transfer large volumes of media easily with less risk of operator error. The connector's robust design provides reliable performance without the need for clamps, fixtures or tube welders. Biopharmaceutical manufacturers can now make 1" sterile connections with the quality and market availability they expect from the leader in single-use connection technology.

Aseptic Connectors

CleanLine™

- Genderless aseptic connector for high-volume sterile fluid transfer at low differential pressures
- Provides benefits of single use while maintaining reliability associated with stainless steel technology
- Each box is packaged with components to make one connection (pair of connectors/two rivets)

Hose barb version can connect to large ID process hosing

NEW!

61869
CleanLine™ Aseptic Single-Use Barb Connector
Fits 1 1/2 inch ID Tubing (1.5 inch, 38.1 mm)
PSU, Silicone, HDPE

Sanitary flange version compatible with stainless steel process equipment or single-use sanitary flanges

NEW!

61870
CleanLine™ Aseptic Single-Use Sanitary Flange Connector
1 inch/1.5 inch Standard Flange
PSU, Silicone, HDPE

Features of part numbers 64131 - 64138

- These connections allow aseptic connection and full sterile fluid transfer in non-classified and classified environments
- Male and female connector couplings allow for error proofing to help prevent misconnections

64133
OPTA® SFT-D Small Male, Barbed
Fits 1/4 inch ID Tubing
(0.25 inch, 6.4 mm)
PC, TPV, PES, PP

Also Available:	
Part No.	Measurement
64135	Fits 3/8 inch ID Tubing (0.375 inch, 9.5 mm)
64137	Fits 1/2 inch ID Tubing (0.5 inch, 12.7 mm)

64134
OPTA® SFT-D Small Female, Barbed
Fits 1/4 inch ID Tubing
(0.25 inch, 6.4 mm)
PC, TPV, PES, PP

Also Available:	
Part No.	Measurement
64136	Fits 3/8 inch ID Tubing (0.375 inch, 9.5 mm)
64138	Fits 1/2 inch ID Tubing (0.5 inch, 12.7 mm)

Three-step operation for 64131-64138

1. Remove protective cap and connect the male and female connectors
2. Remove membranes
3. Turn the collar to complete the connection, which will be validated by an audible click

64131
OPTA® SFT-I Large Male, Barbed
Fits 3/4 inch ID Tubing
(0.75 inch, 19.1 mm)
PC, EPDM, PES, PP

64132
OPTA® SFT-I Large Female, Barbed
Fits 3/4 inch ID Tubing
(0.75 inch, 19.1 mm)
PC, EPDM, PES, PP

Steam-Thru Connectors

Steam-Thru®

Steam-Thru® Connectors
at QOSINA.COM

The Steam-Thru® Series Connectors allow a quick and easy sterile connection between biopharmaceutical processing equipment and disposable bag and tube assemblies. Its innovative three-port design allows a true steam-through Steam-in-Place (SIP) process, which eliminates “dead legs” where bacteria can grow. The patented valve allows a sterile connection and disconnection and permits a high media flow rate. The single-use design saves time and money by eliminating unnecessary cleaning procedures and reducing validation concerns associated with reusable components. The original Steam-Thru® Connector is a single-actuation design allowing the connector to be steamed once in making a connection “steam on.” The Steam-Thru II Connector is a dual-actuation design which allows the connector to be steamed a second time to “steam off” again.

Steam-Thru Connectors

Steam-Thru II

The Steam-Thru II Connector is a dual-actuation design which allows the connector to be steamed a second time to “steam off” again. This unique design also allows for a quick and easy sterile connection between biopharmaceutical processing equipment and disposable bag and tube assemblies. Its innovative three-port design allows a true steam-through Steam-in-Place (SIP) process, which eliminates “dead legs” where bacteria can grow. The patented valve allows a sterile connection and disconnection and permits a high media flow rate. The single-use design saves time and money by eliminating unnecessary cleaning procedures and reducing validation concerns associated with reusable components.

Steam-Thru Connectors

Steam-Thru II
AseptiQuik® C

AseptiQuik® STC Connectors combine the AseptiQuik® sterile connector and the Steam-Thru® II SIP connector, giving manufacturers greater flexibility between hybrid stainless steel and single-use processing equipment. The union of the two connectors into a single unit through a sanitary clamp allows an AseptiQuik sterile connection to be steamed on to stainless equipment via SIP. After the SIP cycle, a wide range of single-use systems can be connected.

