UNIGEL™ The Smart Softgel

As consumers become more knowledgeable and demanding on the different delivery formats available, **the stakes for creating the next super pill increases.**

Softigel aims to deliver **effective solutions** to brands and consumers through Unigel™, the new smart softgel which lets **multi-functional ingredients exist in one single dose.**

Unigel™: The Smart Softgel

BACKGROUND

Consumers are **prioritizing their health more than before**, taking preventative healthcare measures. However, while **the intention to eat more nutritious food and do enough physical exercise is high**, **lack of time, energy and money** is preventing them from doing so.

This is leading to a **growing demand for quick and convenient solutions**, which **enables them to better control their nutrition**.

OPPORTUNITIES

FAST-PACED LIFESTYLE SOLUTIONS

Consumers are embracing these **instant fixes** as they offer them **enhanced wellbeing** while continuing with **their fast-paced lifestyles**.

NEED FOR DISRUPTIVE FORMATS

There is **a gap in the market** for many more **disruptive formats** given consumer interest. The goal is **developing more engaging formats** to maintain interest and drive engagement.

MAGIC PILL

Brands are starting to move in direction of **products with stacked benefits**. Consumers are looking for a **Magic Pill** with **multiple benefits**. They have lofty expectations of their ideal supplement.

THE EUREKA IDEA?

