

CLYDESDALE PHARMA LTD

"Our vision is to become the preferred partner with pharmaceutical companies, to deliver safer and reliable medicinal products."

WHO ARE WE

About us.

Clydesdale Pharma is a pharmaceutical company specialised in the distribution of Medical devices and Pharmaceutical products. Our headquarter is based in Hampshire, UK. We understand that the regulatory requirements can be very challenging, hence we also support our customers with our Specialised consulting team who can solve all our regulatory and quality issues under one service.

Our Experience

We have several years of experience in providing services in quality, regulatory, pharmacovigilance, and medical solutions to small, medium and large size pharmaceutical companies and recently we expanded our services to provide warehouse and distribution services to our customers.

COMPANY VALUES

To become the preferred partner in pharmaceutical sector to deliver safer and reliable medicinal products and services.

We are committed to delivering results you can trust, to consolidate our reputation for excellence.

We do what is right for our customers, communities and for each other; we understand and support the demands of our clients, the community and each other.

Patient safety is critical to us, that's why we keep our values between creativity, quality and excellence allowing us to deliver high quality services.

OUR STORY

CLYDESDALE PHARMA LTD Launched its own MAH and started supplying to NHS.

Extend our storage facility to Unit 5, Campbell Court.

Approval for the MIA/GMP to Unit 3 and 4, Campbell court including the testing laboratory and cold chain activities.

Extended our business to Unit-4 Campbell Court, Tadley, Hampshire and applied to MHRA for the approval of the MIA/GMP. - **CLYDESDALE PHARMA LTD**

Established our warehouse in Unit-3 and obtained the WDA – **CLYDESDALE PHARMA LTD**

Started our pharmaceutical consulting business to support Pharmacovigilance, regulatory and quality management services– **SIKDAR CONSULTING Ltd**

OUR STRATEGIC BUSINESS MODEL

01 Market Analysis and determine the prospective product in the target country

02 Compile dossier information, apply for the product license, provide response to the regulatory queries until approval.

03 Post Approval Regulatory support, including Pharmacovigilance support, Importation of goods, Batch testing and Batch release services.

04 Storage and Distribution of products across the country

WAREHOUSE FACILITIES

Our storage facilities are located in the ground floor of the Unit-3, unit 4 of Campbell Court. Currently we are waiting for the approval of new premise Unit 5.

Currently we are distributing medicinal products to our customers who are either pharmacies and wholesalers mostly based in the UK. Our catering services are performed either using our own temperature controlled vehicle or third party approved transportation services.

We are also exporting our products to outside of the UK – covering EU / South America / Africa / Middle east and Far east

LABORATORY FACILITIES

Clydesdale Pharma offers analytical laboratory testing including batch release for the finished pharmaceutical products. We provide these services through experienced and expert chemists/analyst and laboratory management. Ongoing investment in the people and equipment helps us keep ahead of the game, maintaining the highest levels of reliability and service.

Our turn around time is between **3-5** business days.

Within Clydesdale Pharma contract laboratory we can support you with the

- Routine quality control analysis of finish products
- Routine quality control analysis of raw materials
- Analytical method development

CONSULTING SERVICES – PV AND REGULATORY

We have over 120 years of cumulative global experience in PV, regulatory and QMS activities with top 10 pharma companies and large generic companies.

Currently our main customers are based in EU/Japan/US.

We are located in UK/BE/HU/NL/PT

We provide end to end regulatory services from pre approval to post approval. We also support with interim and permanent placement of staff within regulatory, PV and Quality domain.