Additional sterile disconnects, the AseptiQuik® C DC and AseptiQuik® G DC series can be found on pages 41 and 39.

HFC39 Series aseptic disconnect couplings prevent external organisms from entering into the media flow path upon disconnection. Automatic shut-off valves close off the flow path aseptically, protecting valuable media while also eliminating the need for pinch clamps and tube welders. The easy-to-use thumb latch design provides a secure, leak-free connection and enables one-handed disconnects.

Sterile Disconnects

HFC Disconnect

The HFC Disconnect Series enables sterile disconnection of single-use biopharma and cell and gene therapy manufacturing systems. With an easy push of the connector thumb latch, sterility is maintained on both sides of the system during the disconnection process. Ideal for disconnection from storage/mixing tanks, SU bioreactors, transfer lines, chromatography skids, filters, sampling, and freeze/thaw bags. Sold in the connected set, including a protective thumb latch cover eliminating the chance of an accidental disconnection. Laser etched with item and lot number for batch traceability.

Shown Assembled

MPC Series Couplings feature a thin, tapered barb which minimizes fluid turbulence and decreases areas for particle entrapment. An ergonomic thumb latch can be operated even by gloved hands, and an audible click lets the operator know when the connection is secured. Coupling halves can be rotated when connected to reduce tubing kinks. In addition, the MPCK Coupling Bodies have locking sleeves to prevent accidental disconnection. This series is compatible with the Sanitary series.

MPX

Shown Assembled

MPX Series Couplings feature a thin, tapered barb, which minimizes fluid turbulence and decreases areas for particle entrapment. An ergonomic thumb latch can be operated even by gloved hands, and an audible click lets the operator know when the connection is secured. Coupling halves can be rotated when connected to reduce tubing kinks. In addition, the MPXK Coupling Bodies have locking sleeves to prevent accidental disconnection. The MPX Series also provides a higher flow rate than the MPC Series. This series is compatible with the Sanitary series.

MPC/MPX Back-To-Back Body Adapters

Shown Assembled

MPC/MPX Back-to-Back Body Adapters allow end users the flexibility of connecting off-the-shelf, single-use systems that may feature identical coupling connections at the end of their tubing. A version with both MPC and a larger format MPX body will essentially provide a reducing option for users who need to transition from larger-sized tubing to smaller-sized tubing on two different single-use systems.

SaniQuik™

SaniQuik™ connections answer the question of how to integrate single-use components with your existing stainless processing equipment. This integral sanitary termination attaches to hard-plumbed systems with sanitary clamps. Once attached, it permits quick and easy connection to single-use bag systems, manifolds or tube sets with CPC® disposable coupling bodies. SaniQuik™ connections reduce sanitary gasket replacement, enabling cost-effective media transfer solutions for feeding, harvesting or sampling applications.

Key:
Y = Excellent, recommended material for this sterilization method
N = No, not recommended
N/A = Not applicable

Sterilization Methods

Disinfectants: 70°F (20°C), Formalin, ethyl alcohol, etc. Sterilize coupled or uncoupled.

Ethylene Oxide, EtO: Four hours, 100% EtO @ 110°F (43°C), up to five repetitions, coupled or uncoupled.

Autoclave:

Polycarbonate: 250°F (121°C), 30 minutes, up to 10 repetitions. Sterilize uncoupled only.

Polysulfone: 270°F (132°C) for 60 minutes, up to 25 repetitions. Sterilize uncoupled only.

Steam-Thru Connection: 265°F (129°C) for 30 minutes, up to two cycles. (Part number specific)

HFC39: 270°F (132°C) for 60 minutes, up to 25 repetitions for uncoupled units and up to one repetition for coupled units.

Electron Beam (E-Beam): Maximum cumulative exposure of 50 kilograys. Sterilize coupled or uncoupled.

Gamma: Maximum cumulative exposure of 50 kilograys. Sterilize coupled or uncoupled.

Dry Heat: 250°F (121°C), 12 hours, no pressure. Sterilize uncoupled only.

SIP (Steam In Place) Process:

Up to 266°F (130°C) for 60 minutes (Steam-Thru Connection)

Up to 275°F (135°C) for 60 minutes (Steam-Thru II Connection)

Regulatory and Compliance

ISO 13485:2003 Certification

ISO 13485:2003 is recognized by regulators around the world as a good basis for addressing medical device design and manufacturing regulatory requirements. It allows us to enhance product safety by proactively identifying and managing product and project risks. Becoming ISO 13485:2003 certified has allowed CPC® to better control the consistency of manufactured products.