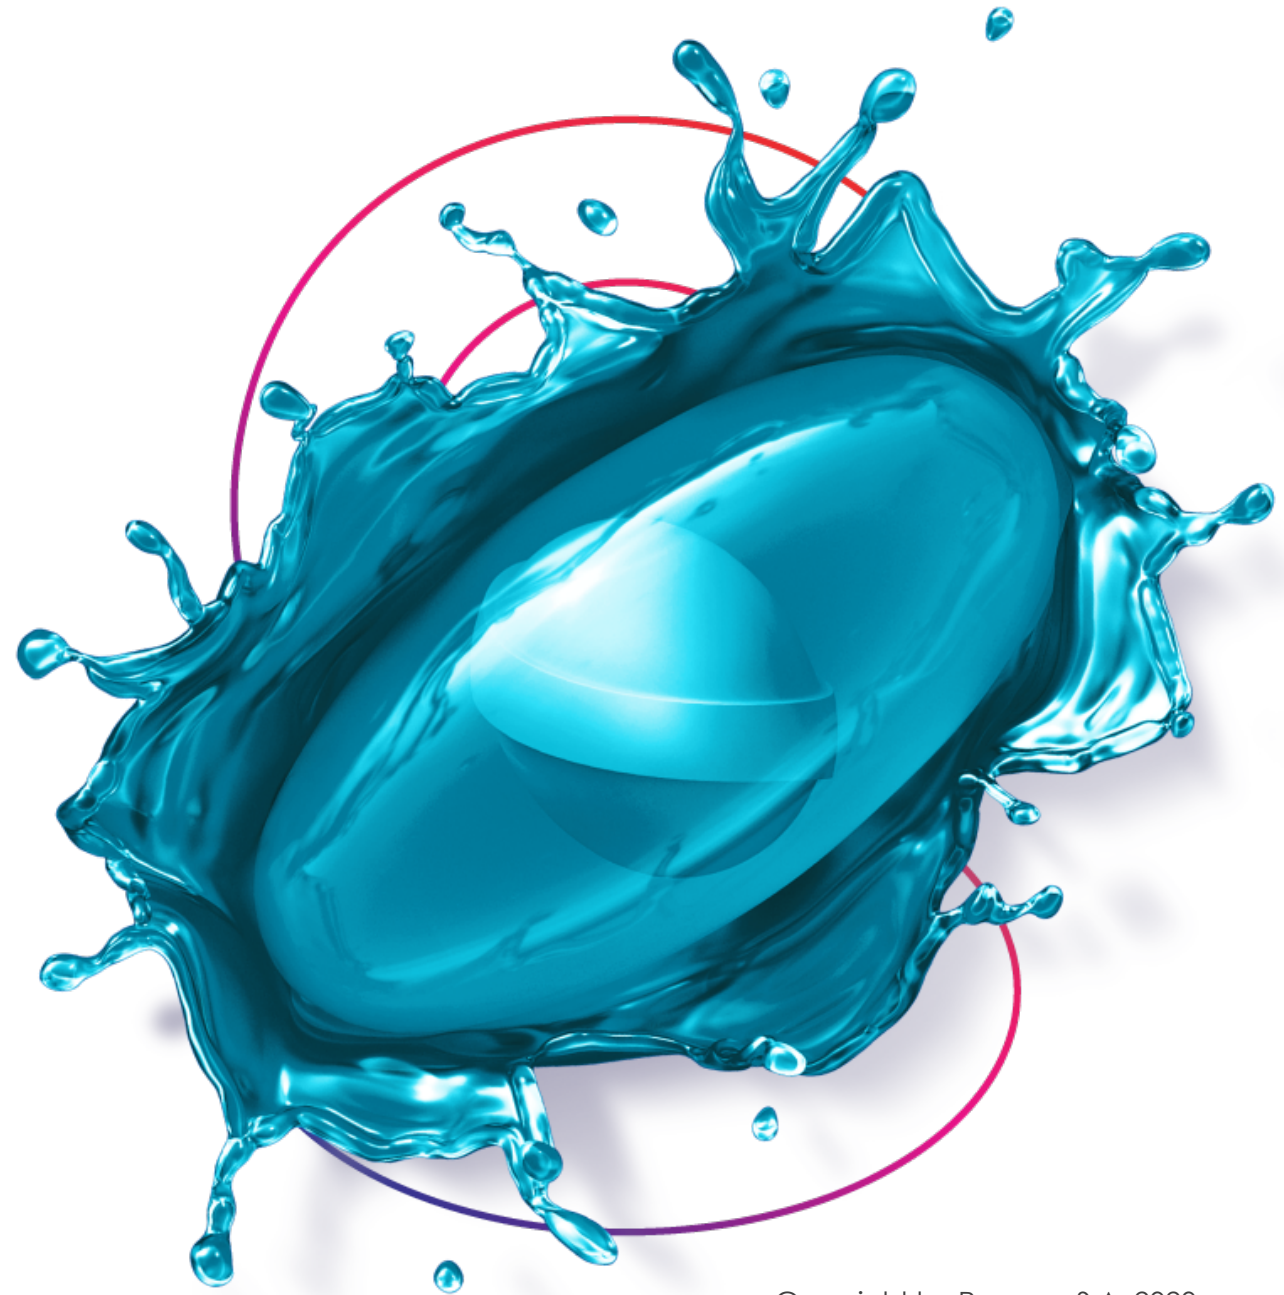

How was **Unigel™** created?

Innovation is the heart of our business!

While trying to combine **two different API's that were not compatible in a tablet dosage form**, we **formulated a barrier avoiding permeation** from the liquid phase into the tablet core, without affecting the dissolution rate of the API contained in this dosage form, **encapsulating a smaller tablet into a soft gelatin capsule**.

When encapsulating the tablet into a softgel a **new system had to be designed**, a machine that had the ability to fill the soft gelatin capsule with the liquid and the covered tablet at the same time.

This new technology became the base of the new groundbreaking Unigel™ technology.

