'Giving a delicious personality to Nature's flavours.'

DISCOVER FLAVAROMA

This is the philosophy behind our inception & endeavors. We started our journey in 1984, when the flavours & fragrance market for foods was still less explored as compared to its growing market. By carefully understanding the diversity of the human palette, we diligently worked towards creating an array of products ranging from flavours, natural oils, fragrances to delicious concentrates & emulsions that add both taste and value to the products of our clients.

We believe in the concept of delivering goodness to the world. That's why, we have FSSC 22000: 2010 certification, USFDA registration, CRISIL rating and Halal certification, to better cater to our global clientele. We have also imbibed a plethora of 'standardized practices' in our work culture, making us a world-class organization in our market segment.

We continue to build on this legacy, with the vision to ensure that every product of Flavaroma always **Tickles your Senses**.

A glass bottle of lemon essential oil is the central focus, filled with a clear, pale yellow liquid. The bottle has a simple, elegant design with a rounded body and a slightly tapered neck with a glass stopper. It sits on a light-colored, woven wicker mat. In the foreground, a single slice of fresh lemon is placed to the right of the bottle. In the background, another slice of lemon is visible on the left, and a small, unlit candle in a glass holder is positioned behind the bottle. The overall scene is bright and clean, with a soft, natural light that highlights the textures of the glass, the woven mat, and the fresh fruit. The text 'delivering relishing delights' is overlaid on the left side of the image, with 'relishing' in a larger, cursive font.

naturaroma

From Nature with love

Flavaroma always goes one step further to give you the best products. With Naturaroma the company has broken the mould in bringing you the purest form of natural products ever made by modern technology. The company has utilized its expertise of regional preferences and innovative technologies and amalgamated it with Flavaroma's cutting-edge infrastructure to create Naturaroma's extensive palette of natural flavours, extracts and oils in both liquid and powered form. Another unique aspect of this product range is that it can be tailored to work perfectly with water, and oil as required by your applicational needs. Naturaroma's array includes spicy, fruity, brown, minty and flowery notes that can be further customised to your needs.