ISO 9001:2008 Certification

ISO 9001:2008 is a standard which assures consistency of a product ordered by customers. Organizations having ISO 9001:2008 certification have demonstrated compliance to the ISO 9001:2008 requirements by an independent registration authority. CPC® Quality Management System has been approved and certified under the ISO 9001:2008 standard.

FDA and USDA

The U.S. Food and Drug Administration publishes, through the Code of Federal Regulations, standardized criteria which govern the acceptability of materials used in food contact. The U.S. Department of Agriculture publishes similar standards that mirror FDA criteria. Neither agency approves or disapproves products for particular applications. Most CPC® products are made using resins that comply with applicable FDA or USDA standards. When necessary, the standard O-Ring seals are replaced with specific, recognized materials.

Cleanroom Manufacturing

CPC® manufactures certain Life Sciences and Chemical Management product lines in a cleanroom certified by an external testing service to meet or exceed ISO Class 7 (10,000) at 0.5 mm per ISO 14644 and the former Federal Standard 209E. Certification data provided upon request.

Regulation of Hazardous Substances

The RoHS Directive stands for "the restriction of the use of certain hazardous substances in electrical and electronic equipment." This directive bans the placing on the EU market of new electrical and electronic equipment containing more than agreed levels of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE) flame retardants.

NSF

NSF International, based in Ann Arbor, Michigan, develops and publishes consensual criteria that govern the acceptability of materials and equipment used in food and beverage processing. They also do testing to verify the performance of materials or devices to their published criteria. CPC® lists many of its product lines under the criteria of NSF/ANSI Standard 169 (formerly C-2), which governs components used in food and beverage contact applications.

Bag Ports

Qosina carries a large assortment of single-use bag ports for welding to single-use bags and film. Our ports are available in a variety of materials and styles and can accommodate different sizes of tubing. Boat ports are available in multiple configurations with different hose barb configurations. Our larger sanitary flange bag ports are designed for use with powder and mixing applications.

Clamps & Clips

CLAMPS & CLIPS

Tubing Clamps Pinch

Qosina offers a variety of single-use tube clamps in an assortment of sizes, colors and styles to prevent the flow of fluid and allow for easy identification when included in your tubing assembly. Clamps are available to fit tubing dimensions of various ODs and are made from high-quality materials to suit various applications. We also offer a variety of bag clamps in different styles, colors and sealing lengths.

We offer several types of securing clamps, including cable ties and Oetiker® clamps, which are retention devices designed to attach tubing to a mechanical hose barb connection.

Sanitary flange clamps are designed to attach flanges with the associated gaskets and end caps. These are offered in various styles, colors and sizes.

51633
PharmaLok™ Clamp
Fits 0.5 inch/0.75 inch Mini Flange
Nylon

Also Available:

Part No.	Color	Material
51632	White	Nylon
51636	White	Nylon
51630	Orange	Nylon
NEW! 51703	Natural	PBT

51631
PharmaLok™ Clamp
Fits 1 inch/1.5 inch Standard Flange
Nylon

Also Available:

Part No.	Color	Material
51634	White	Nylon
51638	White	Nylon
NEW! 51704	Natural	PBT

Works with barbed sanitary flanges on [pages 75 - 79](#)
See our BioPharma, C-Flex® and silicone tubing on [pages 104 - 115](#)

51612
BioClamp™
1 inch/1.5 inch
Nylon

Also Available:

Part No.	Measurement
51611	Fits 0.5 inch/0.75 inch Mini Flange
51612	Fits 1 inch/1.5 inch Standard Flange
51672	Fits 2 inch Flange
51673	Fits 2.5 inch Flange
51674	Fits 3 inch Flange
51675	Fits 4 inch Flange
51676	Fits 6 inch Flange
51677	Fits 8 inch Flange

Qosina offers an extensive line of swabbable, non-latex, single-use needleless injection sites, sampling ports, pre-slit injection sites and traditional in-line injection sites in an array of configurations. Female luer lock-equipped injection sites mate securely with all standard luer syringes and connectors. The injection ports allow for bidirectional flow, which can be used to aspirate or inject fluids.

Syringes

Qosina stocks a large selection of bulk, non-sterile syringes for all your prototyping and production requirements. With almost 200 different options to choose from, Qosina supplies a wide variety of syringe volumes as low as 0.25 ml and up to 140 ml directly from our inventory.

