|--------------|--------------------------------------|------------------------|------|-----------------------------------|-------------|----------------------------|
| | | Filled (mm) | Cap | Body | Cap | |
| 0 | 21.4 | 10.7 | 18.5 | 7.63 - 7.69 | 7.31 - 7.37 | 96 |
| 1 | 19.3 | 9.8 | 16.6 | 6.90 - 6.96 | 6.60 - 6.66 | 76 |
| 2 | 17.8 | 9.0 | 15.3 | 6.34 - 6.40 | 6.05 - 6.11 | 63 |
| 3 | 15.8 | 8.1 | 13.6 | 5.83 - 5.89 | 5.32 - 5.38 | 51 |
| 4 | 14.2 | 7.4 | 12.2 | 5.32 | 5.02 | 40 |

| Capsule Size | VOLUME IN CC | CAPACITY IN MG | | | |
|--------------|--------------|----------------|----------|----------|----------|
| | | POWDER DENSITY | | | |
| | | 0.6g/ cc | 0.8g/ cc | 1.0g/ cc | 1.2g/ cc |
| 0 | 0.68 | 480 | 544 | 680 | 816 |
| 1 | 0.50 | 300 | 400 | 500 | 600 |
| 2 | 0.37 | 222 | 296 | 370 | 444 |
| 3 | 0.30 | 180 | 240 | 300 | 360 |
| 4 | 0.23 | 120 | 160 | 200 | 240 |

TECHNOLOGY

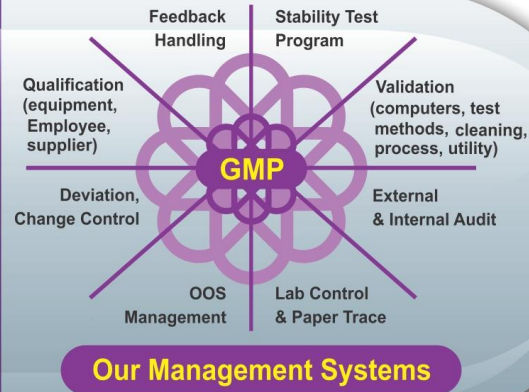

Our entire manufacturing process is automatic and each batch is controlled for quality at every step of the manufacturing process. This is to ensure the uniformity of the product and the absolute requirement of the standards.

State-of-art technology has been imported including equipments to standardize the process and parameters to keep them in strict control. Our capsules have the ability to run smoothly on all types of high speed filling machines.

OUR QUALITY

Our Quality is monitored with SOP designed as per ASEAN PIC/S. guideline. We are committed in creating a value for our customers through diligent and constant efforts that are focused on improving our processes and quality management systems. Our Quality Compliance department is responsible for ensuring 'zero-defect' capsules by following internationally accepted measures:

- TPAM, 5S, Jishu Hozen across production lines
- Six Sigma, for process control over product control
- Stringent in-process quality checks
- Statistical sampling and testing
- Extensive and robust R&D

MATERIAL :

In Order to ensure supply of quality products to the customer, right kind of materials are procured from the right source. The principal raw material GELATIN (HALAL) involved EDQM certified TSE/BSE free and colorants from approved suppliers.

All in coming raw material are subject to rigorous test for chemical and microbiological compliance and FDA approved.
