

**PROGRESSIVE  
PACKAGING  
SOLUTIONS**

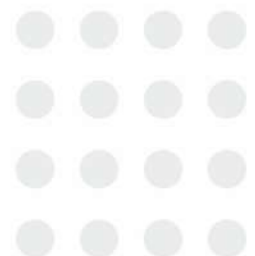

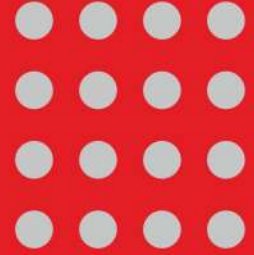

## A PROGRESSIVE **Vision**

To be world-class, dependable partner of packaging solutions for Pharmaceutical and Food industries across the globe.

## A PROGRESSIVE **Mission**

- To deliver world-class products and services
- To uphold highest ethos of trust and transparency in every dealing
- To continually improve products, services and solutions
- To remain market sensitive and fulfill every need by exceeding expectations

# A PROGRESSIVE PIONEER

## In the world of Pharmaceutical Primary Packaging

"Quality and Regulatory" aspect of Pharmaceutical Primary Packaging material is always dynamic. However, in recent past years it has grown more than ever before and since 1997, we have been at the helm of fulfilling this requirement utilizing our expertise, experience and progressive processes.

Our journey is rooted in the AMRUT group, a conglomerate of diverse ventures ranging from Submersible Pumps, Woven Sack Bags to Synthetic and Cotton Yarn manufacturing, based out of Gujarat. AMRUT group is also engaged in mining, construction and real estate business. With this vast experience of the group as pedestal, Green Pack Foils Pvt. Ltd. immediately established itself in the market as a professional company with niche packaging prowess for sectors specific to Pharmaceuticals, Food and Dairy.

Today, Green Pack Foils Pvt. Ltd. is a company accredited to developing several path breaking innovations and structures in the Pharmaceutical industries primary packaging material area. We constantly strive to create solutions to fulfill the present and future requirements of Primary Packaging Material that are exceptional in quality and conscious in sustainability. We enjoy a patronage of Our clients from India, UK, USA, Canada, Australia, Europe, Middle East, Far East and African countries.

Quality is the driving force behind our endeavors and is imbued in each and every aspect of our manufacturing process by adopting and practicing world's renowned ISO 9001:2015 and ISO 15378:2017 Quality Management Systems.

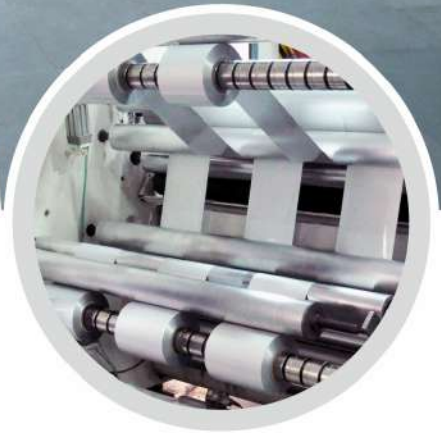

# A PROGRESSIVE PRODUCTION PROWESS

## To meet and exceed market demands

Our promise of delivering high quality products begins from our world class infrastructure, that is spread across an area of 60570 Sq. Ft. This lean set-up is outfitted with the best & the latest technologies & equipment, allowing us to have a scalable production capacity of 300 MT/Month.

Our manufacturing process includes working on a variety of foils, films, adhesives, coatings and printing inks to meet the diverse market needs. These materials conform to all the statutory and regulatory requirements. All our products are having active USFDA and Health Canada DMF numbers.

One of the keynotes of our manufacturing facility is our keen attention to cleanliness. We understand that hygiene is a precursor to high quality packaging, especially when it comes to Primary Packaging Material (PPM) for medicinal products. And to maintain the utmost standards of hygiene, we have designed our infrastructure as per international standards, along with the latest AHU for clean air. Every floor professional follows the utmost standards as well, including wearing protective clean gear, to ensure that there is no human breach of cleanliness.

## A PROGRESSIVE PROMISE

### To uphold extraordinary standards

'Quality' of our product is ensured through strict 'Process Control' measures and verified by checking at different production process stages of the material.

In this way, we are able to uphold the promise of quality, at every level of our business, without compromise. To ensure consistent quality, we have successfully adopted ISO 9001:2015 and ISO 15378:2017 QMS and constantly upgrade its protocols to remain up-to-date with its requirements. We have also developed several internal systems to avoid product contaminations or mix-ups, which in turn gives us exceptional turnaround times from receipt of work order to delivery.

Helping us keep our promise of quality intact is our in-house laboratory, that performs all the required tests diligently and keeps our processes updated as per the latest standards. Experienced quality managers perform personal checks on products and generate stage-wise reports to ensure traceability of products.

By staying true to our commitment towards quality, we have garnered the unwavering trust of our clients, and have become the preferred supplier of progressive packaging solutions to some of the most elite names in the industry.

## OUR PRODUCT RANGE

**Aluminium Blister Lidding Foil**  
(DMF 23471)

**Child-resistant &  
Senior-friendly Blister Foil**  
(DMF 25077)

**Aluminium Strip Foil**  
(DMF 23470)

**Tropical Blister Foil**

**Cold Forming Blister Foil**  
(ALU ALU/CFB)  
(DMF 27450)

**Laminates for Suppositories**  
Peelable or Sealable

**3 Ply Laminates & Pouches**  
(PET/ALU.FOIL/PE)  
(DMF 27449)

**4 Ply Laminates**  
(PAPER/PE/ALU.FOIL/PE)

**Lidding Foil for  
Dairy & Food**