Qosina carries an extensive line of stopcocks with 1-, 2-, 3- and 4-way fluid direction and 2-, 3-, 4-, 5- and 6-gang manifolds. Connections include male luer slip, male luer lock, male luer with spin lock, rotating male luer lock, and female luer lock.

Some of our stopcocks are equipped with a needleless injection site, which includes a luer-activated valve that allows for easy control of fluids. Once the stem of a male luer is connected to the female luer lock needleless injection site, the valve opens, allowing for the flow of fluid. Once disconnected, the valve is closed, stopping the flow.

Valves

Qosina stocks check valves and luer-activated valves in numerous configurations, flow rates, materials, cracking pressures and back pressures to use in a wide range of applications. Designed to control flow and prevent contamination, our high-flow check valves afford quick flow response for more control. To see our full line of valves, please visit our website.

Filters

Hydrophilic membrane filtration is used in several industries to filter various liquids. Hydrophilic filters can be wetted with fluid and are preferred for aqueous solutions. Once wetted, they do not allow the free passage of gases until the applied pressure exceeds the bubble point and the liquid is expelled from the membrane pores.

Hydrophobic membrane filtration will readily let gas pass through and repel water. Hydrophobic filters will not wet in water but will wet in low surface tension liquids. They are best suited for gas filtration, low surface tension solvents and venting. In some applications, hydrophobic filters are used to filter aqueous solutions because of compatibility requirements. Water or aqueous solutions can also pass through a hydrophobic filter once the water breakthrough pressure is reached.

Qosina supplies tools to support the use, installation and removal of single-use components. We carry Oetiker® tools for the attachment and removal of Oetiker ear clamps. Oetiker installation tools come in single or compound action, soft grip or ergonomic handles, and standard or side jaw.

Our hand-held Clipster® tools and blades are used with the Clipster aseptic disconnectors to disconnect tubing at any stage in a process while maintaining sterility, and our SaniSure® tools are used to install and remove SaniSure clamps.

Adhesives

We understand the convenience of getting all of your project components from a single source. This allows you to speed your design, testing and validation processes, and get your device to market much quicker.

We've teamed up with H.B. Fuller, a veteran medical adhesive manufacturer, to offer you a selection of off-the-shelf instant cyanoacrylate and UV-curable acrylate adhesive solutions for bonding your single-use assemblies.

Whether your project requires a bonding agent that has a low, medium or high viscosity, or you're working with different types of materials, our instant and light-cured adhesives deliver hassle-free bonding.

Reach out to Qosina Europe for your component needs!

Hello!
Bonjour
Hola
Ciao!
Ola
Hallo!

Learn more at www.qosina.com/qosina-europe

We recognize the importance of supporting our European customers with local representation, so our Qosina Europe team is available to support your medical device development and production needs.

Please email info@qosinaeurope.com or call **+39 02 66401337** if you have any questions about current or past orders, or even general questions about our components. We're happy to help!

Qosina's approach to inventory management

While global supply chain challenges still exist, Qosina continues to deliver a high service level to our customers and demonstrates business continuity through efficient supply chain management, demand planning, forecasting and inventories. We also ensure consistent quality through careful oversight of the supply chain.

Trusted partner

As a trusted supply chain management outsource partner, we can help you successfully plan and manage your component supply requirements.

Immediate delivery

Qosina carries a vast inventory of thousands of stock components in stock and ready for immediate delivery.

Minimize inventory investment

Reduce your inventory levels and warehousing costs while taking advantage of volume pricing.

Ship when you need

We can help you plan out your projected inventory needs and release your parts as you need them through our blanket order agreement.

Go online or call today

Set up a blanket order from each product page, or call a customer service specialist to learn more about placing a blanket order and how to establish an inventory management arrangement for your components.

These Qosina Terms and Conditions (the “**TAC**”) are between Qosina Corp. (“**Qosina**”) and you as a recipient of a Qosina component catalog (the “**Catalog**”) and/or as an end user of Qosina’s web site located at <http://www.qosina.com> (or any successor site) (the “**Site**”). **By accessing the Site, sending information to Qosina or ordering Products or services from Qosina via any method (e.g., phone, fax, email, mail or through the Site,) you agree to be bound to the TAC. If you do not agree with any term in the TAC, your sole recourse is to discontinue your use of the Site and/or the Catalog.** Changes in law or changes in Qosina’s business may require changes to be made to the TAC from time to time, so Qosina encourages you to review the TAC periodically for any such changes. **Your continued use of the Site or Catalog or the placement of orders following the posting of any changes in the TAC constitutes your binding acceptance of such changes or modifications.**

I. TERMS AND CONDITIONS OF SALE

Qosina offers the items described in the Catalog and on the Site (the “**Products**”) for sale at the prices set forth in the Catalog or on the Site, as applicable (subject to revision of such prices by Qosina from time to time). No document issued by you attempting to negate or otherwise modify the terms of the TAC, including any purchase order or request for proposal, shall be binding upon Qosina and instead the TAC, including any special terms and conditions set forth separately by written agreement shall exclusively govern the sale of products and provision of services to you by Qosina.

