

PHARMA SOLUTIONS

In healthcare today, patients need to feel like they can trust the medicinal products they use. That's why all of our compounds are derived from **100% natural, premium-quality botanicals**.

With all of the documentation necessary for **Active Pharmaceutical Ingredients (API's)** in medicinal products, we guarantee **our extracts comply with all the pharmaceutical sector regulations**.

Our standards for quality are the best in the world. Still, the new Hervás factory has tripled our production capacity, making us **world leaders in both quantity and quality of natural ingredients**.
