

EXCELLENCE IN FIXED COMBINATIONS

Unigel™

Each day, patients and consumers are becoming more demanding when it comes to taking their medications and/or supplements on a Pill format. Sofgen's technology, Unigel™, is the perfect innovative solution for these necessities, providing a

capsule that can attend different patient and consumer needs in one with top-notch formulations. With this technology, your brand can reach new markets faster weather by adding new products to your portfolio or enhancing an existing line.

Unigel™ is a **first-to-market patented technology** that allows the combination of different active ingredients in a single capsule.

What's the Unigel™ approach?

A fixed-dose combination therapy (polypill strategy) as an approach to reduce the burden of certain chronic diseases allowing patients to achieve adherence to different treatments versus those received conventionally (taking drugs separately).

A REVOLUTIONARY FORMAT WITH A VARIETY OF BENEFITS:

- ✓ Different Release Profiles available
- 🧪 Permits the combination of different API's (solids and liquids)
- 🌀 Combines multiple purpose ingredients in one form
- 🌿 Different Gelatin Formulations/Suitable for vegetarian and/or Vegan diets
- 👁️ Clear look inside the capsule/ Physically Appealing

With Unigel™ **the perceived value is guaranteed** since concepts like separation can be perceived by patients and more importantly, they receive it in a preferred dosage form option: **A Softgel.**

This technology understands patients' requirements, but also offers them the **quality, regulatory expertise, time and cost effectiveness they deserve.**

Pharmaceutical formulas available in Unigel™

Atorvastatin 20 mg
Omega 3 840 mg

Rosuvastatin 10 mg
Fenofibric acid 135 mg

unigel™
by Procaps

All in One: Effective and Convenient technology for Multipurpose products

Wish you could have a supplement that takes care of 2 different nutritional concerns at the same time? With Unigel™ you can!

Unigel™ Technology is specialized in the development of multipurpose products. Our products are able to offer **multiple functions inside a consumer's body**. We take into consideration consumer's nutritional and health needs and mix it with impactful ingredients and an innovative technology, offering better absorption and a smart delivery of the premium ingredients inside the technology.

Whether your brand is looking to formulate new products or enhance an existing line, **Unigel™ has the right combination to help you bring improved products to market faster.**

UNIGEL™ Supplement line: More benefits in one technology