Qosina ships Products and provides services in accordance with the specifics of your purchase order. Unless otherwise set forth in your purchase order, all items purchased from Qosina are made pursuant to a “shipment contract,” which means that the risk of loss and title for such items pass to you upon Qosina’s delivery to the carrier (FOB carrier). If, after delivery and inspection, you determine that the Products or services do not conform to your specifications and are, therefore, unacceptable, please notify us immediately. Qosina will either replace the rejected Products, or issue a credit therefore, at Qosina’s option, as the exclusive remedy.

WARNING: You must determine fitness of Products for use. Exposure of Products to other materials, chemicals, sterilization or temperature extremes may cause changes in material from which the Products are manufactured, which may make the Products unsuitable for use. Some Products contain latex, which may cause allergic reactions in some individuals. **QOSINA DISCLAIMS ANY RESPONSIBILITY FOR THE FOREGOING.**

You assume all liability and responsibility for selection and use of Products by you and/or by any third party that purchases or receives the Products (or products incorporating the Products) from you or your transferees, and Qosina is not and shall not be liable or responsible in any way for any such selection or use. The Products are intended only for further manufacturing or assembly and are not for sale directly to hospitals, physicians, pharmacists, or other end users. You agree to use any Products purchased from Qosina in a safe manner, and in accordance with the applicable governmental rules and regulations.

The products listed in this catalog are intended solely for use as components for further manufacturing, processing, or incorporation into a finished device. These products are not intended for use as finished devices. Customers are solely responsible for determining whether a Qosina component product is appropriate for Customer’s intended use and for ensuring that its use of the component product is in compliance with the applicable laws.

Return Goods Policy:

1. Returned merchandise requires prior written authorization and a Qosina RGA number.
2. Claims for shortage or damaged goods must be made within 10 days of receipt.
3. All merchandise must be in the original packaging and sealed cartons.
4. All returned goods must include a packing list and must be shipped freight prepaid.
5. Credit will be issued as follows:
 - a. Merchandise less than 60 days old will be issued 100% credit, less 25% restocking charge.
 - b. Merchandise older than 60 days and custom orders are not returnable for credit.
 - c. No cash refunds will be given.

II. WEBSITE TERMS OF USE

The Site is provided as a service to you and is intended to provide general information about Qosina and its Products and services. Qosina reserves the right to delete, modify, or supplement the content of the Site at any time for any reason without prior notification, and will use reasonable efforts to include up-to-date and accurate information in the Site.

Linked Sites. Any links or references to other Internet sites (“**hyperlinks**”) contained on the Site are provided by Qosina merely as a convenience to users of the Site, and Qosina is not responsible for the content or operation of any such linked sites. Any hyperlinks to such linked sites should in no way be construed as an endorsement, representation(s) or promotion by Qosina as to the content, representations, accuracy, products or services found or otherwise described in such linked sites. Use of these linked sites is done at your own risk.

Applicable Laws. The Site contains information about products that may or may not be available in any particular country, and if applicable, may have received approval or market clearance by a governmental regulatory body for different indications and restrictions in different countries. Each country has specific laws, regulations and medical practices governing the communication of medical or other information about medical products on the Internet. Nothing herein should be construed as a solicitation or promotion for any product or for an indication for any product, which is not authorized, by the laws and regulations of the country where the reader resides.

Copyright. All contents of the Site, including all documents, graphics, logos, images, sounds, or other binary files, are copyrighted by, and are the exclusive property of, Qosina. Permission to print or otherwise distribute all or a portion of the Site is granted, provided that (1) a legend is affixed to any copies so printed or distributed, that the information contained therein is the sole property of Qosina; (2) a copyright notice stating “Copyright © 2023 by Qosina Corp. All rights reserved.” appears on all copies; (3) the use of the information is for non-commercial or personal information use only; (4) the information is not modified in any manner; and (5) no graphics from the Site are used separately from the accompanying text.

