

### MEDICAL PLANTS Quality Cannabis

### Who we are

Medical Plants is an EU-GMP certified supplier of medical grade cannabis flower.

Our high-quality products are used as pharmaceutical raw materials and active pharmaceutical ingredients (APIs).

We provide the highest level of quality, standardization, and traceability that medicinal cannabis requires.

### Strategic location

Located in Almeria (Spain) - the area with the greatest hours of sunlight in Europe - a crucial factor for cannabis-growing.

Medical Plants has already adapted 2.400 m<sup>2</sup> of the **7 hectares of available greenhouses** for cannabis cultivation.

### Medical Cannabis, Patients-first

Manufacturing and **regulatory practices** to satisfy patients, regulators, and healthcare professionals.

We provide the highest quality medicinal cannabis to improve lives.

### **Quality Assurance**

Facilities, utilities, procedures and personnel conceived from design to support a fully GACP/GMP-compliant cannabis production process - from clone to dried flower.

### **Controlled Substances Security**

- Surveillance 24x7x365

### **Mother Plants Area**

## Ongoing clone production under strict conditions.

Pest control and continuous morphology tracking

#### **Germination Room**

As a crucial part of the cultivation process, this stage occurs under strict **controlled conditions** of moisture, warmth, light and CO2 to germinate.

### Propagation and Cultivation Greenhouses

Class leading automated systems for control and monitoring of RH, temperature, radiation and watering.

Blackout and complementary lighting systems allow continuous **production throughout the year.** 

### **Trimming Area**

Fully GMP-compliant area, with capacity for processing 2 Hectares of plants.

Our trimming process ensures the highest quality and most aesthetically-pleasing final product.

### Quality Control Laboratory

In-house quality laboratory, fully equipped for the analysis of intermediates, final products and in-process controls.

#### A Team to Trust

Our highly-skilled team combines expert growers and personnel with a strong pharmaceutical background.

Driven to deliver the highest-quality cannabis flowers in compliance with all current legal and regulatory requirements.

#### **Our History & Future**

# Why partner with us

**Strategic European location** in Almeria (Spain).

**EU GMP** standards for dry flower production.

**Spain - well-defined regulatory** framework for the medicinal cannabis market.

Favorable **cost** structure.

Established **greenhouse capacity** with ability to rapidly expand.

Talented team combining expert growers and pharmaceutical background personnel.

**Open to strategic agreements** throughout the cannabis business value chain.

Thank you!