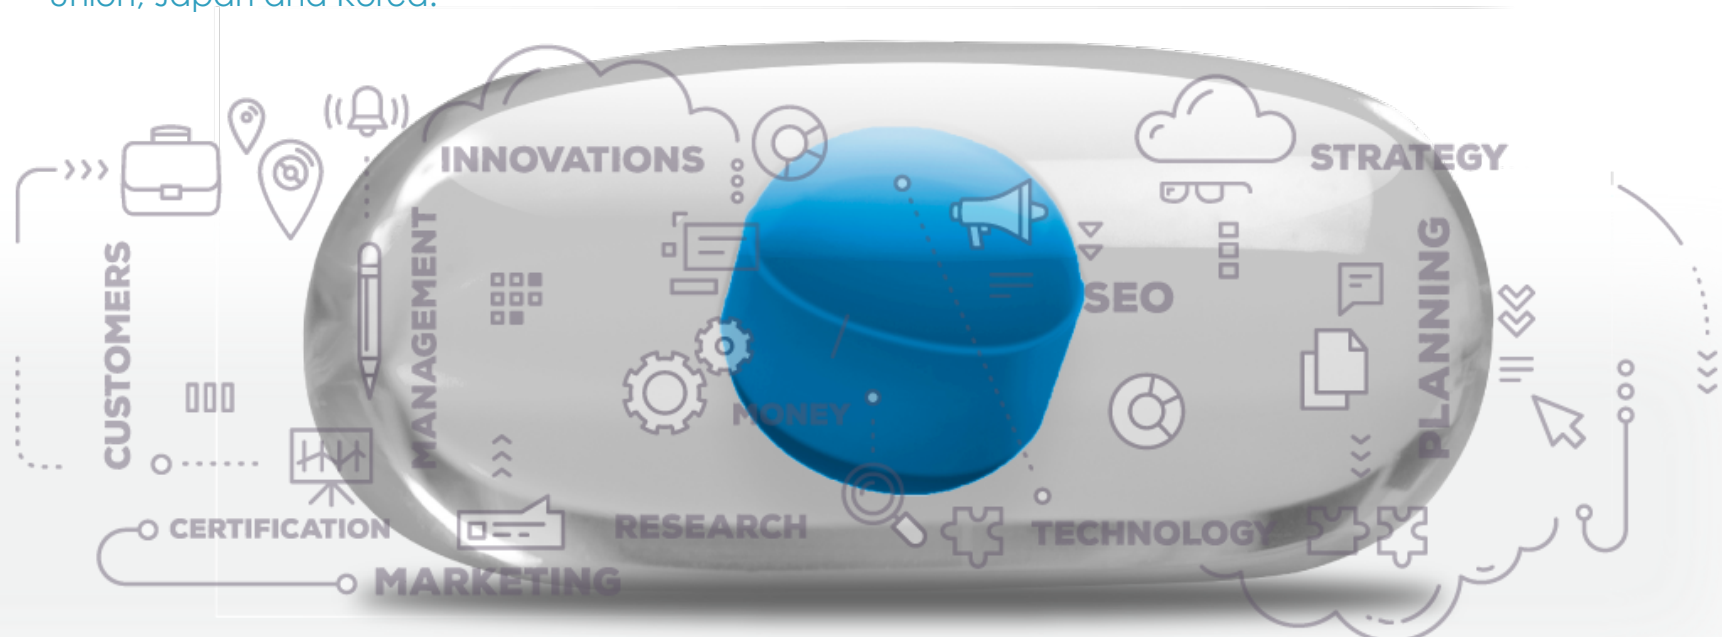

UNIGEL™ TAKES YOUR BRAND to a whole new level

Unigel™, a first-to-market Technology Is Ideal for Organizations who want their consumers to have **simplicity and effectiveness backed by technology and expertise** when taking their meds and supplements.

This revolutionary form provides **different configurations for fixed-dose combinations**, such as a **softgel within a softgel**, **one or two tablets within a softgel**, **granules within a softgel**, or any combination of these to address challenges of **multi-active formulations**, offering **unique prescription, OTC and nutraceutical products**.

Unigel™ US Patent No. 8,967,989B2 is also patented in Colombia, The European Union, Japan and Korea.

WHAT EXCITES us about Unigel™?