Trademarks. All product names, trade names, servicenames, taglines, or logotype distinguished in form, text, or otherwise from surrounding text (e.g., all capital letters), (collectively, “**Marks**”) are trademarks owned by or licensed to Qosina unless otherwise noted. The Marks on the Site are variously protected by the laws of the United States and other countries of operation foreign to the United States. No use of any of these Marks may be made without the prior, written authorization of Qosina, except for the sole purpose of identifying the products or services originating from Qosina.

Submissions: No confidential relationship shall be established in the event that you make any oral, written, or electronic response to Qosina (e.g. feedback, questions, comments, suggestions or ideas). Qosina shall be free to reproduce, publish or otherwise use such information including any ideas, inventions, concepts, techniques or know-how disclosed therein, for any purpose including developing, manufacturing and/or marketing of goods or services. The sender of any information to Qosina is fully responsible for its content, including its truthfulness and accuracy.

III. GENERAL TERMS AND CONDITIONS

NOTWITHSTANDING ANY ORAL OR WRITTEN INFORMATION, OPINIONS, EVALUATIONS, CATALOG DESCRIPTIONS OR CONSULTATIONS OF ANY KIND FURNISHED BY QOSINA, YOU SPECIFICALLY AGREE THAT IT IS YOUR SOLE RESPONSIBILITY TO SELECT AND EVALUATE THE CORRECT PRODUCTS FOR USE IN YOUR APPLICATIONS. If a Product offered by Qosina is not as described, your sole remedy is to return it in unused condition pursuant to the Return Goods Policy. You agree to follow any instructions for use that accompany the Products.

In no event shall Qosina be liable to you or to any third party for any direct, incidental, indirect, special or consequential damages whatsoever (including, but not limited to, lost profits, business interruption, loss of programs or other data on your information system), even if Qosina has been advised, knew, or should have known of the possibility of such damages, arising out of or related to (i) your use of or reliance on the Site or Catalog, or any information, hyperlinks or content contained therein, (ii) your provision of information, personal or otherwise, to Qosina, (iii) the provision of Products or services by Qosina, (iv) acts or negligence on the part of Qosina, its agents or employees, or (v) your use of any Products. In purchasing Products or services from Qosina, you expressly release and discharge Qosina from all such causes of action or damages. Without limiting the foregoing, in no event shall Qosina be liable to you for more than the purchase price of any Products purchased by you from Qosina.

QOSINA DISCLAIMS AND EXCLUDES ALL WARRANTIES AND REPRESENTATIONS, EXPRESS, IMPLIED OR STATUTORY, WITH RESPECT TO THE SITE, THE CATALOG, THE PRODUCTS OR QOSINA'S SERVICES, OR WITH RESPECT TO THE ACCURACY, CURRENCY OR COMPLETENESS OF THE INFORMATION PROVIDED BY QOSINA, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT OF A PATENT, TRADEMARK OR OTHER INTELLECTUAL PROPERTY RIGHT. NO ADVICE OR INFORMATION GIVEN BY QOSINA, OR ITS EMPLOYEES SHALL CREATE ANY WARRANTY HEREUNDER. THE SITE AND CATALOG, INCLUDING, WITHOUT LIMITATION, ALL CONTENT, INFORMATION AND LINKS CONTAINED THEREIN, ARE PROVIDED "AS IS" AND "AS AVAILABLE" WITHOUT ANY WARRANTY THAT THEY WILL BE UNINTERRUPTED OR ERROR-FREE.

The TAC and any sales thereunder shall be governed by the laws of the State of New York, without regard to its conflict of laws rules. Any dispute relating in any way to your use of the Site or Catalog or any Product or services sold or distributed by Qosina shall be adjudicated in any state or federal court in New York County, New York, and you consent to exclusive jurisdiction and venue in such courts. If any portion of the TAC is held to be unenforceable, invalid or illegal by any court of competent jurisdiction, such unenforceable, invalid or illegal portions shall be deemed severable and not affect the remainder of the TAC. You hereby waive any and all rights to bring any claim or action against Qosina related to the Site, Catalog or TAC in any forum more than one (1) year after the date on which such claim arises.

Please e-mail Customer Service with any concerns regarding the Terms & Conditions or the content of this Catalog at info@qosina.com.

The Terms & Conditions was last updated on January 1, 2023

Last revised January 1, 2023

Qosina Corp. ("Qosina" or "we") respects your privacy rights and recognizes the importance of protecting your personal information ("PI"). This summary of our privacy notice ("Privacy Notice") summarizes our PI collection, use and disclosure practices. Our full Privacy Notice is available online at <https://www.qosina.com/privacy-policy>.

