

We are **Sofgen** PHARMACEUTICALS

An integrated CDMO that offers end-to-end solutions, from development throughout delivery in innovative Softgel technologies for pharma and healthcare companies interested in launching novel products within North America and other high regulated markets.

We are part of Procaps Group,

a developer and manufacturer of pharmaceutical and nutraceutical solutions that reach more than 50 countries within all five continents as well as a direct presence in 13 countries in Latin America.

Our purpose

Our purpose is to provide an unparalleled experience with reliable development manufacturing services and niche proprietary products, innovation in technologies, contributing to health and well-being of consumers and patients in key markets.

Other services:

R&D: In-depth knowledge on development services, our experts are driven by science and technology that can solve any formulation challenges.

Laboratory: Developing precise analytical methods and delivering unmatched quality in routine analytics.

Bottling: Our team of engineers offer comprehensive services based on cost, flexibility and customer experience.

Warehouse: Specialized warehouses and store facilities for various pharmaceutical products, including temperature-controlled.

At CPhE we have proven expertise in:

1

Research in advanced delivery technologies.

2

End to end solutions for new softgel technologies/ fast track development.

3

Specialized in complex oral modalities and differentiated manufacturing technologies.

4

Preclinical and clinical development for new molecular entities.

5

Specialized and dedicated facilities for handling hormonal substances.

Our revolutionary technologies

Softgels: Superior delivery systems with wide range applications. Consumer preferred dosage form.

Chewgels™: Chewable softgel capsules that can serve as a solution and line extension to new existing products.

Unigel™: Oral dosage form design to combine multiple delivery systems such as tablets, capsules, microgranules or hard capsules into one single soft gelatin capsule.

Versagel™: Plant-based soft gelatin capsules, free from animal derivatives.

G-tabs™: Tablets coated with one or two-toned color gelatin, printed or not printed.

Vaogels: Vaginal ovule or insert designed to facilitate retention of the product in the vagina and availability of the active ingredient in a site-specific manner.

Twistgels: A soft gelatin capsule with a twist-off cap that allows access to a measured dose for topical and/or oral applications.

Stripegels: A completely customizable and physically appealing softgel capsule that ensures a new customer experience.
