OUR VISION

At Orgalife, we understand that modern nutrition is about returning to nature because this is the best solution to nourish and take care of comprehensive health for everyone.

Orgalife is the first choice for complete, specialized nutrition from nature. We research and apply breakthrough scientific nutrition solutions suitable for different stages of human development; step by step become an influential enterprise for the healthcare industry in the region and around the world.

OUR MISSION

Commit to gathering resources on investment and development of Orgalife Nutritional Science Research Institute in compliance with the international standards; gathering a team of leading, dedicated and experienced experts; strengthening the cooperation with prestigious international and domestic organizations, jointly research and develop high quality products applying the world's most modern technology.

Provide complete scientific nutrition solutions developed based on 3 platforms:

combined with an exhaustive comprehension of human needs at different stages of development in modern life.

OUR PRINCIPLES

Respect medical ethics standards and devotion; appreciate the sense of responsibility and ethics in all activities of research & development, testing and evaluation, production, sales and customer care.

OUR VALUE

Improve quality of life

Build a foundation of comprehensive physical and mental health in the community, bringing about miraculous changes in life, bringing true meaning to a healthy life.

Positive inspiration

Behind Orgalife's products are intangible values that help convey positive, optimistic inspirations for a healthy and happy life sustainably.

Understanding and empathizing

Understand and empathize with the needs of Vietnamese people regarding health issues and barriers they are facing; Orgalife longs to provide a complete source of nutrition, ensuring a solid health foundation to help them achieve their dreams and aspirations.
