ARNICA
cream

arnica montana

Arnica Cream

Soothing Cream
for muscle pains, oedema,
bruises and stings.

Rich in Arnica Montana Extract,
Chamomilla Oil, Peppermint Oil, Zea Mays Oil,
for face and body.

Adelco Arnica Cream is a face and body cream with soothing, moisturizing properties and rich texture. Relieves from injuries, physical and muscular strain, intense sports activity, sprains and insect bites. Soothes and reduces bruising, swelling and irritations.

Its unique composition is enriched with *Arnica Montana extract*, a herb that is known since antiquity for the treatment and relief of swellings, bruises and irritations.

Contains *Chamomilla Oil* which has strong analgesic and antiseptic properties that effectively reduce pain in distressed muscles and sore joints, while *Peppermint Oil* after topical application relieves from itching and muscle pain.

USE: The affected skin area should be first cleaned with a mild cleanser and then apply the cream. The product should not be used on open wounds.

After application, it is recommended that the cream remain on the skin area for next 2 - 3 hours, in order to achieve the maximum effect. A gentle massage is recommended in the affected area

Medical device

Dermatologically tested

Burn Cream

Protective Burn Cream from heat, sun, irritation and peeling.

Rich in Calendula, Hypericum Extracts,
Tea Tree Oil, Lavender Oil, Mentha Oil,
for face and body.

Adelco Burn Protection Cream with soothing action treats effectively exfoliation, swelling and itching due to burns (thermal, chemical, solar), as well as irritations after depilation, shaving or peeling. It helps to regenerate the skin after cosmetic surgery, laser or dermatological exfoliation.

Its rich composition contains a combination of active natural ingredients from *Calendula*, *Hypericum Extracts*, *Tea Tree Oil*, *Lavender Oil*, *Mentha Oil* that enhances the topical anti-irritant and soothing effect of the cream on the skin. At the same time, it moisturizes and soothes dehydrated and irritated skin.

USE: Use the cream up to three times a day for as long as necessary. If the symptoms persist for more than a week, a health care professional should be consulted. Clean the affected skin area with a mild and gentle cleansing product. Then spread the cream on the irritated skin. It is recommended to avoid spreading on open wounds or deep abrasions.

After application you should not remove the product to achieve better result. Otherwise, you will need to re-apply.

calendula

Hemorrhoid Cream

Soothing Cream for Hemorrhoids relieves from swelling, itching, irritation and pain.

Rich in Calendula, Hypericum Extracts, Chamomilla Oil, Cypress Oil, Lavender Oil, Frankincense Oil.

The Soothing Hemorrhoid Cream by Adelco with astringent effect, helps to increase blood flow around the hemorrhoids and reduce pain in the anal area.

It effectively treats swelling and itching caused by hemorrhoids even in the presence of anal fissures. It is indicated for the prevention in cases such as constipation, diarrhea, malnutrition and lifestyle that can cause irritation or congestion of the anal and perianal area, as well as prevent irritations due to friction.

Its rich composition contains a combination of active natural ingredients from *Calendula*, *Hypericum Extracts*, *Chamomilla Oil*, *Cypress Oil*, *Lavender Oil*, *Boswellia/Frankincense Oil* that enhance the antiseptic, healing and soothing effect of the cream in the anal area.

USE: Clean the anal area with a mild cleanser and apply the cream with light massages. Apply a sufficient amount of cream to cover the affected anal area. The product should not be removed for the next 2-3 hours. Otherwise repeat the application. Use the product 2-3 times a day. To prevent irritation due to friction, the cream must be applied before bowel movements and definitely after defecating in the toilet. After use, thoroughly clean the mouth of the bottle with warm soapy water. The bottle must be tightly closed.