1. Application of our Privacy Notice

Our Privacy Notice applies to PI we collect in connection with:

- **Websites operated by Qosina ("Sites"):**

- www.qosina.com
- www.qosmedix.com
- www.b2b.qosmedix.com

- **Catalogs ("Catalogs") from:**

- Qosina
- Qosmedix

- **Our Newsletter**

- Our interaction with customers and potential customers and others, whether online, by phone, by mail, by e-mail in person or by other means, in connection with, among other things, inquiries, product orders, product fulfillment, shipping and delivery, customer service, invoicing, payment processing, sales visits, sales calls, and trade shows

2. How we collect PI

2.1 We may collect PI you voluntarily provide to Qosina, such as by:

- Visiting one of our Sites
- Creating an account
- Placing an order for products or services via our Sites, by mail, by e-mail, over the phone or in person
- Using one of our catalogs
- Filling in contact forms on our Sites asking for your queries or suggestions
- Interacting with our customer support team
- Subscribing to our monthly newsletter (whether through a Site or otherwise)
- Participating in contests or surveys
- Applying for a job
- Otherwise participating in activities we offer that might require information about you

2.2 We may also collect PI through automated processes, such as by:

- Cookies, web pixels, web beacons or other technologies we or others place via your Internet browser

3. PI we collect

The types of PI we collect include your name, company name, shipping/ mailing address, billing address, telephone number and e-mail address. TABLE 1 in our Privacy Notice outlines the categories of PI we collect.

4. How we use PI

We may use the PI we collect as shown in TABLE 1 in our Privacy Notice. This includes:

- **To perform a contract with you:** For example, where you have ordered or requested products or services from us, we use your contact details and payment information to process your order and deliver the products or services to you.
- **To communicate with you.** For example, we may contact you to respond to your inquiry or complaint. We may also contact you directly or through a third-party service provider regarding products or services you purchased from us, such as necessary transactional or service related communications. We may also contact you with offers for additional services we think you may find valuable if you give us consent, or where allowed based upon legitimate interests. These contacts may include via e-mail, text (SMS) messages, telephone calls or automated phone calls or text messages.
- **With your consent:** For example, where you have provided PI to us to complete a survey or access secured content. You may withdraw your consent at any time by contacting us at [info@qosina.com or info@qosmedix.com].
- **Our legitimate business interests:** For example, where it is necessary for us to understand our customers, enhance and promote our goods, products and services and operate effectively as an international distributor of various products. Our legitimate business interests may include creating and publicizing new products and services, and offering our customers a better experience. We may perform analytics as necessary to provide you with a tailored experience and so that we can improve, maintain and manage our products and services in a way that meets your expectations as a customer.
- **Compliance with law:** For example, where we are subject to a legal obligation and need to use your PI in order to comply with that obligation.

5. PI we disclose

We do not disclose your PI to third parties, except:

- To vendors, service providers and other entities with whom we have a business relationship to provide products and services for and on behalf of us, such as processing credit card payments, communicating with you, including by way of e-mail or survey delivery, or for customer relationship management. We restrict these third parties by contract from utilizing, sharing or retaining your PI for any purpose other than for which they have been contracted.
- To our affiliates, in connection with the purposes described in our Privacy Notice.
- To comply with law, rule regulation or legal process, such as in response to a subpoena.
- For the purpose of facilitating and allowing a merger, acquisition or sale of a business or all or substantially all of our assets, in which case the acquiring company should continue to utilize your PI in the manner for which it was provided and intended.

We currently use Nodus Technologies to process credit card orders. Note that when you enter your credit card information to make a purchase, you are redirected from our Sites to a Nodus Technologies controlled website. We do not collect any credit card information, and Nodus Technologies is responsible for that transaction.

6. Safeguarding your PI

We follow generally accepted standards to safeguard the PI we collect, both during transmission and once received and stored, including encryption where appropriate. PI you submit through the Sites is encrypted with secure server

software (SSL) that encodes the information before your browser software sends it to us. The SSL software decodes the data only after it reaches our server, meaning that your data will be encrypted were hackers to intercept it while in transit. Once it reaches our server, your PI will be protected by the same security software we use to safeguard our essential business data of similar nature.

