Hormonal Injectable Formulations

OVIGIL

Leveraging our commitment through *Highly Purified* formulations

OVIGILTM HP

Highly Purified Human Chorionic Gonadotrophin (HCG)

1000 | 1500 | 2000 | 5000 | 10000 IU

- HCG stimulates progesterone production, decidualization, angiogenesis and cytotrophoblast differentiation ensures the initiation and maintenance of early pregnancy.
- Improved pregnancy rate is evident with administration of HCG after IUI.
- 5000 IU of HCG before ET statistically significant and Improved the implantation and pregnancy rates in IVF/ICSI.

THE GONADOTROPINS THAT DELIVERS - PRECISION, RELIABILITY & CONSISTENCY

HUMENOTROPIN

Leveraging our commitment through *Highly Purified* formulations

HumenotropinTM HP 75 / 150 IU

Highly Purified Menotropin (HMG)

- Ovulation induction for **higher quality oocyte**.
- Higher **fertilization and implantation** rates.
- Ensures superior quality **Embryos**.
- Lesser incidences of **OHSS**.

Excellent outcomes -

- Assured follicular development
- High quality oocytes and embryo
- High pregnancy rates

THE GONADOTROPINS THAT DELIVERS - PRECISION, RELIABILITY & CONSISTENCY

OVITROPIN

Leveraging our commitment through *Highly Purified* formulations

Ovitropin™ FSH 75 / 150 IU

Highly Purified Urofollitropin (FSH)

- Ovulation induction for **higher quality oocyte**.
- Higher **fertilization** and **implantation** rates.
- Ensures superior quality **Embryos**.
- Ensures safety **outcome of pregnancy**.
- Cryopreserved **Embryos**.

Highly purified with special techniques to retain molecular structure -

- Ultra, Micro and Nano filtration
- Unique Hydrophobic Interaction chromatography
- Ion-exchange and affinity chromatography

THE GONADOTROPINS THAT DELIVERS - PRECISION, RELIABILITY & CONSISTENCY

SHREETROPIN

Shreetropin®

Somatropin for Injection USP Recombinant Human Growth Hormone (rDNA origin)

- Shreetropin helps in overcome Growth Hormone deficiency in adults and children.
- Treats low growth hormone levels, growth failure, and short stature.
