

MDI Canisters

Sizes: 14, 17 and 19 ml

Materials: Aluminium or stainless steel

Surface: Plain or coated

Pressteck is a specialist for the production of deep-drawn MDI canisters made of stainless steel or aluminium. We can offer them in all standard sizes and in different surface conditions.

Our MDI canisters comply with all relevant standards. The production is certified for ISO 9001, 14001 and 15378. Furthermore, we work in accordance to the cGMP rules.

With our dedicated and state-of-the-art production lines, we keep a continuous high level of quality with tightest tolerances to ensure the efficient API filling and assembly processes at the customer's facilities.

Combining our long-standing experience and technical knowhow with a profound philosophy of customer service, we are a strategic partner to some of the world's leading pharmaceutical companies.

Other deep-drawn components for medical use

MDI canisters are one of many applications of the deep-drawing technology in the medical sector. Pressteck has a broad range of deep drawing presses as well as secondary operations in order to custom manufacture to your needs.
