

LEADER IN OPHTHALMIC & NICHE APIs

C² PHARMA is a pharmaceutical group established in 2014. It manufactures and distributes active pharmaceutical ingredients (APIs) and complex chemical compounds obtained from synthetic and natural origins.

With our current API product portfolio, we reach more than 200 pharmaceutical companies across the United States, Western and Eastern Europe, South America, Asia, Middle-East and Africa.

C² PHARMA also offers customized cold-chain logistics solutions through its specialized affiliate Logistics4Pharma, as well as R&D-scale contract synthesis services, analytical services, phytochemical profiling and impurities manufacturing through its affiliate ASM Research Chemicals.

OUR R&D PIPELINE

TECH TRANSFER

Oxybuprocaine Hydrochloride
Naphazoline Hydrochloride
Brinzolamide
Timolol Maleate
Dorzolamide

DEVELOPMENT

Alcaftadine
Apraclonidine
Bespostatine Besylate
Epinastine Hydrochloride
Fluorescein
Indocyanine Green
Loteprednol Etabonate
Netarsudil
Proparacaine Hydrochloride
Tetracaine

FEASIBILITY

Betaxolol
Brilliant Blue G
Cromolyn Sodium
Difluprednate
Fluorometholone Acetate
Fusidic Acid
Gentamicin Sulfate
Ketorolac
Lodoxamide Tromethamine
Nedocromil Sodium
Olopatadine
Tafluprost
Tobramycin
Travoprost
Triamcinolone Acetonide
Trifluridine

OUR AFFILIATES

ASM Research Chemicals delivers contract research and development services to pharmaceutical and chemical companies worldwide. The range of services includes process development for organic compounds, phytochemicals extraction, non-GMP custom synthesis from milligram to kilo scale, analytical development and testing services as well as sourcing services.