7. PI Retention

We retain PI only for as long as necessary to provide the products or services you requested, and for additional periods where there are legitimate legal or business purposes, such as:

- When mandated by law, rule, regulation, contract or similar obligations applicable to our business operations
- For preserving, resolving, defending or enforcing our legal and contractual rights
- When needed to maintain adequate and accurate business and financial records

8. Rights Granted by Specific U.S. Data Protection Laws

- Certain data protection laws require that we disclose specific information regarding the categories of PI we collect, and may grant you rights with regard to that PI. They include:
- **California Privacy Rights Act (CPRA)**, Cal. Civ. Code § 1798.100, et seq.; the **California Online Privacy Protection Act (CalOPPA)**, Cal. Civ. Code §§ 22575 – 22579; and the **California Shine the Light Law**, Cal. Civ. Code § 1798.83, for consumers in California;
- **Nevada’s Act Regarding Security and Privacy of Personal Information (NSPPIA)**, NRS 603A.010 et seq., for consumers in Nevada;
- **Virginia Consumer Data Protection Act (VCDPA)**, VA Code Ann. § 59.1-571, et seq., for consumers in Virginia;
- **Colorado Privacy Act (CPA)**, Col. Rev. Stat. § 6-1-1301, et seq., for consumers in Colorado;
- **Utah Consumer Privacy Act (UCPA)**, Utah Code Ann. § 13-61-101 to 13-61-404, for consumers in Utah; and
- **Connecticut’s An Act Concerning Personal Data Privacy and Online Monitoring (CPDPA)**, CT Senate Bill No. 6, Public Act No. 22-15, for consumers in Connecticut.

8.1 Your Rights

As a California consumer under the CPRA, a Nevada consumer under the NSPPIA, a Virginia consumer under the VCDPA, a Colorado consumer under the CPA, a Utah consumer under the UCPA, or a Connecticut consumer under the CPDPA, you have certain rights which we have identified in our Privacy Notice. You may exercise your CPRA, NSPPIA, VCDPA, CPA, UCPA and CPCPA rights via your online account, or by e-mailing us at [info@qosina.com or info@qosmedix.com] or calling us at [631-242-3000 (Qosina) or 631-242-3270 (Qosmedix)]. If we reject your request, you may appeal that rejection by e-mailing us at [info@qosina.com or info@qosmedix.com]. In Colorado, you may contact the Colorado Attorney General if you have concerns about the result of an appeal, and in Virginia, you may contact the Virginia Attorney General to submit a complaint. We do not sell your PI. We do not process your PI for targeted advertising. We do not process your PI for profiling in furtherance of decisions that produce legal or similarly significant effects concerning the consumer. For purposes of the CPRA, we do not share your PI, and we do not use sensitive PI.

9 Non-US Residents and the European Union

Residents of other countries outside the United States, such as in the European Union, may have other rights. This section pertains to those individuals.

Except where we expressly acknowledge otherwise or we are required by law, we make no assurances or representations of any kind that the Sites or the products or services we offer are suitable for use in the country in which you reside. By accessing the Sites, establishing an account or making a purchase, you consent to the processing of your PI as provided in our Privacy Notice. You may withdraw that consent by contacting us at [info@qosina.com or info@qosmedix.com].

We may process PI in the United States (which has not received an adequacy decision from the European Commission) and in other jurisdictions. You are required to provide certain PI in order to open and maintain an account, or to order products or services. Your failure to provide such PI may preclude you from establishing an account or may subject your account to termination, and prohibit you from ordering any products or services. An account may be required to make certain types of online purchases, as a guest style checkout option is not always available across all of our Sites.

If at any point you believe the PI we process about you is incorrect, you may access your account and modify it there, or otherwise request to see the PI and to have it corrected or deleted by contacting us at [info@qosina.com or info@qosmedix.com]. If you wish to object to or raise a complaint on how we have handled your PI, you may contact our Data Protection Officer who will investigate the matter. You may also be able to receive a copy of your PI or have your PI transferred by contacting us at [info@qosina.com or info@qosmedix.com].

If you are not satisfied with our response or believe we are processing your PI not in accordance with law, you may complain to the data protection authority in your jurisdiction.

The data controller for PI collected pursuant to our Privacy Notice is Qosina Corp.

Our Data Protection Officer is Director of Information Technology, who may be contacted at [info@qosina.com or info@qosmedix.com].

10. Changes to Privacy Notice

We may update our Privacy Notice from time to time. We will indicate the last revision date at the top of the Privacy Notice. Your use of the Sites or your online account, or ordering products or services constitutes your acknowledgment of our Privacy Notice in effect at that time.

11. Contact us

You may reach us—