Clear look inside the capsule/ **Physically** Appealing

Different **Release Profiles** available

Combines **multiple purpose ingredients** in one form

Different **Gelatin Formulations**/Suitable for **vegetarian** and/or **Vegan diets**

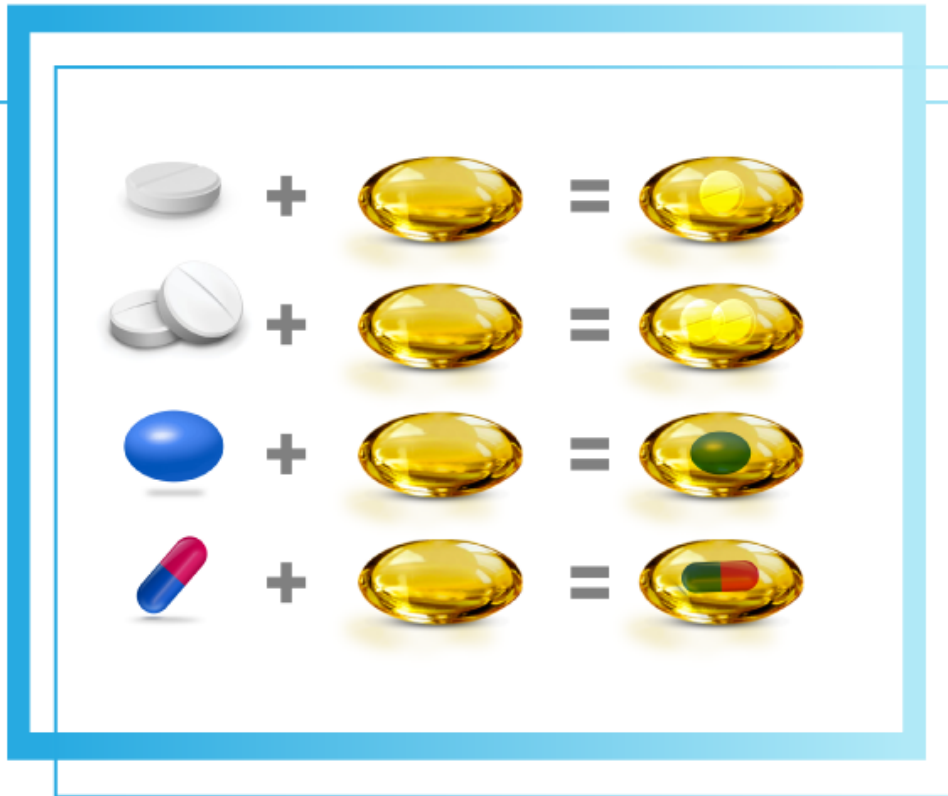

Improves patient/Consumers convenience and compliance

Diversifies Portfolio/Enables **Brand Differentiation**

Inside the SMART SOFTGEL

One of the different advantages of Unigel™ is that allows you to **include different formats within a Softgel:**

- One or Two tablets
- Softgel
- Hard capsule with Granules

Unigel™ also lets you combine liquid ingredients one being **dark and thick**, and the other **clear**. In a regular or traditional softgel, the result would be a **dark or opaque product**.

With Unigel™ this can be solved by **placing the dark thick liquid** in an **inner smaller softgel** and leaving the clear liquid for the **outer softgel**.

A SMART SOFTGEL

with Smart Products

Unigel™ Technology is specialized in the development of **multipurpose products**. Our products are able to offer **multiple functions inside consumer's body**. We take into consideration consumer's **nutritional and health needs** and mix it with **impactful ingredients and an innovative technology**, offering **better absorption** and a smart delivery of the premium ingredients inside the technology.

Whether you're looking to formulate new products or enhance an existing line, Unigel has **the right combination to help you bring improved products to market faster**.

With Unigel™ you can combine
POWERFUL INGREDIENTS
in a liquid and Solid Phase

Unigel™: The Smart Softgel

Liquid Phase:

- CLA
- OMEGA-3
- Cannabidiol (CBD)
- Borage Oil
- Evening Primerose Oil
- Argan Oil
- Olive Oil
- Avocado Oil
- Chia Oil
- Flaxseed Oil
- Ibuprofen

Solid Phase:

- Vitamins
- Minerals
- Alpha Lipoic Acid
- Botanical Extracts
- Aminoacids
- Caffeine
- CoQ10
- Hyaluronic Acid
- Biotine
- Collagen
