

Actylis is a leading manufacturer of critical raw materials and performance ingredients serving Life Sciences, Specialty Chemicals, and AgriScience.

The Partner of Choice

The Partner of Choice

We offer custom solutions through a rapidly growing portfolio of GMP and non-GMP facilities worldwide, and further choice through a unique hybrid option blending manufacturing and global sourcing.

With more than 75 years of experience, we bring in-depth knowledge in every segment. Our teams seamlessly engage with customers, ensuring an intimate understanding of their individual needs, and delivery of the most efficient, innovative solutions.

Our products are backed by world-class quality, reliable delivery, and a strong regulatory record, which is another key component of the trusted partnerships we build with customers, supporting rapid commercialization and uninterrupted supply of finished products.

Manufacturing Portfolio

Actylis has a growing global portfolio of manufacturing sites led by experienced teams. They feature state-of-the-art technology and equipment, industry-leading quality systems, and excellent regulatory performance.
