

**EMERGING SYNTHESIS
WITH STRONG BONDING**

Spectrasynth Pharmachem

Is a CRAMS based R&D services provider & Leading Manufacturer/Suppliers of Impurities, Intermediates, Active pharma molecules development services in INDIA & Worldwide Regions

Brief Overview :-

- ➔ Spectrasynth is Reliable, Trusted contract research organization for Custom Synthesis of Impurities/Inhouse standards. having Own Independent manufacturing facility Area 2000 Sq. ft in Ahmedabad Bakrol GIDC started in 2022
- ➔ We are focussing on custom synthesis, CRAM Services, Impurity Profiling and Process Development of Pharmaceutical & chemical projects.
- ➔ Our organization approach enables us to forge client relationships that move beyond the traditional service outsourcing model into true end-to-end collaborations due to our strength of synthesis and commitment to project delivery.
- ➔ We are specialized in manufacturing Impurities & Intermediates process development as per customer requirement.
- ➔ Experience R&D team having Specialty to synthesis typical molecules like Trimmer, Dimer, Isomer. Also, our strength for Isolation & characterization of unknown impurities helps of Prep HPLC & also supplier of Inhouse standards As per pharmacopoeia/ method with characterization data.
- ➔ Our organization totally reliable on own manufacturing strength with best Quality Material; Also will provide support in all technical aspects to our customer.
- ➔ We are ready to work on project of impurities for our customer upcoming requirements with tie-ups to save time & costing
- ➔ We are committed to building a mutually rewarding business relationship with both national and international with our strong manufacturing competence; its committed team and its continuous pursuit of total quality are all focussed on further expanding our large base of satisfied clients and fulfilling its objective of becoming a leading world player in the pharmaceutical industry.

Vision :-

A vision statement for a organization focuses on the potential inherent in the company's future, A Spectrasynth goal is to attain total client achievement by rewarding all needs of the customers through wonderful technological know-how, a variety of administrative talents and new accurate solutions so as to become a leading supplier of Impurities. Spectrasynth strongly believes that, a business not only needs to make consistent profits, it also needs to earn the trust and respect of all business associates, apart from technology, customer satisfaction is our real asset for our future. It is not just for selling our products, it is beyond chemistry and driven by values.

Mission :-

A strong mission we bring with our strength of into focus for our organisation. So it is Similarly, a well thought of mission statement also gives glimpses to the clients as to how our company will achieve want it has envisioned. The company is a high believer in moral values, trust, ethics and transparency in its working. We believe that by assimilating moral integrity into our company's culture, we would truly achieve new heights of growth.

R&D Services :-

- ➔ Custom Synthesis with column chromatography, separation-Isolation, TLC Techniques
- ➔ Custom Synthesis of Complex Organic Molecules
- ➔ Custom synthesis of System Suitability material as per pharmacopoeia
- ➔ Custom Synthesis of Non-pharmacopoeia/ unknown molecules
- ➔ Preparative Isolation & Purification of known & unknown molecules
- ➔ Pharmacopoeia/ Reference standards/Inhouse standards with characterization data
- ➔ Identification, Isolation and Structure Elucidation of Unknown Impurities
- ➔ Process Developments of New molecules/Intermediates & we can supply in Gram & Kg scale with COA & Analytical data

Analytical Testing :-

- ➔ Analytical Testing of Impurities by Pharmacopoeial / Inhouse method.
- ➔ Development of Analytical Methods for unknown impurities.
- ➔ Isolation & method development of non-Pharmacopoeia / unidentified impurities .
- ➔ Developing Isolation Methods for Unknown impurities by Preparative HPLC .
- ➔ Developing Analytical methods of unknown compounds .
- ➔ Impurities Supplied with characterization data as below:

- Certificate of Analysis (COA)
- Structure Elucidation Report (SER)
- Infrared Spectroscopy (IR)
- ¹H-NMR
- C13 NMR (As per requirement)
- Mass Spectroscopy
- Purity By HPLC/GC
- Thermogravimetric analysis (TGA-as per requirement)
- Potency

📍 34, Shivbhumi Industrial Estate Vibhag-1,
