Turnkey Projects

Team

- ❖ **Product Development & Analytical Scientists - Research and Development**
- ❖ **Technical Experts - Quality Assurance, Quality Control, and Regulatory Affairs**
- ❖ **Executional Leaders - Project Management and Technology Transfer**
- ❖ **Commercial Experts - Business Development, Marketing, and Sales**

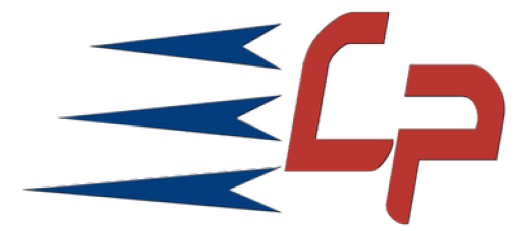

Value Proposition

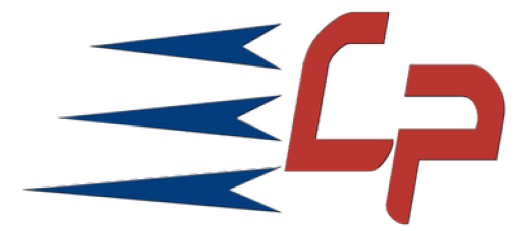

- ❖ Conduct product development at the lab scale, pilot plant, and scale up further to bulk manufacturing (gm → kg → MT)
- ❖ Provide an affordable setup of equipment and instruments to manufacture complex molecules on a turnkey basis
- ❖ Facilitate process technology transfers that are efficient, frugal, and environmentally friendly
- ❖ Support with experienced manpower that can match global standards for production and regulatory compliance

Strengths

- ❖ People, Processes, Products, and Projects as per client requirements
- ❖ Output that matches the best quality standards (local and global)
- ❖ In-house intellectual property evaluation team
- ❖ Completely integrated (KSM → Intermediate → API → FDF)
