

DON'T TAKE OUR WORD FOR IT, SEE FOR YOURSELF

FARRAR™, powered by Trane Technologies, is now offering a limited *Try Before You Buy Freezer, Freeze/Thaw Equipment Demo Program.*

FARRAR™, powered by Trane Technologies, is now offering a limited Try Before You Buy Freezer, Freeze/Thaw Equipment Demo Program.

FARRAR solutions are helping pharmaceutical/biopharmaceutical, biobanking/biorepositories, and clinical donation applications meet the rapidly growing global demand for low and ultra-low-temperature processes, specifically in the manufacturing, controlled freeze/thaw, and bulk storage of medicines, vaccines, and other biological products.

Our best-in-class, **ULC/ULCi Series Ultra-Low Temp** freezers offer the industry's best temperature confidence, full redundancy, and maximum payload.

FARRAR's **Controlled Rate Chamber Model 4000 series** freeze/thaw solutions are the industry's best-kept secret with wide-range temperature capability and preparation in hours instead of days or weeks.

Grab this opportunity now! Be one of the selected companies and see how our industry-leading units perform in your facility.

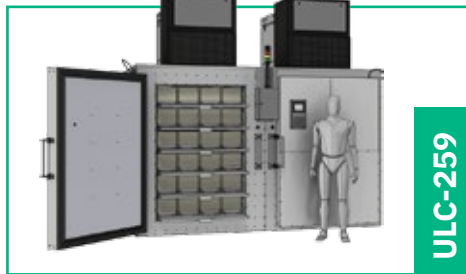

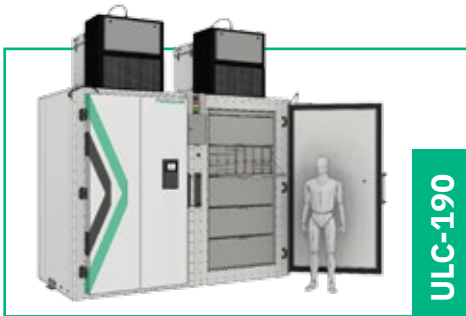

Try Before You Buy Demo Program includes:

- 8-week, **no-commitment**, demo trial in your facility
- Delivery, installation, and a one-hour training session, conducted by FARRAR
- Up to one hour of engineering and technical support provided by FARRAR equipment experts

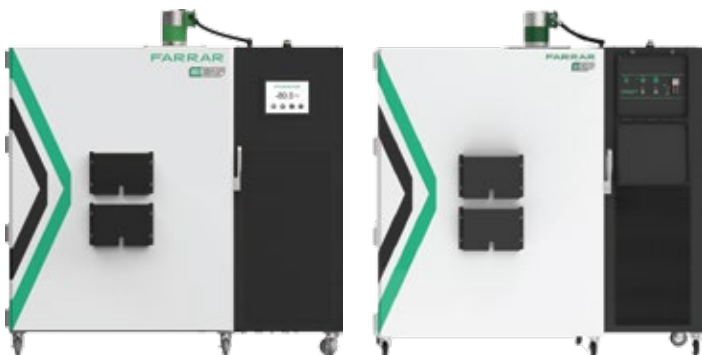

It's Easy to Participate:

- **Email FARRAR** with subject "*Try Before You Buy Demo Program.*"
- Note in the body of the email your interest in ULC or 4000 Series Controlled Rate Chamber.
- Expect a response to your request within three business days.

ULC SERIES

4000 SERIES CONTROLLED RATE CHAMBER
